**How do I set up a Recruitee x mamgo integration?**

Follow these 4 simple steps to quickly set up an integration between Recruitee and mamgo.

1. Let your **mamgo Account Manager** know that you would like to set up an integration between Recruitee and mamgo.

2. **Generate** a new API Token for mamgo.
a) Within your Recruitee Dashboard navigate to *Settings* **>** *Apps and plugins* **>** *Personal API tokens*

b) Click on *+ New token,* provide a label in the text box (e.g. mamgo*)* & click on *Save*.

3. **Send** your new API Token information below to your mamgo Account Manager (or to hello@mamgo.io)
- Company details (Company name, ID, Subdomain)
- API Token key

4.**Ready to go!** Lean back as mamgo takes care finishing set up, testing and activating the integration for you.
