Summer Architecture Design Intern

Flexible Start Date in Late May or June, 2022

ABOUT KENNEDY & VIOLICH ARCHITECTURE (KVA)

The design team at KVA Matx works with leading educational institutions, building industry manufacturers and public agencies to create designs that advance the sustainable use of materials and carbon-zero fabrication techniques in architecture. Located in the former Blue Bird bottling plant in Boston's Newmarket district, KVA supports professional licensure, is committed to mentoring and to fostering a social and supportive open studio culture. KVA Summer Internships, conducted in-person, offer designers the chance to learn and gain leadership experience through hands-on design work and experimentation in KVA's in-house CNC and rapid prototyping workshops.

ABOUT THIS POSITION

KVA seeks skilled architectural designers with 1-3 years of work experience for full-time, paid Summer Internships. Design Interns are involved in aspects of ongoing design projects and design research initiatives in wood construction, flat-to-form design, and biomaterials. This summer KVA will be working with Brick Manufacturers in Utah and Maine, the design of civic infrastructure for public e-vehicle charging, with Community Food organizations, and mass timber (CLT) construction and wood in its wildest forms. Summer Internships are full-time, in-person positions with a minimum 8-week time commitment. Start dates are flexible in late May/June, 2022. Salary will be determined commensurate with prior experience and skill sets.

Candidates for KVA Summer Internship positions should have excellent ideation and communication skills and a portfolio that demonstrates strengths in architectural design, 3-D modeling, and physical fabrication. Candidates should bring critical thinking and a passion for making and all things design. Proficiency with Rhino 7.0 is required for this position. Experience with Revit, Grasshopper, or Rhinoscripting is a plus.

HOW TO APPLY

Please send a brief Letter of Interest, CV, and Work Sample link or PDF file under 10MB to: Sheila Kennedy, FAIA skennedy@kvarch.net
