## **FULL-TIME ARCHITECTURAL DESIGNER POSITION**

### **ABOUT KENNEDY & VIOLICH ARCHITECTURE**

[KVA Matx](#) works with leading educational institutions and public agencies to create designs that advance material innovation and low-carbon architecture. Located in the Blue Bird bottling plant in Boston, KVA supports professional growth and licensure. KVA offers an open studio culture where projects are taken from the earliest stages of design through to construction administration. KVA studio's in-house CNC and rapid prototyping workshops provide opportunities to explore and develop design concepts and construction components.

### **ABOUT THIS POSITION & YOU**

KVA seeks a skilled architectural designer with 2-3 years of professional work experience, who cares deeply about all things design. At KVA, you will be working on the design and development, and realization of architectural building projects for leading universities and public agencies. Current KVA projects include Libraries, Innovation and Creative Arts Programs, Digital Labs, and work on Clean Energy Infrastructure. Ongoing material research at KVA Matx includes wild wood and automated stereotomic stone fabrication, upcycled brick masonry, and 'pop-up' flat-to-form design.

You are a talented and versatile designer with excellent verbal and visual communication skills. Your design portfolio demonstrates your strength and experience in architectural design, 3D modeling and representation. You are proficient in Rhino, Illustrator, InDesign, and Photoshop as these are important requirements for this position. Your prior work with Revit, with digital fabrication tools, with Grasshopper and/or RhinoScripting, and your experience building physical models and mockups are strong positives for this position. Last and not least, you'll bring and share your passion for architectural drawing, critical thinking, and all things design. Salary with full benefits will be based upon your skill set and professional experience level.

### **TO APPLY FOR THIS POSITION**

Please send a brief letter of introduction, your CV and portfolio link or sample (under 5 MB) to Principals Ben Widger, AIA, [bwidger@kvarch.net](mailto:bwidger@kvarch.net) and Sheila Kennedy, FAIA, [skennedy@kvarch.net](mailto:skennedy@kvarch.net)
