

EMT Datasheet

EMT-1230-1-4-ECO

This Energy Machines™ EMT model contains a refrigerant circuit with an oil-free centrifugal turbocompressor. It is classified as a non-positive displacement compressor.

This model is equipped with an economizer heat exchanger, increasing its energy efficiency. The machine's evaporator and condenser are shell-and-tube heat exchangers. The evaporator operates with a flooded evaporation technique.

These components work together to create a powerful and efficient machine.
