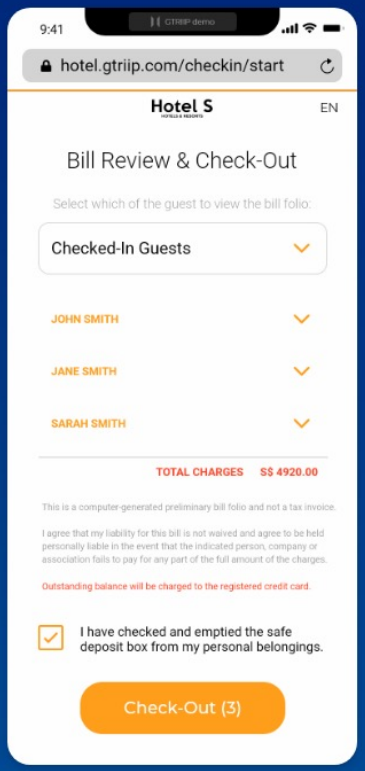
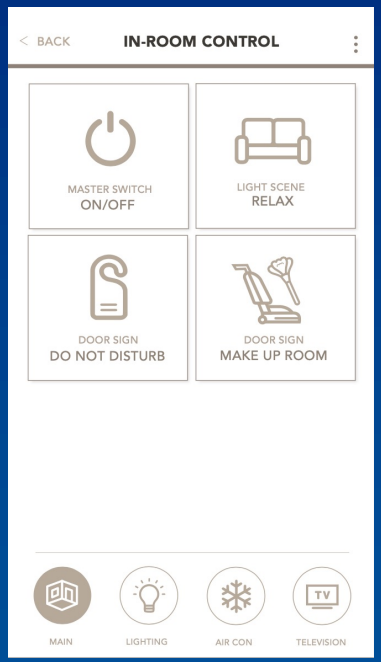
Chat messaging feature

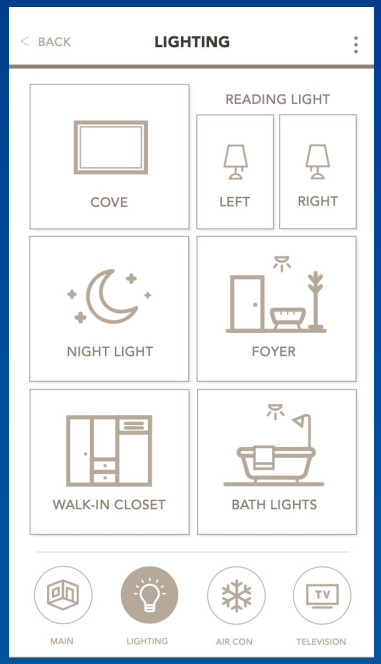


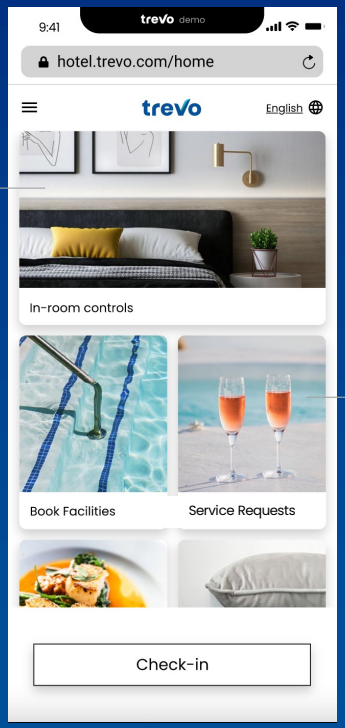
View bill and check-out

Gtriip

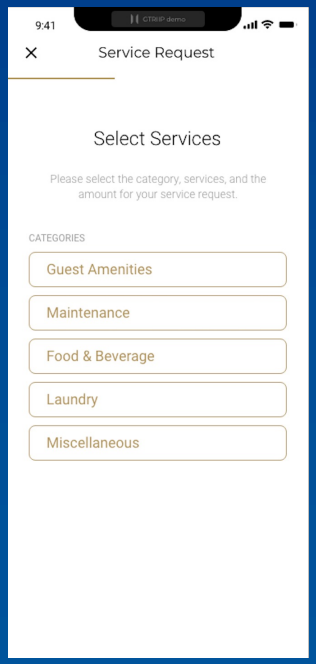
In-App Partner Services

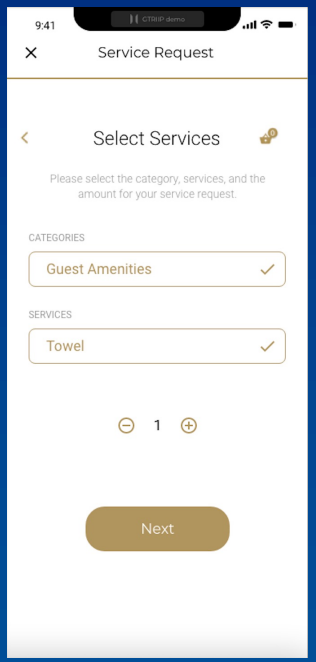






GTRIIP integrates with third-party providers to provide services like in-room controls, service requests, etc.





Gtriip

Hotel Product Value Proposition

Contactless and Paperless Process

Option to perform end-to-end guest journey via the user's own mobile device provides a seamlessly contactless digital experience.

Hardware Agnostic

Mobile key compatibility across different brands of door access systems provides flexibility to the hotel.

Increase Staff Efficiency and Productivity

Minimize amount of mundane tasks being performed at the hotel front desk and empower guests and staff to adopt digital tools.

Provide a Safe and Hygienic Environment

Reduce extended interaction between staff and guests through the pre-arrival process and kiosk check-in or eliminate unnecessary contact completely via mobile check-in on the guest's own device.

Facial Recognition Technology

Ensure a secure mode of identity verification using GTRIIP's proprietary photo ID and face recognition technology.
