

Where are we working?

Between now and 2025, we'll be working across Mansfield, installing 20,000 of these wonderful solutions. Here's a map showing the different areas. We'll let you know if you might be directly affected by the work and we'll also be coming to your area to talk to you about this exciting project.

In the meantime, you can find further detail about where we're working at

www.stwater.co.uk/mansfield
