Javad Raisi

UX Engineer

Hey there! I am Javad, and you are checking the right Résumé if you are looking for a UX engineer who loves solving problems to design and develop digital products. :)

Experience

Jan 2022 – Present

projo

UX Engineer

Berlin

In a fast-paced startup environment, I am in charge of all things design as well as some development.

- I create **UX/UI design** solutions in collaboration with our product manager and turn them into **code** for our product.
- I also design and develop our new website with all the necessary **visual materials** such as short videos or infographics to present our product online.
- Besides I design also our newsletters and company events posters bringing consistency, reliability, and attractiveness to our **branding**.

Aug 2021 – Dec 2021

Freelancer

Product Designer

Berlin - Remote

I help companies to understand their users' needs and want and deliver a seamless experience to them through a user-focused, data-driven, and design-led process. I develop meaningful solutions and verify with purposeful testings and finally deliver them to the end-users with a simple and beautiful design.

2016 – 2021

gmp International, MPP Plan Project, Winking Froh Arch.

Architect & Urban Designer

Berlin - Hamburg

In these five years of working experience, I developed acclaimed German and international architectural and urban design projects.

Education

Finished: Feb 2022

Techlabs

Web Development

Berlin

Throughout this Bootcamp, I joined as the developer on our team of other three UX designers and a Data Scientist and built DUAW as our final project using React, JS, MUI, CSS and more.

DUAW is a website that enables Techlabs' students to showcase their projects and request for feedback and further collaborations.

Finished: Jun 2021

Interaction Design Foundation

UX Design Bootcamp

Online

Throughout this intensive Bootcamp, I worked on two real-world projects with the guidance and critiques of my mentor Nikos Kotsakis and in collaboration with Sasha Kudriashova as the graphic designer. In response to the users' needs and aligned to the client's design brief specifications and constraints, I delivered_

- Meaningful design solutions that elevated the user experience.
- A brand identity that generates consistency in all aspects of both projects.

Graduated: Nov 2016

Bauhaus Universität – Weimar

MSc European Urban Studies

Geschwister-Scholl-Straße 8, 99423 Weimar, Germany

During this interdisciplinary master's degree, I gained a valuable understanding of **human behavior**, collective **psychology**, and the problems an urban environment as a complex system can face through studies such as sociology, **anthropology**, political sciences, history, and migration. In order to solve these **wicked problems**, we learned the latest methodologies of field research, participatory design, workshops and facilitation techniques to engage the stakeholders in the design process.

Graduated: Dec 2013

Università degli studi di Parma

Bachelor of Architecture

Via dell'Università, 12, 43121 Parma PR, Italy

It guided me to lay a strong foundation for design principles Creating projects and studying about of art and architecture.

Passions

Traveling	I have lived and worked in 4 different countries and traveled to many others. Living these wonderful social and cultural realities had been the best school of life for me.
Movies	I love cinema. Movies from directors such as Vittorio De Sica, Jim Jarmusch, Stanley Kubrick, Coen brothers, Abbas Kiarostami, and Sofia Coppola take me to another dimensions of imagination.
Music	I like all music genres! From classical music to jazz music and from alternative rock to dancing with techno music.
Sport	I play football, handball and ping pong since childhood, and now snowboarding is my thing.
Cooking	It is like meditation for me. Pure joy, especially when it is shared with others. :)

Thank you for your time.
