

*IVS is a wide-spectrum support services company*

## Commitment

The philosophy behind IVS' Total Quality Effort is continuous improvement through employee empowerment. People throughout IVS work on cross-functional teams to ensure that we fulfill our corporate mission of providing high quality repairs and services guaranteed to meet or exceed customer expectation.

Customer satisfaction requires a steadfast commitment to both quality and integrity. Our employees have integrated this knowledge into their daily process and monitoring of the expedient delivery of our services. At IVS, we take great pride in our work, in our company, and in our customers. With customer satisfaction as our goal and continuous improvement as our pathway, we will continue to maintain our reputation as the leader in quality electronic and mechanical repair.

*No hassles, no red tape, no double talk*
