SeamlessMD

Engage, Monitor and Stay Connected with Patients Through Personalized Digital Care Journeys

Deliver Interactive Digital Care Plans

Including reminders, to-do lists, videos, and evidence-based education - customized to match your care pathway and vision.
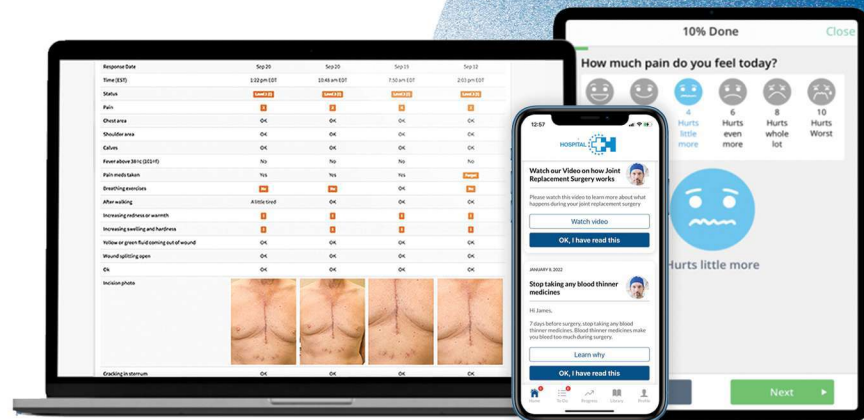

Track Patient Progress

Automatically collect Patient-Reported Outcomes (PROs) across an episode, such as symptoms, vital signs, care pathway compliance and validated surveys.

Remote Patient Monitoring

Create custom alerts and dashboards to monitor patients and intervene sooner for patients at-risk.

Customizable, Out-of-the Box Care Plans for All Clinical Areas

SeamlessMD's care plan templates are developed in-house using our proprietary methodology of translating evidence-based guidelines and the medical literature into patient-friendly, interactive journeys that meet best practices for health literacy, adult education, and online accessibility. Our care plans achieve high patient engagement and improved outcomes through simple, action-oriented, tailored, and accessible education.

"SeamlessMD has been instrumental in keeping our patients safe and connected during the pandemic. The technology aligns with our digital patient experience strategy by providing an Epic EMR and MyChart integrated, patient-centered experience that is personalized for each patient and their journey."

– Dr. Charles L. Lucore
  President of St. Francis Hospital

Validated EHR Integrations with Epic, Oracle Cerner, MEDITECH, and Veradigm

Proven integration with leading EHR solutions using standard integration interfaces including HL7, FHIR, SMART on FHIR and Oauth2.

SMART on FHIR integration

Deliver integrated patient & provider experiences, including:

- ✓ Enroll patients directly from the patient's chart
- ✓ Monitor patients from within the EHR
- ✓ Patient portal integration
- ✓ Exchange data between SeamlessMD & EHR

Security and privacy compliant

Compliant with HIPAA, PHIPA, PIPEDA, PHIA and other privacy legislation. SOC 2 Type II certified.

"SeamlessMD has been a terrific Digital Patient Engagement partner to elevate our hospital's digital transformation strategy. It is a very user-friendly platform that has allowed us to more efficiently deliver Cardiac care and engage our patients beyond the four walls of the hospital."

**– Marc Pelletier, MD, MSc, FRCSC
Chief, Division of Cardiac Surgery
University Hospitals**

About SeamlessMD

SeamlessMD provides the leading Digital Care Journey platform for hospitals and health systems to engage, monitor, and stay connected with patients across healthcare journeys. 35+ clinical studies & evaluations have shown SeamlessMD to improve the patient experience while reducing hospital length of stay, readmissions, and ED visits. Health systems such as Atrium Health, Baystate, MultiCare, University Hospitals, Horizon Health Network, Montreal Heart Institute, North York General, Trillium Health Partners, William Osler Health System, Sunnybrook, and others use SeamlessMD to elevate the patient experience, improve outcomes and lower costs. Patients access digital care plans on their smartphones, tablets, or computers and are guided via reminders, education, and progress tracking. Providers receive alerts, monitor patients, and access analytics to deliver better care. SeamlessMD is directly integrated with leading EHRs such as Epic, Oracle Cerner, and MEDITECH. SeamlessMD was named Top Patient Education Companies in 2022 and Top Rated Remote Monitoring Companies in 2022 and 2023 by AVIA, CAN Health Network Company of the Year in 2022, and earned a KLAS Research Spotlight report the same year.
