SKY DEEP

PROFILE

Who: I am a musician, audio technician, multimedia artist, educator and content creator with a strong YouTube focus. I have been theatrically trained in Los Angeles and have over 20 years experience both in front of camera and behind the scenes working in film and entertainment.

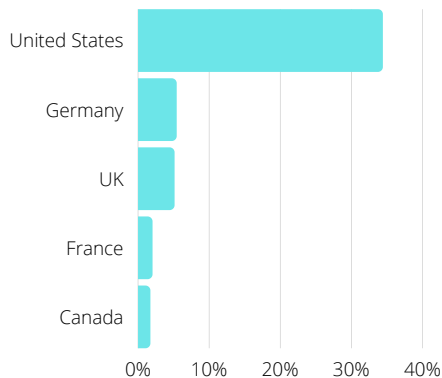

Why: I believe every person can create great things while enjoying life and making a connection with other people. I believe encouraging collaboration and conversation creates more chances for artistic freedom and fulfillment. This all adds up to a world with more harmony.

How: On my various channels, I offer music gear tutorials, music gear demonstration and reviews, audio software tutorials, educational live streams about topics that relate to creativity in the music industry.
