

# System requirements for Messenger Pigeon.

Messenger pigeon is available as a desktop, web, and mobile application. This document outlines the minimum system requirements for each of the applications available. To get the most out of Messenger Pigeon, we recommend using the desktop, web, and mobile applications together.

## **Messenger Pigeon desktop application on Mac:**

We recommend and support Monterey, Ventura or later. We also recommend an Apple M1 processor and a minimum of 8GB of memory.

## **Messenger Pigeon desktop application on Windows:**

We recommend running Messenger Pigeon desktop on Windows 10 or 11 with at least 8GB RAM, Intel i5 processor or later with SSE2 support CPU, and 500 MB free disk space.

## **Messenger Pigeon on web browser:**

We recommend using the Messenger Pigeon on the web through the latest Google Chrome or Microsoft Edge browsers.

## **Messenger Pigeon on mobile:**

We recommend running Messenger Pigeon on the latest iOS and Android operating systems.
