

Thank you for donating to Fenix Aid!

YOU DONATED A COMMUNITY PACKAGE:

Aside from direct interactions with clients, Fenix engages with other NGOs and refugee communities to build their capacity and understanding of the needs of the populations we support. Such sessions can range from advising non-legal NGO actors on the asylum process, such that they can better refer and signpost their clients for legal aid and other services, to running tailored training sessions on Safeguarding and SOGI (sexual orientation and gender identity) based asylum claims. With this package, you are choosing to support legal workshops, protection training, and tailored programs designed according to the specific needs of camp residents and local actors.

We are incredibly grateful for your support — our work would not be possible without the donations of people like you.
