

## BEFORE INSTALLING THE AURAGAMI LIGHT SHEET:

(A) Dry fit light sheet(s) and mark placement if needed. (B) Make all necessary cuts to light sheet(s). Never cut Auragami while connected to power. (C) Always test light sheet functionality prior to permanently installing.

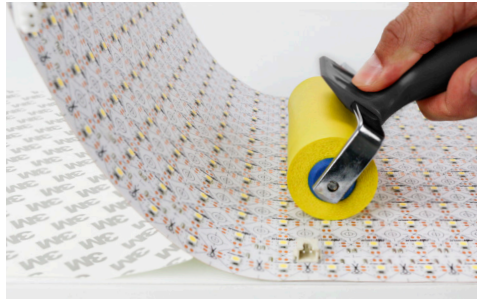

### ADVISORY NOTICE

This roller was specifically engineered for use with Auragami Light Sheets. Other rollers may cause serious damage to the light sheet. Do not substitute.

### STEP 1

Fold back 1 to 2 inches of the adhesive backing paper. Carefully line up the sheet and stick the exposed edge to the installation surface.

### STEP 2

Firmly press down with the roller to slowly stick the sheet in place while simultaneously removing the adhesive backing paper.

### STEP 3

Roll back and forth in straight lines in any direction over the entire surface of the sheet (even over the connection terminals) to ensure complete adhesion.
