

The **ECO** Alternative to Plastic Toothbrushes

100% NATURAL  
**BAMBOO**  
TOOTHBRUSH

## BENEFITS

### SUSTAINABILITY

Bamboo is the fastest growing plant on Earth, growing to full size within just 2 years

### HYGIENIC

Bamboo handle provides water resistance and prevents the growth of microbes during use

### VEGAN

Our brushes are not tested on animals, nor do they contain animal products

### ZERO WASTE

100% biodegradable handle and our brushes are minimally packaged in cardboard and paper

### TEETH WHITENING

Charcoal bristles naturally lift stains off teeth

IT'S TIME TO **green up**

It's time to **GREEN UP** to **ECO** Alternative to Plastic Toothbrushes

**eco**  
FACTS

3.5 billion brushes thrown away each year amounting to an estimated **35 000 tons of waste**

Approx. **100 billion plastic brushes** manufactured since industrial revolution that **still exist** on the planet today

Only **18%** of consumers look for sustainable alternatives

100% plastic brushes made of polypropylene handles mixed with other plastics that **can't be recycled**

**100 000 marine animals** and some 1 million seabirds **die each year** from ingesting plastic waste like toothbrushes

## BAMBOO or PLASTIC?
