The idea with the seed pencil is that you plant it, when it becomes too short to write or color with. This way you give it a new life by turning the stub into herbs, vegetables or flowers. The seed pencil is 100% natural and biodegradable, does not contain lead or other toxic substances and it has become a popular green alternative to company plastic ball pens. Seed pencil is a complete win-win usable Eco-friendly stationery products not only inculcate gardening skills also inspires to write
