

# RICE HUSK DRINKWARE SERIES

**Stop using disposable plastic or paper coffee cup**

A small change can make a big positive effect – save energy, materials, money and reduce waste by choosing non-plastic reusable coffee mugs made from rice husks

## Life Cycle of RICE HUSK Product

As natural agriculture waste, rice husks must be free from toxin. The raw material rice husks are completely free from harmful elements such as DEHP, BBP, DBP and other toxins that may endanger anyone's well-being. The rice husks coffee mug lasts for years when used correctly but in conditions of full exposure to Nature is totally biodegradable (natural elements), making it even more environmentally friendly than recyclable materials that require industrial processing to be decomposed.
