

# MEDIAVERSE

Content Creators

Born storytellers, media veterans, and art nerds,  
driven by teamwork and collaboration.

**We are a team of creators built to partner with global forward-thinking companies  
to create strategic corporate content to boost learning, adoption and discovery  
for the tech, human health and, other industries.**

## We are problem-solvers

We bring compelling concepts to life through videos, decks, animations, AR filters, and more, retaining the essence and transforming complex processes and concepts into clear, functional content.

We gather insights  
and investigate

We write

We design

We shoot

We animate,  
and voice over

We translate  
and adapt

## Our universe, a Mediaverse

We create content with adaptability in mind. It becomes a universe of formats, languages and possibilities that we transform to adapt to new needs and evolving strategies.

## From LatAm to the world

Establishing a single point of contact in your same time zone, our multilingual team of creators collaborates from different locations in LatAm and the US. This endows us with a global lens, strengthening our abilities to create content for different regions across the world, covering industries from tech to life-sciences to the outdoors.

## Our formula

Founded on resilience, shaped by Latino creativity, and strengthened by 5+ years collaborating with Meta, we create value by combining our Agile Mindset with a collaborative approach, constant communication, and adaptability to different environments and cultures.

We go  
#BeyondVideo

Some of the clients we have worked with

Meta

WhatsApp

Nestle

LUXOTTICA

Pfizer
