

Utility Shutdown Permit Manager

REIMAGINING FACILITY COMPLIANCE

Utility Shutdown Permit Manager allows you complete control over the permit approval process. Similar to our Permit Manager application you are able to apply, review, and approve utility shutdown permits all online! Included with the tool are a variety of vendor management tools allowing oversight for credentialing, training, check-in, and badging,. Your vendors or employees can now apply for an utility shutdown permit online through one seamless portal. The utility shutdown permit form will be completely customized to match your requirements and any rework, review notes, or approvals will be sent automatically to the appropriate party. This means your vendors can now apply and print off permits without stepping on-site.

Benefits of Utility Shutdown Permit Manager

- ✓ Complete management of utility shutdown permits
- ✓ Optimize vendor management
- ✓ Streamlined permit approval process
