Tracers

Manage every step of your Tracers program from start to finish

Soleran Healthcare's Tracers helps you manage every aspect of your tracers process from scheduling to closing the loop on failed items. We understand this involves a lot of disciplines, so whether you are on the quality, safety, or infection control team, you can document all of your findings electronically with photos or any other data point.

Limitless Types

Soleran Healthcare provides you with the flexibility to have unlimited Tracer types, with any questions you want.

60%
Reduction in Close-Out Time

Close the Loop

Our flexible notifications process will send reminders for upcoming Tracers, deficiency due dates, and escalated deficiencies so you will always be up-to-date. We make it easy to close out deficiencies through our app and web forms for employees without a log-in.

Actual Analytics

Knowing how many Tracers you have completed is fine, but don't you want more? Why not let Soleran produce USEABLE data that can help you improve safety and eliminate time wasted on spreadsheets.
