

# EB EXPLOSION VENTS

MULTI-LAYERED AND SINGLE-SKINNED VENTS

**A full range of explosion vents manufactured at our North Shields facility. Includes single-skinned, multi-layered, flat and domed designs.**

Our multi-layered designs combine layers of stainless steel and fluoropolymer to create a high-performance explosion venting solution. Available as square, rectangular, round or trapezoid, with a wide range of bolt pattern configurations, the panels are non-fragmenting and offer fail-safe, rapid, full venting. They also provide a dust-tight seal with excellent corrosion resistance. The multi-layered domed design offers the highest operating ratio of all our explosion vents (80%), with enhanced operating performance under cyclic pressure, back pressure and vacuum conditions.

Our single-skinned, all-metal vents offer a cost-effective explosion protection option. The vents form a dust-tight seal, are non-fragmenting, and are resistant to abrasion, corrosion and moisture. The flat design is especially suitable where silo construction requires a low-profile solution. The domed design offers higher stability for applications where there is a medium level of vacuum.

## Sizes

- Custom sizes available

## Set Pressure Range

- Multi-layered: 0.05 barg to 0.1 barg @ 15/30°C
- Single-skinned: 0.1 barg @ 15/30°C

## Performance Tolerance

- +/- 25%

# TECHNICAL SPECIFICATIONS: MULTI-LAYERED VENTS

All figures apply to both flat (XSF/XRF) and domed (XSD/XRD) vents unless otherwise specified.

Size range	Internal dimensions (mm): 180x140 to 1000x1000 External dimensions (mm): 260x220 to 1080x1080
Vent area	0.02 m <sup>2</sup> to 1.25 m <sup>2</sup> (0.22 ft <sup>2</sup> to 13.46 ft <sup>2</sup> )
Burst pressure range	0.05 barg to 0.49 barg
Standard burst pressure offering	0.05 barg to 0.1 barg @ 15/30°C*
Temperature range	-40°C to 200°C as standard**
Operating ratio	Flat: 60% Domed: 80%
Performance tolerance	+/- 25%
Vacuum capability	Flat: Limited Domed: Up to full vacuum
Torque dependent	No
Vent-Tel Detection	Optional
Optional accessories	Frame, Gasket
Shapes available	Flat: Square, Rectangle, Round, Trapezoid Domed: Square, Rectangle, Round
Materials available	Stainless Steel as standard

\*Other burst pressures available on request

\*\*Higher temperatures available on request
