SKILLS

User Research and Analyzing

I've used survey tools and soft communication skills to gather user research. Miro is one of my favorites for affinity diagrams to find themes and gain user insights.

Wireframing and Prototyping

I've used Adobe XD and Figma to build digital wireframes and high fidelity prototypes.

Visual Design

Adobe Photoshop, Illustrator, InDesign, XD, and Figma are tools I've been exposed to the most to build my UI Design skills.

AWARDS

Employee of the Month Nominee

"Lauren was great on a recent large project. The client was very particular, but with every new request, she handled with professionalism and a positive attitude. Her dedication to getting the job done and done right was amazing."

EDUCATION

Marylhurst University

I graduated in 2016 with a Bachelors Degree in Art History and Media Studies. I have enrolled in UX Design and Web Development bootcamps since then

EXPERIENCE

Blue Marble Sound (Loveland, CO)

Web Designer // January '23

- Created a website about a Dolby Atmos-mixing music studio that met the client's needs
- Tested and debugged the website so that the website works as intended and that it is free of errors.

Duvera Solutions Group (Vancouver, WA)

Web Designer // June '22

- Designed the website's visual elements such as typography, color scheme, and images.
- Helped client achieve increasing sales, generating leads, and building brand awareness.

American Airlines (Dallas, TX)

Flight Attendant // June '18 - June '22

- Providing excellent customer service by handling passenger complaints and resolve issues in a calm and professional manner.
- Working effectively as part of a team in order to resolve any problems that arise.
- Adaptable to changes in schedule and flexible in my approach to work.

SKILLS

Problem-Solving

Identifying problems related to user experience

Collaboration

I have worked effectively with team members such as developers, project managers, copywriters, and stakeholders

Attention to Detail

Being mindful of small details that can make a big difference in the user experience

Usability Testing

Conducting tests to ensure it is user-friendly and it meets the need of users.
