

For Immediate Release

PainScript™ Will Address CONNECTpreneur Big Idea Summerfest June 8 in McLean

Washington, D.C. – June 5, 2023 – PainScript, a telehealth company focused on improving patient outcomes through care plan adherence and medication compliance, announced today that Dan Cohen, the company's Chief Executive Officer, will present at the CONNECTpreneur "Big Idea" Investor conference, held at the Valo Park Conference Center in McLean, Virginia on June 8, with the main session beginning at 5 p.m. In addition, members of PainScript's management team, including President and CCO Jim Breidenstein and CTO Scott Cashon will be available for one-on-one investor meetings with registered attendees at the meeting.

Cohen will discuss PainScript's unique, data-driven clinical, regulatory, reimbursement and commercialization strategies to advance care plan adherence and medication compliance for chronic care patients in a variety of disease states. This in-person event will also be available live online and can be accessed by contacting the sponsors at <https://connectpreneur.org/>

About PainScript™/HealthScript™

PainScript™ (www.painscript.com) (AdhereRx, d/b/a PainScript™/HealthScript™) is a medical treatment compliance platform, focused on creating a personalized pathway to support chronic care interventions for patients suffering from pain, and opioid and other substance use disorders (SUD). The SaaS platform is technology based, clinically validated via nine (9) published and peer-reviewed clinical trials. PainScript's approach is very accessible and user-friendly via a digital platform to provide the physician and patients daily, evidence-based telehealth monitoring interventions designed to effectively improve patient compliance with treatment protocols, leading to better health outcomes and a reduction in related healthcare costs.
