Mayer-Kuvert-network GmbH

# Get your paper packaging from the experts.

Our premium paper packaging is produced at our manufacturing factory based in Lancashire, UK.

From the enquiry stage, to production & shipping, we pride ourselves on our high level of customer service.

# Who we are.

## Engineering in paper.

### Developer and manufacturer

Paper is the medium of the future for lightweight, flexible and sustainable packaging and shipping solutions. As a developer and manufacturer with many years of experience, bestpac is the ideal partner for paper-based shipping, sales and service packaging in large volume ranges. With the power of the Mayer Group, expertise, quality and performance are in perfect harmony.

We are currently working towards our long-term goal of becoming one of the UK's most sustainable paper bag manufacturers, with the aim of continuously advancing the topic of sustainability to leave as small an ecological footprint as possible.

# Make an impact with eco-friendly paper bags.

Switch to Bestpac UK paper bags. Our paper bags are durable, reusable, and environmentally friendly – add your own logo or design for a personalised touch.

As proud PEFC (PEFC/16-33-70) and FSC® (FSC-CO22608) certified suppliers, we supply a rapidly expanding market who require high-quality, and cost-effective paper packaging solutions.

BIODEGRADABLE

SUSTAINABLE

RECYCLABLE

We pride ourselves on our exceptional standards and you can rest assured that every item manufactured in our paper packaging factory is the very best.

Made using recognised and certified materials, all our paper packaging products are biodegradable, sustainable, and recyclable.

Our standards are important to us, and we'll always aim to deliver the best possible paper packaging solutions on the market.

## Certification & Environmental.

Our factory has an AA rating\* from the BRCGS Packaging Materials, the highest grade possible, which reflects our dedication to creating a safe, progressive, and quality manufacturing environment.

\*BRCGS certification is for our paper food bags only.

# The highest quality paper packaging.

## Forest Stewardship Council®.

Through FSC Chain of Custody Certification, we can assure the traceability and integrity of our responsibly sourced materials throughout the supply chain. Thus enabling you, our customers, to make informed, conscious choices when purchasing our finished product. This to us, is a valuable factor to consider in a world where we are all becoming more aware of our environmental impact.

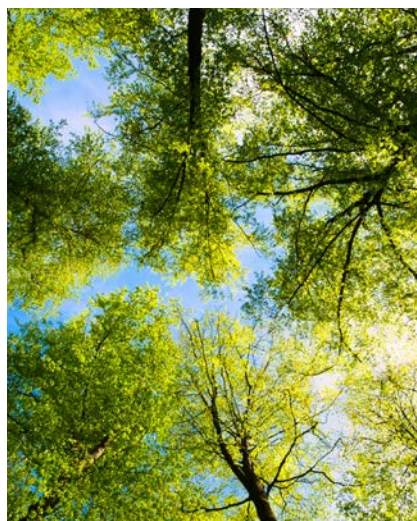

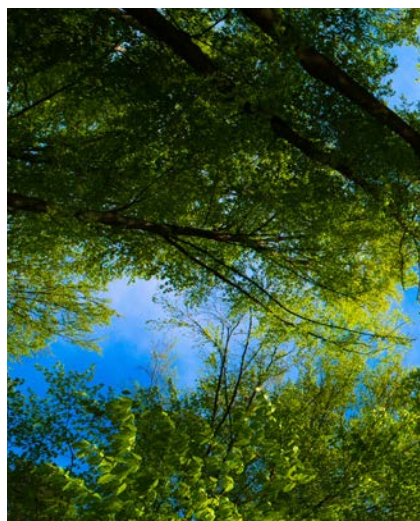

## Home compostable film.

We offer a premium cellulose film that provides an environmentally responsible alternative to traditional petroleum-based plastics.

✓ Certified compostable and meets European and American composting standards

This packaging film is designed to protect and preserve whatever's inside, including high-demand products such as bread and pastries.

- ✓ Environmental sustainability
- ✓ Reduced plastic waste
- ✓ Soil enrichment

# Paper food bags.

The food bag production machines are located in a separate, hygiene-controlled area of the factory.

Our food paper bag production facility is certified to the BRC Global Standard for Food ("Global Standard for Food Safety") and has received an AA rating, the highest possible rating for the safety, quality and operational criteria that must be met in the food sector.

## "100% recyclable and home compostable"

We place great emphasis on sourcing materials from a sustainably approved supply chain, including paper delivered by PEFC (PEFC/16-33-70) and FSC® (FSC-CO22608) certified suppliers. The kraft paper materials used to construct our food bags is 100% recyclable and biodegradable, providing an eco-friendly solution to plastic bags that can often find their way into landfills.

## "your brand gets maximum exposure"

Our range of eco-friendly paper food bags can feature a clear window, allowing consumers to see the contents of the bag while keeping them protected from the elements. Our paper food bags can be custom printed with up to 4 spot colours, ensuring that your brand gets maximum exposure.

# Home compostable film.

Environmental Sustainability

Reduced Plastic Waste

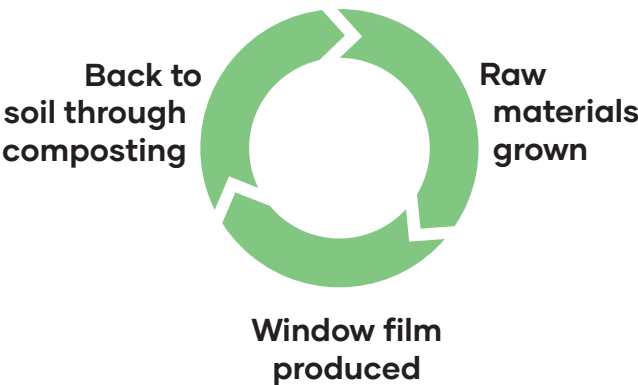

Soil Enrichment

We offer a sustainable cellulose film that provides an environmentally responsible alternative to traditional petroleum-based plastics. These packaging films are certified compostable, and designed to protect and preserve whatever’s inside, including high-demand products such as bread and pastries.

The United Kingdom has a strong emphasis on environmental sustainability, including composting initiatives. OK Compost HOME certification is well recognized and sought after by businesses and individuals engaged in composting activities.

This major step towards a commitment to sustainability will help reduce plastic waste in an impactful way.

“packaging materials will break down naturally & safely”

# Eco-friendly paper bags & packaging.

In an eco-conscious world, we know how important sustainability is. That's why all our paper bags are 100% recyclable, and our factory uses the best and most up-to-date sustainable technology and production methods.

There is always room for improvement, and we're dedicated to continually evaluating our performance and processes to ensure they are as sustainable as possible. Our factory has solar energy installed, uses water based inks and recycled materials.

Our sustainable and eco-friendly production process ensures that you can shop with confidence, knowing that you're doing your part to help preserve our environment.

**"The future is green and the future is paper packaging."**

Our team of paper packaging experts can also produce and store large quantity orders for call-off, offering next day delivery to retailers and distribution centres throughout the UK.
