Making a meaningful difference in the world can be complex for families. How can families go beyond traditional philanthropy and engage thoughtfully in creating positive impact in the causes they care about?

**Knowledge Impact Network™ (KIN)** scales impact by connecting the dots and curating knowledge exchanges for good.

We do this through **KIN Impact Circles**, communities of social innovators and advocates who come together and collaborate. Our Impact Circles immerse family members in the causes they care about via peer knowledge exchanges and access to the practical wisdom of world-class experts. We help drive family impact by stimulating innovative solutions and improved outcomes.

**THE BENEFITS**

- Advance a cause or multiple causes you care about
- Go “beyond the dollar” to support your nonprofits and impact portfolio
- Learn by meeting new social innovators and experts
- Connect and collaborate with new networks
- Engage multi-generational family members meaningfully
- Get customized support on your family’s impact goals
HOW IT WORKS

**Impact Circles for Social Innovators**
Peer knowledge exchange with 6-12 innovators who meet regularly to share best practices and support each other’s growth.
KIN leads the kick-off, offers our signature curriculum, and provides access to world-class experts as needed.

**Impact Circles for Specific Causes**
Group of 6-12 leaders create collective impact towards a singular cause to drive systems change. Cause identified by champion.
KIN recruits relevant stakeholders, coordinates and facilitates meetings, tracks and communicates a project’s progress and deliverables.

**All Impact Circles Feature:**
- Curated participants and initiatives
- Orchestrated “Needs and Leads” roundtables
- Moderated online discussion board
- Facilitated meetings (typically monthly, but adjusted to meet objectives)
- Hosted signature **Catalyze Sessions** with KIN’s network of experts
- Use of AI assistive technologies as they evolve

THE KIN DIFFERENCE

We are an inclusive network of networks with experience engaging leaders. Our leadership leverages our YPO and HBS networks and programming. As an NGO, KIN’s mission is to facilitate knowledge exchanges to scale impact and accelerate progress towards a brighter future.

KIN’s assets:
1. Access to high caliber leaders and their networks (two-thirds in the network are C-suite execs)
2. Proven methodologies for engagement and collaboration among these top tier networks

Leverage KIN to scale your impact. Contact us to learn more.

*Share knowledge. Scale impact. Shape the world.*
