

A low-angle shot of three white wind turbines against a bright blue sky with scattered white clouds. The turbines are positioned diagonally across the frame, creating a sense of height and scale. A yellow geometric line is visible in the top left corner.

SUSTAINABILITY

**THROUGH AUTONOMOUS
ROBOTIC INSPECTION**

SUSTAINABLE DEVELOPMENT GOALS

WE CONTRIBUTE TO 5 SDGS

3 GOOD HEALTH
AND WELL-BEING

**We prevent people from
being deployed in potentially
dangerous environments**

7 AFFORDABLE AND
CLEAN ENERGY

**We enable renewable energy
producers and distributors to
scale up their facilities through
remote inspection of substations**

8 DECENT WORK AND ECONOMIC GROWTH

We strive for decent and fulfilling work by improving safety standards and freeing workers from dangerous, dull and undesirable tasks

9 INDUSTRY, INNOVATION
AND INFRASTRUCTURE

**By accelerating the digitisation
of brownfield facilities we
bring together Industry,
Innovation and Infrastructure**

13 CLIMATE
ACTION

**Climate Action through early
leak detection of harmful gases,
reduction in commutes to-
and-from industrial sites, and
enablement of renewable energy
operations**

MAKE YOUR OPERATIONS SUSTAINABLE. ONBOARD AUTONOMOUS ROBOTIC INSPECTION.
