# Key Actions for Mayors

1

Health and well-being are prerequisites for reactivating the economy.

---

2

Reducing inequalities is a central linchpin for all phases of the recovery process. Social protection with a lens on addressing the needs of the most vulnerable is required.

3

Prioritizing health and strengthening health systems based on the primary health care approach, is at the foundation of our pathway towards recovery

---

4

We require strong political leadership and significant investment to affect change
