***What are your
most difficult
conversations?***

The Ladder of Inference

Conclusions:

What we **Believe** based on how we **Think** and **Feel**

Interpretations and Reasoning:

How what see and hear makes us **Think** or **Feel**

Selected Data:

What we actually **Focus on**

Watch for “False Inquiry”!

“Don’t you think that...?”

“Wouldn’t it be better if...?”

“Surely you’d agree that...?”

This is a statement, masked as a question...

Guidelines for Inquiry

Ask **open-ended** questions to understand their perceptions (e.g. what their **Ladder of Understanding** looks like)

1 If they give their **Conclusion**:

"I think you're wrong..."

2 Ask about their **Reasoning**:

*"What leads you to think that way?"
or "Can you help me understand why you feel that way?"*

3 Ask about what they saw [**Data**]:

"What did you see/experience that led you to feel that way?"
