NEEDS ASSESSMENTS ✓ ✓ ✓

How will the LEA identify the disproportionate impact of COVID-19 on student groups¹, which include underrepresented student groups, including each major racial and ethnic group, children from low-income families, children with disabilities, English learners, gender, migrant students, students experiencing homelessness and youth in foster care? (check all that apply)

- ☒ Student demographic data, such as race or ethnicity, FRPL eligibility, or English learner status
- ☒ Student outcome data, such as assessments
- ☐ State administrative data, such as unemployment claims
- ☒ Health data, such as local Covid-19 infection rates or hospitalizations due to Covid-19
- ☒ Conversations with community (stakeholder input)
- ☒ Student enrollment and attendance data
- ☒ Student chronic absenteeism data
- ☒ Student instructional mode (virtual, hybrid, in-person)
- ☒ Student course enrollment data
- ☐ Other: Click or tap here to enter text.
- ☐ Other: Click or tap here to enter text.

Criteria Checklist

- ☒ The LEA reviews and analyzes progress and gaps in all data sets to identify the disproportionate impact of COVID-19 on student groups.
- ☒ Across all data sets, the LEA establishes the greatest needs and identifies the reasons the needs exist.
- ☒ The LEA sets system-level improvement goals for the areas of greatest needs across all data sets, and interim goals that indicate progress.
- ☒ The LEA partners with school leaders to set school-level improvement goals that are aligned to the LEA goals (if applicable).

How will the LEA identify students who need to be re-engaged?

RSL uses the student information system Powerschool to collect student attendance data and store information. Powerschool is linked to Panarama Education (All-In-One Data Platform) where students are identified as critical, at risk, or on track based on daily attendance. Student trends are monitored through Panarama Education and daily list can be generated based off of student trends and needs. The list of students that need to be engaged can easily be accessed daily by office managers, principals, and the compliance and data coordinator. Interventions can be captured in Panarama Education for data tracking purposes. Student attendance data is captured and can be filtered through the following subgroups: a) Grade level; b) Cohort; c) Race Ethnicity; d) Hispanic/Latino; e) 504 plan; f) ELL status; g) Gender; h) Gifted and Talented; and i) Special ed status. Below is a summary of key findings:

- LEA currently serves 98% of students who identify as Black or African American, 1% Latino and ELL, 1% White, 18% of students with disabilities, and approximately 100% economically disadvantaged.
- Enrollment has had a slight decrease at Glen Oaks Middle over the last year. (19-20: 249; 20-21: 240; 21-22: 206)
- Students who identify as students with disabilities 48% or 15 students missed more than 80% of the school year in 20-21. Such was an increase from the 19-20 school year. The average missed days of the 15 students was 63 days. During the month of August 2021, 9 of the 37 Sped students missed over ten days of school.
- One student who is identified as ELL missed over 84 days in the 2020-2021 academic year. During the month of August 2021 the student has not missed any days.
- Students who identify as African American have a moderate rate (34% or 83 students) who attended less than 80% of the school year in 20-21. Such was an increase from the 19-20 school year. During the month of August 2021, 60% or 120 students that identify as African American attended less than 80% of school year. This may be due to us starting earlier than EBR and parents not sending their child until the first day of EBR's school opening.
- Current data indicates that there are 60 students who are having trouble logging onto remote learning instruction and will require additional attention when virtual instruction is deemed necessary.

Which evidence-based activities will the LEA invest in using ESSER II & III funds? (check all that apply)

- ☒ Re-engagement supports
- ☒ Drop-out early warning systems
- ☒ Other: Social emotional support
- ☒ Other: Attendance incentives/recognition
- ☒ Other: Student Information Systems: Panarama Ed
- ☒ Other: Support staff – Foundational Literacy Coaches, Accelerate Coaches, and Counselors

How will the LEA seek to re-engage students with poor attendance?

During the 21-22 academic year, RSL will monitor students who need to be re-engaged through Panarama Education regularly. Daily phone calls home will continue to occur for absent students. Per student, interventions will be identified and recorded such as parent meetings, student meetings, home visits, etc.. as they occur. RSL will identify when students are required to attend virtual class due to quarantining through Powerschool. The 60 students who

have exhibiting low attendance during virtual instruction will be provided additional supports through the teacher and office staff. Daily attendance reports will continue to be sent out by office managers in order to closely monitor the overall daily attendance rate. Our goal is to have students attend over 90% of school days. If students attend less than 90% of the academic year, then they will be missing over 18 days of school. Instructional minutes are necessary in order to increase student achievement. Students that are tracking to missing more than 90% of the school will be discussed during weekly district ILT meetings. Strategies and initiatives will be discussed to help increase student attendance to over 90% by Network and Administrative staff. An understanding of the attendance issues for particular subgroups that have significant attendance issues such as our Sped subgroup must be determined. Family engagement and outside resources such as FINS will be provided to in need families in order to increase subgroup engagement through the office manager, pupil services director, and the principal.

\$55,000

ESSER III

\$ 75,000

How will the LEA identify students who need mental and behavioral supports?

RSL uses Panorama Education <https://www.panoramaed.com/surveys> as a tracking system to identify students who need mental and behavioral supports. Monthly surveys commence after the first eight weeks of school and continue throughout the remainder of the year. **Approximately, 7 students are identified as requiring behavioral and mental health services.** Panorama crafts these research-based surveys to target a variety of social and emotional needs.

The surveys are distributed each month to students, parents, and/or staff to identify a caseload of students who require additional support from counselors, board-certified behavior analysts (BCBA), teachers, and site-based leadership teams. Student survey data are monitored through Panorama and provide easily accessible student lists. Interventions can be captured in Panorama to demonstrate tracking, efficacy of the support strategy, and student growth.

Additionally, on-site and network staff collaborates to observe students who require mental and behavioral supports through daily interactions with students, such as IEP meetings and minutes, IAP supports, parent communication, and staff feedback. When needed, a BASC-3 assessment is administered as part of the special education assessment process to identify students who may need additional support in the classroom.

Both observational and survey data points will be disaggregated based on race, socio-economic status, diverse learner status, school, and grade level to further understand and serve the needs of students and support a positive school culture.

(For Students) Which evidence-based activities will the LEA invest in using ESSER II & III funds? (check all that apply)

- ☒ Mental and Behavioral Health
- ☒ Character Building
- ☒ Trauma-informed care
- ☐ Full Service Community Schools
- ☒ Adoption/ integration of SEL curriculum
- ☒ Professional development for staff

(For Students) Describe the LEAs plan for implementing evidence-based activities.

The RSL network team leads a cadre of principals, coordinators, ESS staff and teacher representatives who work to address the health and well-being of our students. In collaboration with a variety of stakeholders such as teachers, counselors, SELF consultants, and leaders, our needs assessment highlighted further support for tracking and

enriching the health, emotional and behavioral experiences of students and the continued development and tracking assistance for staff.

RSL has taken the following steps in promoting health and well-being in our schools: (a) contract with SELF consulting in 21-22 through the entire year to deliver professional development for the district and provide and train BCBA and tech support; (b) purchased and implemented Panorama Education in 21-22 to use daily for identifying, tracking, and supporting students; (c) filled two of three open counseling positions within the first few months (one for each school); and (d) opened positions for both BCBA and techs at all 3 schools immediately.

As the year progresses, we intend to track student needs through monthly assessment of Panorama surveys, continue to hire for counselors and BCBA positions, and conduct side-by-side reviews of attendance, well-being, and academic success data to support next steps. We expect to have 100% on track completion and participation in order to provide effective services to students by Dec 2021. Progress will be monitored at scheduled meetings with network staff and admin

How will the LEA allocate funds to students most impacted by the Covid-19 pandemic? (Please describe the formula or decision-making rubric to allocate funds across schools).

² [ARP ESSER Fact Sheet](#)

Based on student outcomes from Leap Spring 2021 and literacy screener (DIBELS) conducted in August 2021, allocation of funds will be directed to support tier ii and tier iii academic students due to Covid-19 impact. Dibels shows that 187 or 92% of all 6-8 students are below or well below benchmark. Glen Oaks only has 18 or 8% of students who are scoring "meeting benchmark or above benchmark". So, all subgroups ELL, SPED and minority students have all been impacted by Covid-19. Students who did not score mastery and above on the leap 360 in 6th - 8th will also be prioritized for additional funding through academic supports denoted in their IAP. Given the severe academic need expressed between Dibel's data and Leap 2021 data, funding will be directed to serve tier I, tier ii, and tier iii intervention.

Which evidence-based activities will the LEA invest in using ESSER II & III funds? (check all that apply)

- ☒ High-dosage Tutoring (ELA and Math) (if tutoring takes place during summer school or before or after school programs please use those categories)
- ☒ Literacy Interventions and Extensions
- ☒ Individual Graduation Plans (IGP)
- ☒ Administering and using high-quality assessments that are valid and reliable, to accurately assess students' academic progress and assist educators in meeting students' academic needs, including through differentiating instruction.
- ☐ Other: Click or tap here to enter text.
- ☐ Other: Click or tap here to enter text.

Describe the LEAs plan for implementing evidence-based activities. How will the selected evidence-based interventions address those disproportionate impacts?

RSL will utilize several evidence-based activities in order to increase student achievement. Our evidence-based activities include the following: a) Corrective reading; b) LDOE accelerate program; c) Science of Reading; d) Literacy Acceleration Coaches; e) NIET; and f) Foundational Coaches. All research-based activities were selected based off LEAP 2021 data (below mastery through 6th-8th) and Literacy Screener results (Dibels) which indicate a significant deficit in reading accuracy, reading fluency, and basic comprehension. Students in grades 6-8 will be assigned to an acceleration block where students will be grouped based on literacy levels per Dibels grouping. Students will receive the evidence-based activities during their daily acceleration block throughout the entire year. Progress monitoring will occur during program designated times found within the corrective reading, accelerate, and Dibels curriculum. Students will be regrouped based on assessment results from progress monitoring stop points. Students are expected to move band levels or increase overall scores in order to meet progress goals throughout the interval assessments. Literacy acceleration coaches, sped teachers, and foundational reading coaches will provide instruction and support to tier ii and tier iii student groups daily through corrective reading, science of reading strategies, and Ldoe accelerate program. All students will be tracked through panorama education to where data can be tracked daily. Lastly, students will be in smaller class sizes throughout the year in order to provide more support to students.

How will the LEA provide expanded support for students who did not score mastery or above on the state-wide assessment? (all areas outlined in Act 294 should be addressed)

RSL has extended the school day by 30 minutes daily in order to include two thirty minute accelerate blocks (Math and ELA) daily for all students. Students who did not score mastery and above will be provided accelerate time daily with literacy coaches, sped members, or foundational reading coaches based on the combination of how they scored on Aug 2021 Dibels testing and Leap 2021 data. Corrective reading and Ldoe accelerate materials will be utilized during this time to increase student knowledge for students who did not reach mastery or above. Progress will be monitored through panorama education tracking based on progress monitoring tools provided by dibels and leap 360 testing. Students are expected to move band levels/receive higher score on dibels testing based on intervention cycles.

Monthly literacy committee meetings consisting of parents, local business, and RSL staff will be conducted monthly to review literacy progress of students and provide input.

Key Investment: **Before and After School Programs**

ESSER II

ESSER III

\$ 75,000

Which evidence-based activities will the LEA invest in using ESSER II & III funds? (check all that apply)

- ☐ Partner with organizations to provide before and/or after school programs
- ☒ Partner with vendors to specifically provide tutoring before and/or after school
- ☐ Develop and implement an LEA direct-run before/ after school program, staffed by LEA educators
- ☒ Other: Mentor and content leader coaching for in need teachers
- ☒ Other: Click or tap here to enter text.

Describe the LEAs plan for implementing evidence-based activities. How will the selected evidence-based activities address disproportionate impacts?

Mentor and content leaders will meet with and assist mentee teachers regarding lesson internalization of tier I curriculum, analyzation of student data, classroom management, and small group activity development. Mentor and content leaders will meet with their mentee before or after school to provide undisturbed one-on-one assistance. Providing one-on-one support to teachers is necessary in order to have powerful lesson in order to ensure that students receive high-quality educational delivery and opportunities for student responses during the lesson. Student data will be reviewed weekly between the mentor/content teacher and the mentee. Teachers will be provided weekly feedback from their curriculum specialist on their lesson delivery. Teachers will be formally observed by their principal in the winter and spring and also provided feedback on their overall instructional delivery. 100% Growth on our observation tool from the initial observation is expected.

RSL will partner with Canopy Ed a LDOE approved tutoring provider for students who need assistance after school. Students will receive tutoring per the Canopy Ed schedule a few hours a week over the course of three months. Canopy Ed will monitor progress through assessments and provide data reports for schools to review on student progress. Growth from the initial diagnostic test to the checkpoints is expected by 80% of the students. Students who scored below mastery in 6th – 8th grade will be prioritized as well as students who are rated tier iii interventions through dibels literacy screener.

Key Investment: **Summer Learning Programs**

ESSER II

- ☐ Other: Click or tap here to enter text.

Describe the LEAs plan for implementing evidence-based activities. How will the selected evidence-based activities address disproportionate impacts?

RSL will provide a summer program to all students and will prioritize students who are rated tier iii intervention level or have scored below mastery in grades 6th-8th. Students will be provided transportation in order to attend RSL's summer program. RSL will follow LDOE's accelerate model for the summer program utilizing accelerate resources and tier I curriculum. Students will be administered a dibels screener at the beginning of the summer program and will take on at the end of the summer program (1 month later) to see student growth or progress in literacy. Literacy coaches, foundational reading coaches, core academic teachers, special education, ell support teacher, and interest and opportunities teachers will provide tier I instruction and intervention in order to accelerate learning by at least one month. RSL will partner with Southern University's well-being program to educate students on healthy choices and how to take care of their body.

Key Investment: **Extended Instructional Time**

Which evidence-based activities will the LEA invest in using ESSER II & III funds? (check all that apply)

- ☒ Individual Graduation Plan (IGP)
- ☐ IGP Planning Partner
- ☒ Other: Parent meetings and partnership exposure
- ☒ Other: Counselor

Describe the LEAs plan for implementing evidence-based activities. How will the selected evidence-based activities address disproportionate impacts?

Students and families will have access to a full-time counselor on campus to discuss future plans for students. The counselor will provide informational meetings to families throughout the year to discuss how students can start to

increase their academic achievement in order to position themselves to achieve mastery by 8th grade. Students who did not make a mastery or above in 6th -8th grade will receive a IAP which will be reviewed with families. Support will be provided to students regarding personal issues that may be impacting student achievement as needed per counseling caseload. Progress will be kept by the counselor. Meetings with parents and ssc committee members will be conducted per the student's plan in order to monitor and review progress. RSL key personnel will participate in SEL in order to support the child's needs personally or academically. SEL strategies will be implemented after development and regular classroom observations will be conducted to provide feedback on SEL strategies. Each 8th grade family will receive an IGP during the fall of the 2021 year. The school principal will host meetings with the families to ensure that students are aware of their options/pathways during high school. We expect that 100% of 8th graders continue on to high school as proven through DCAI points. The student has time to process and learn more about possible colleges and courses they need to take or career options available if a career pathway is more in line with the family's choice. The IGP will follow the student from RSL to their high school of choice.

- ☒ Other: District Leadership Team DLT
- ☒ Other: NIET

Describe the LEAs plan for implementing evidence-based activities. How will the selected evidence-based activities address the disproportionate impact of COVID-19 on subgroups of students?

RSL partnered with NIET to be provided support for on-site ILT and PLT training. As well, RSL has partnered with LDOE's School improvement team to provide on-site DLT support. On-site ILT and PLC meetings will be observed by the academic coordinator and associate superintendent, academics and culture regularly. Feedback will be given by such RSL members to ILT and PLC meeting staff in a timely manner throughout the year. LDOE will help to structure the first DLT meeting, observe and provide feedback to the meeting's content and structure. Observations will be setup throughout the year by LDOE to provide feedback to DLT lead. Content or mentor teachers will help to run ILT meetings with mentees. Such meetings will help to review student data, provide a setting for academic driven instructional discussions, and development for staff. All of this will help to increase student achievement over the course of the year. 6th – 8th grade students who have scored less than mastery will be prioritized and discussed during plc meetings to track student growth weekly.

Describe the LEAs plan for implementing evidence-based activities.

LEA identified a need in 20-21 for an updated data infrastructure system to track student data through a data dashboard. Such data tracking systems includes the following: summative assessments, social emotional tracking, attendance, and student academic progress. Panarama Ed, Performance Matters, and Ed-Ops will serve as the primary sources of data development and tracking for all student areas of need (SEL, Assessments, Attendance, Student Academic Progress, and Behavior). A data and compliance coordinator was hired to help track data and work within the systems to allow for rich data to be easily accessible to all.
