

The impact of a shared fleet on the Comp & Ben strategy

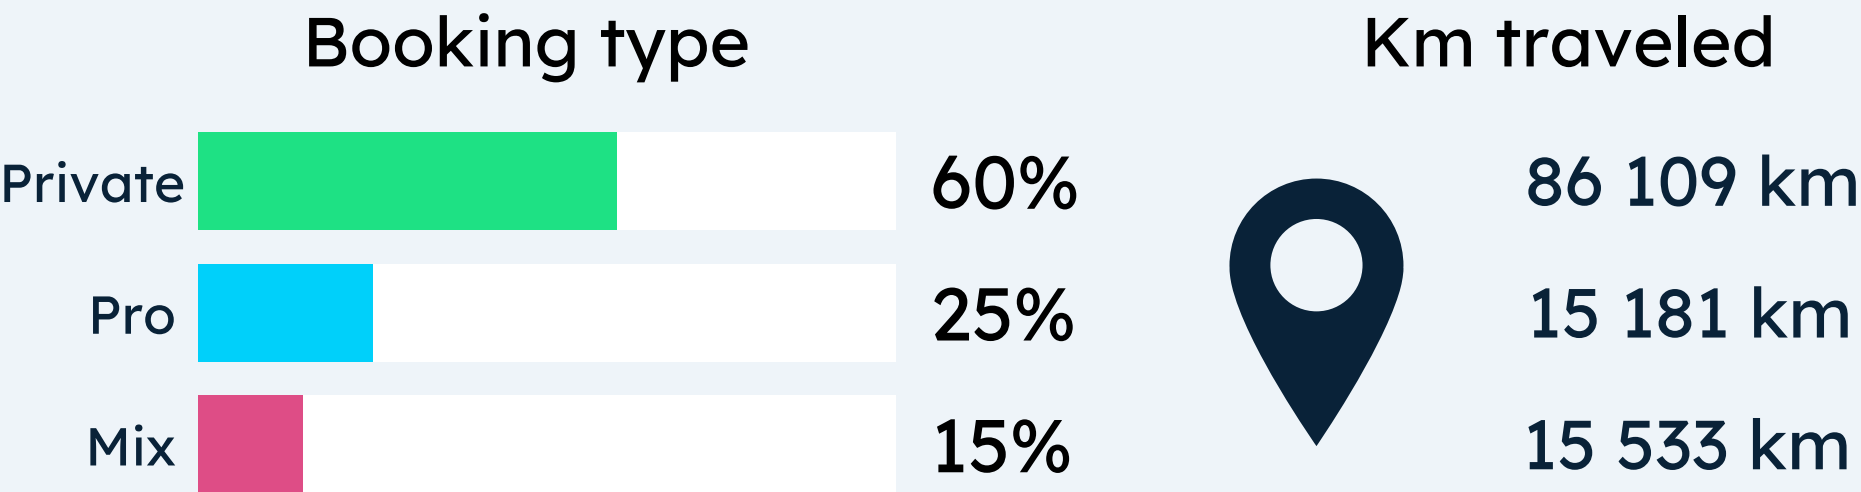

Mobility budget scheme

In 2019, the Brussels office was one of the first organizations to implement The Federal Mobility Budget. Employees can now choose between an individual company car or a mobility budget of the same value with access to a shared fleet.

The shared fleet had 1130 bookings so far

Average booking duration

Private - 29h16min
Pro - 21h06min
Mix - 29h54min

Experience rating

4.8/5
average

Impact of the Mobility Budget with a shared fleet

Fiscally optimize the salary packages of their employees

Reduce CO2 footprint by encouraging greener mobility

Attract the best talent on the market

A modern mobility solution for new joiners & current employees

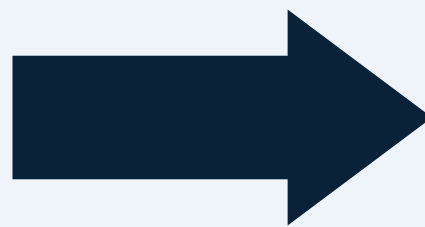

75% fleet reduction for 20 employees

20 company cars

5 shared cars

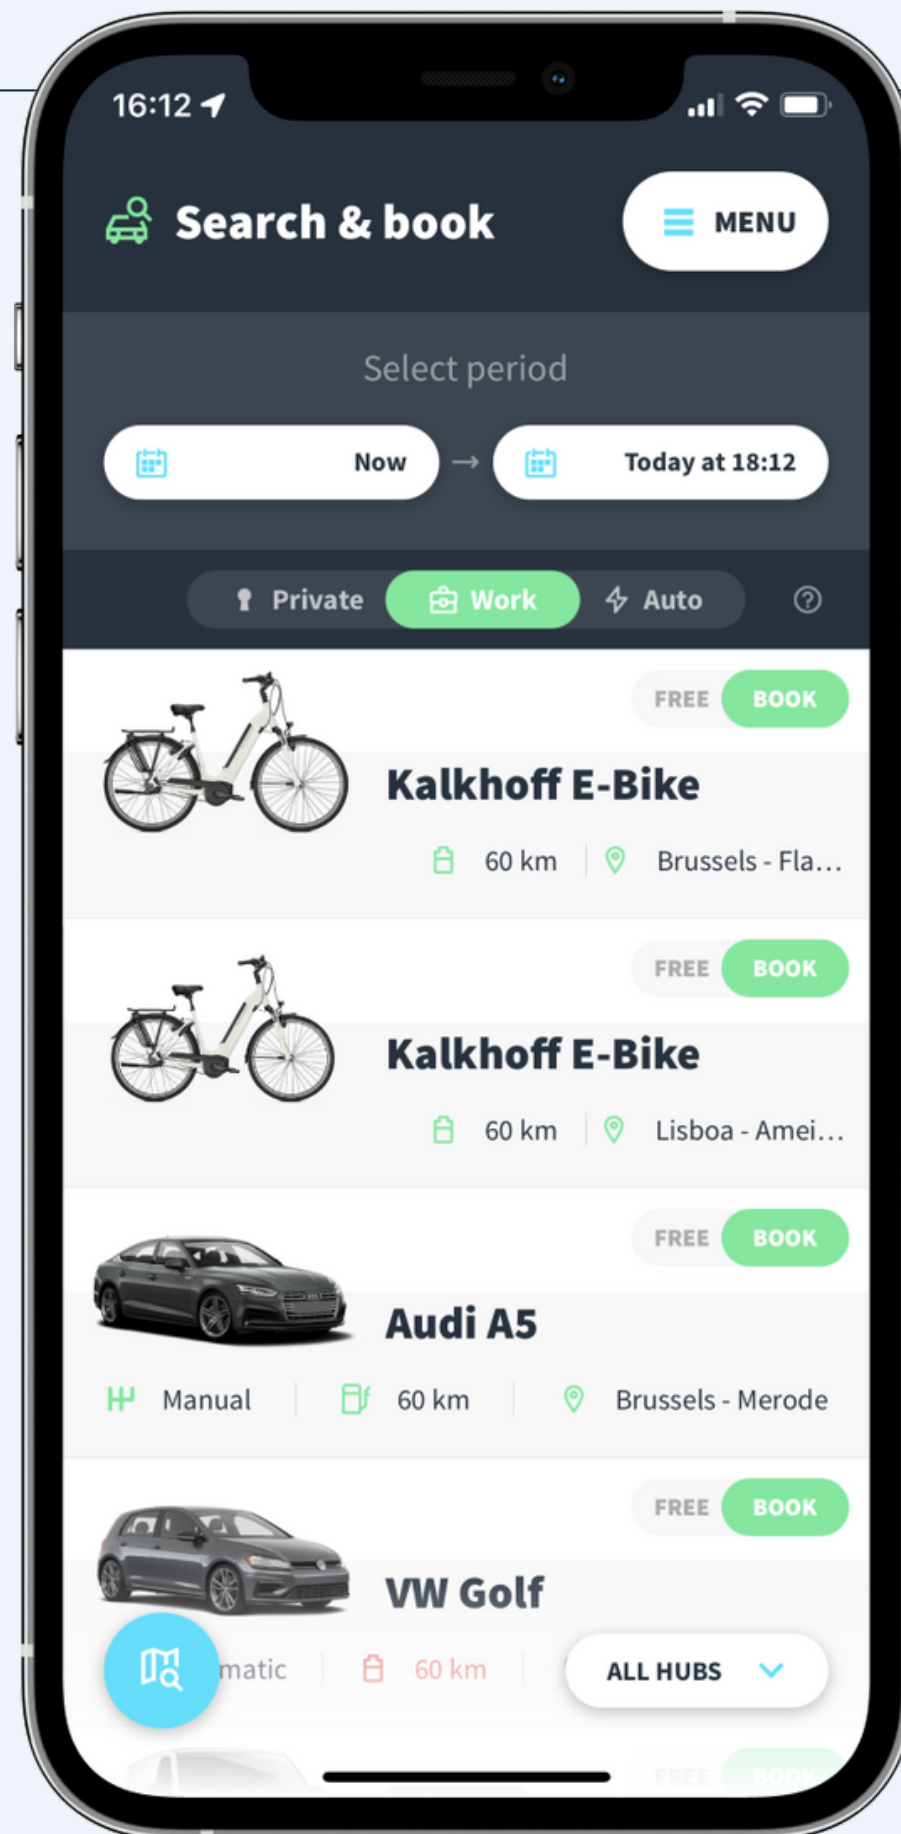

Our solution

A fully integrated
fleet sharing
solution with 24/7
support &
keyless vehicle
access.

Easy management &
360° overview.

Differentiation
between pro,
private usage or
mixed.

Managing the shared fleet is now 100% stress free.

"MyMove and the internal shared cars in place is a key solution to support the transition towards less car consumption. It contributes to help the employees to choose for the Mobility Budget while reassuring them that when they need a car, they are still able to have one for specific journeys." [Philippe Everaert, Head of Mobility](#)
