INDEPENDENT AUDITORS' REPORT

To: The Board of Directors
County of Franklin Solid Waste Management Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the County of Franklin Solid Waste Management Authority as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

INDEPENDENT AUDITORS' REPORT - continued

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the County of Franklin Solid Waste Management Authority, as of June 30, 2013, and the respective changes in financial position, and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4–24 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Franklin Solid Waste Management Authority's basic financial statements. The introductory section and accompanying Schedule of Operating Expenses is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Operating Expenses is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Operating Expenses is fairly stated in all material respects in relation to the basic financial statements as a whole.

Crowley & Halloran, CPAs, P.C.
Certified Public Accountants, Auditors, and Consultants

INDEPENDENT AUDITORS' REPORT - continued

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 16, 2013, on our consideration of the County of Franklin Solid Waste Management Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Franklin Solid Waste Management Authority's internal control over financial reporting and compliance.

Members of the Board
County of Franklin Solid Waste Management Authority
Constable, NY 12926

Gentlemen:

The Financial Statements of the County of Franklin Solid Waste Management Authority (the "Authority"), for the fiscal year ending June 30, 2013, are hereby submitted. The information in this report is believed by Authority management to be sufficient to fully represent the results of the Authority's operations for the fiscal year ending June 30, 2013, and to provide an accurate and useful picture of the Authority's status as of that date. All information included is the responsibility of management staff of the Authority with respect to accuracy, completeness and fairness.

Management of the Authority is responsible for establishing and maintaining internal controls designed to protect the Government's assets from loss, theft or misuse and to compile sufficient information for the preparation of the Authority's financial statements in conformity with U.S. generally accepted accounting principles. The Authority's internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that:

- **The cost of control should not exceed the benefits likely to be derived.**
- **The valuation of costs and benefits requires estimates and judgment by management.**

The Authority's financial statements are audited by a certified public accounting firm. The objective of the audit involves examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, and assessing the accounting principals used and significant estimates made by management to provide reasonable assurance that the financial statements are free of material misstatements.

As part of the Authority's annual audit, a review is made of internal controls and tests are performed to determine the Authority has complied with applicable laws and regulations. The results of the audit for the fiscal year ending June 30, 2013 identified no material violations of applicable laws and regulations.

The annual financial report is presented in two sections: introductory and financial. The introductory section includes this transmittal letter, organizational chart and list of principal officials. The financial section includes management's discussion and analysis, the basic financial statements and accompanying notes, as well as the independent auditors' report.

The Authority is required to provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's discussion and analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

GOVERNMENT ENTITY The Authority is a New York State public benefit corporation created in 1988 pursuant to the Act. The Act authorizes the Authority, among other things, (i) to plan, develop and construct solid waste management facilities; (ii) to acquire interests in real and personal property, and to dispose of them; (iii) to receive, transport, process, dispose of, sell, store, convey, recycle, and deal with solid waste and energy generated by operation of a solid waste management facility; (iv) to contract with governments including the county and local governments within the county in relation to its activities; (v) to borrow money and to issue bonds; and (vi) to fix and collect rates, rentals, fees, and other charges for the use of the facilities, or services rendered by, or any commodities furnished by, the Authority.

SERVICE AGREEMENT On May 1, 1993, the Authority and the county entered into the Solid Waste Management Services Agreement (the “Services Agreement”). The Services Agreement was amended as of May 18, 1995 in order to revise the definition of the term “Bonds” therein. The Services Agreement was renewed in May 2012. The Services Agreement obligates the county to deliver, or cause to be delivered, all of the municipal solid waste (“MSW”) produced within its boundaries to the Authority and to make certain payments to the Authority in return for the Authority providing solid waste management services within the county. Conversely, the Services Agreement obligates the Authority to accept and dispose of all MSW delivered to the System by or on behalf of the County.

REPORTING ENTITY The Authority is comprised of seven members appointed by the legislature of the County. The Authority is a component unit of the County of Franklin. The Board appoints an Executive Director who manages Authority operations.

BUDGETARY CONTROL **The Authority adopts an annual, non-appropriated operating budget as a financial plan for the year.** Activities of the operating accounts (Acquisition and Construction, Revenue, Operating, Debt Service, Equipment Replacement, Capital Improvement and General Reserve) required by the Trust Indenture securing the Authority’s bonded indebtedness are included in the annual budget. Although the Authority is legally required to adopt an annual budget, there is no legal requirement for external reporting of budgetary basis financial information.

FINANCIAL CONDITION AND OUTLOOK

Financial Performance

Operating History

The Authority increased its tipping fees in 2005, 2006, 2010 and did so again in 2013. These fee increases created positive operating results. The Authority again showed positive results which is the eleventh out of thirteen years. Prior to this, the Authority suffered seven consecutive years of losses.

This was due to financial obstacles, resulting from the Carbone decision, and general operating problems, culminating in a fire at the landfill in 1999-2000. In response, the Authority brought in a new Executive Director and has made substantial changes to its operations, marketing, pricing, permitting and financial structure in order to lower expenses and increase revenues.

In April of 2006, the NYSDEC modified our operating permit to allow the disposal of up to 125,000 tons of MSW and C&D, plus BUD materials for daily and intermediate cover use. This increase in tonnage has allowed the Authority greater flexibility in the way it manages incoming waste and BUD material. This change in operations has allowed an increase in revenues.

In April 2007, the Supreme Court revisited flow control, and found in favor of flow control of solid waste for governmental authorities. The Authority updated its existing flow control law in July 2007. The County of Franklin Legislature enacted Local Law # 3 on August 2, 2007. The Authority began enforcing flow control in January of 2008.

The Authority renewed its Service Agreement with the County in May 2012. The Authority issued bonds in May 2012 for the purchase of land to extend the life of the landfill and continue to provide solid waste handling facilities for the County.

The Authority completed land acquisition for the anticipated landfill expansion in the fall of 2012. The Authority submitted draft engineering studies to the DEC for review. It is anticipated that final engineering documents will be submitted early in our next fiscal year. We expect a new permit which will cover 25 acres comprised of 3 cells will be issued and construction of cell 5 will begin in 2014.

The Authority has been receiving waste from Essex County since 2001. The Authority formalized an agreement to continue receiving waste from Essex County until December 31, 2018 with an agreement for extensions of terms of up to 5 years.

In September 2012, the Authority entered into an agreement with the St. Regis Mohawk Tribe Environmental Division to receive MSW from their transfer station in Fort Covington.

Risk Management

The Authority maintains a comprehensive array of property and liability insurance. For workers' compensation insurance, the Authority participates in the Public Employees' Risk Management Association. A safety program, including comprehensive safety regulations, is actively administered and enforced to minimize exposures and limit risks.

Annual Audit

The Authority's fiscal year ends June 30. The financial statements are audited each year. Since 2006, the Authority's auditor has been the firm Seyfarth and Seyfarth CPAs, of Malone, New York. The firm Crowley & Halloran, CPAs, P.C. of Watertown NY has performed the 2013 and 2012 audits.

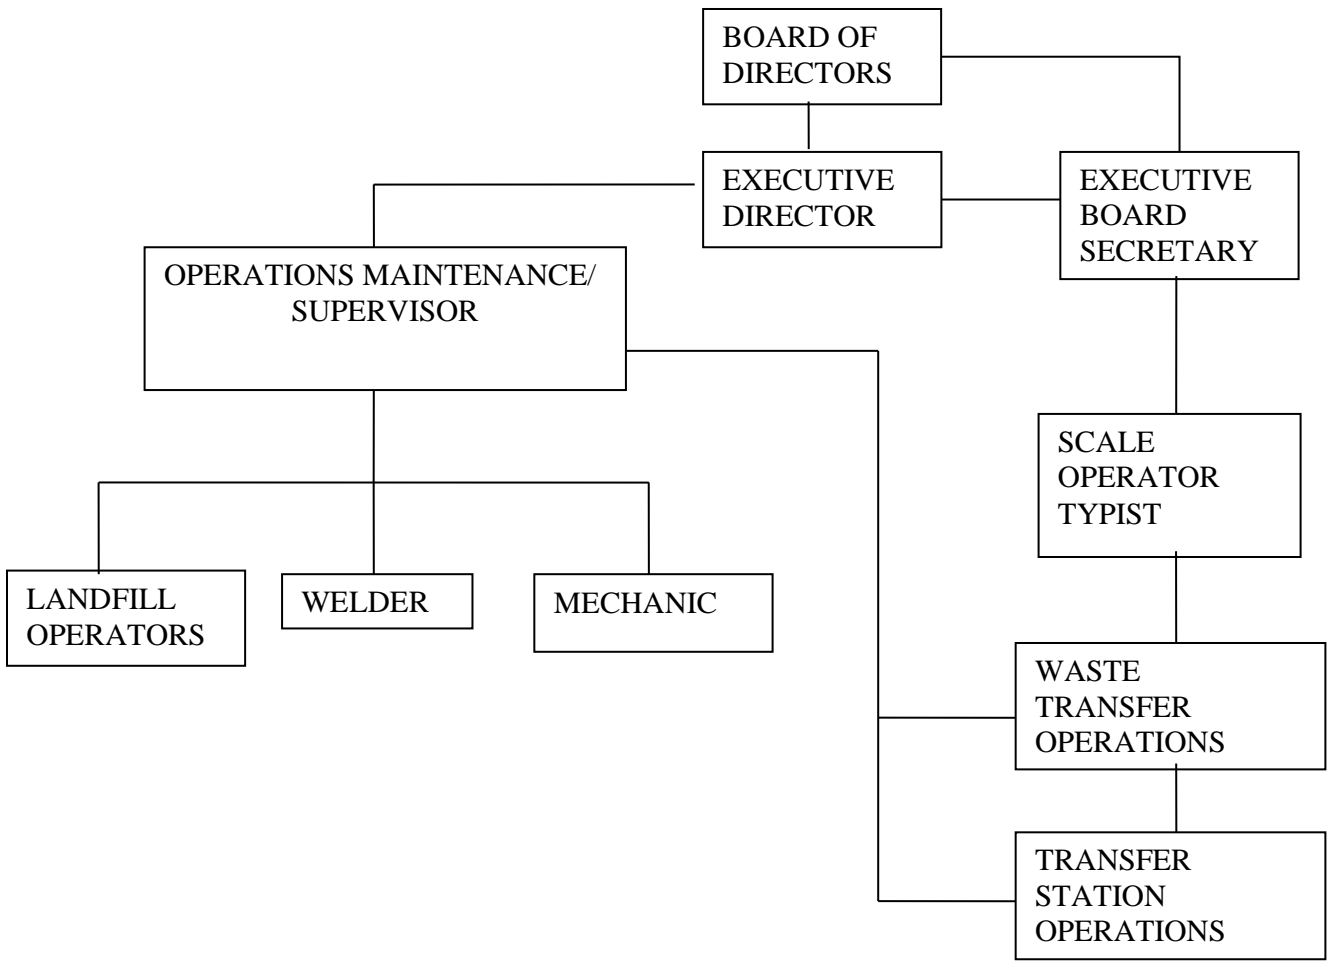

Acknowledgements

The help of staff and our certified public accountants is gratefully acknowledged. Special thanks to Jill A. Wood, who left employment at the Authority in June of 2013 to take up residence in Florida. Her continuing efforts resulted in the successful conduct and completion of this audit. I welcome Corinne Fitzpatrick who has capably helped along with Helen Sullivan in closing out the year and I anticipate that they will continue to contribute to the successful management team of the Authority.

Sincerely,

George Eades, eng.
Executive Director

**COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT
ORGANIZATIONAL CHART**

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the County of Franklin Solid Waste Management Authority (The Authority) presents the readers of our financial statements the following narrative overview and analysis of the financial activities for the fiscal year ending June 30, 2013. Please consider this information in conjunction with the additional information we have furnished in our letter of transmittal and the accompanying financial statements.

Financial Highlights

In 2013, the Authority received more MSW and BUD material than 2012. Overall, tonnage was slightly above historical norms. Revenue from MSW and C&D remains stable which is encouraging. The increase in MSW tonnage enabled the Authority to finish the year with a reasonable surplus. The Authority continues to develop other sources of MSW in anticipation of a new permit and the increased airspace availability.

In fiscal year 2010, management turned the fund balance from a deficit to a surplus. The fund deficit peaked in 2000 at \$(5,648,023). The fund deficit in 2005 was \$(5,454,144). The fund deficit in 2006 was \$(4,193,747). In 2007, we substantially reduced the fund deficit to \$(2,662,513). In 2008, the fund deficit was reduced to \$(890,680). In 2009, the fund deficit was \$(572,345). As mentioned in the 2009 MD&A, management anticipated retiring the fund deficit in fiscal year 2010. In fiscal year 2010, the fund surplus was \$366,251. In fiscal year 2011, management showed a surplus of \$424,364. In 2012, the fund surplus was decreased to \$181,838 due to additional closure costs associated with future estimated closure and post closure costs. In 2013, the current fund surplus is \$537,435.

The capital assets of the Authority after depreciation, include land, buildings and equipment in the amount of \$5,799,900. All investments and restricted cash and cash equivalents amount to \$6,058,929.

In 2013, the Authority's revenues exceeded its expenses by \$355,597. This is a significant improvement over last year's results. The change is due to an increase in tipping fees and a minor increase in tonnage. Management continues to aggressively price beneficial use materials. We try to receive the optimum price while ensuring that materials are not shipped to our competitors due to a significant price differential.

In 2013, the Authority bought a total 686 acres of land for landfill and buffer. The purchases were completed in October 2012.

The Authority submitted draft permit documents in April 2013 to the DEC. Final documents will be submitted in July 2013. We anticipate receiving a final permit to construct and operate by the end of 2013. This will allow sufficient time to complete the construction of cell 5 in 2014.

In June of 2011, the Authority renewed an agreement with the Village of Malone which ensures the Authority access to the Malone WTP for the disposal of leachate. The Authority and the Village continue to realize cost savings. We have developed a very good working relationship. This agreement ensures the Authority and the Village a cost effective manner of dealing with leachate and sludge.

In September 2012, the Authority entered into an agreement with the St. Regis Mohawk Tribe to receive the waste produced at the Fort Covington transfer station. This is a mutually beneficial arrangement which we anticipate continuing.

In 2013, the Authority formalized an agreement to continue receiving waste from Essex County until 2018, with an agreement for 5 year extensions of the contract thereafter.

The Authority's total liabilities decreased due to annual payments on outstanding bonds. There were no new bonds issued in fiscal year 2013.

Overview of the Financial Statements

The Authority is a single enterprise fund and presents its financial statements using the economic resources measurement focus and accrual basis of accounting. **This is the same measurement focus and basis of accounting employed by private-sector business enterprises.** This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. These include the Statements of Net Position, Statements of Revenues, Expenses, and Changes in Net Position, Statements of Cash Flows, and notes to the financial statements.

The **Statements of Net Position** presents information on the Authority's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Over time, the increase or decrease in net position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The **Statements of Revenues, Expenses, and Changes in Net Position** is the basic financial statement of revenue and expense for proprietary funds. This statement provides the user information on the Authority's operating revenues and expenses, non-operating revenues and expenses, and whether the Authority's financial position has improved or deteriorated as a result of the year's operations.

The **Statements of Cash Flows** presents the change in the Authority's cash and cash equivalents during the period reported on. This information can assist the user of the report in determining how the Authority financed its activities and how it met its cash requirements.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the statements and can be found beginning on page 30 of this report.

Statement of Net Position

As noted earlier, net position may serve over time as a useful indicator of the Authority's financial position. The Authority's total net position increased \$355,597 in the fiscal year 2013. A condensed summary of the Authority's net position for fiscal years 2013, 2012, and 2011, is presented below.

Assets:	<u>2013</u>	<u>2012</u>	<u>2011</u>
Current Assets	\$ 637,184	\$ 712,627	\$ 769,325
Investments	6,058,929	8,583,166	6,042,178
Other Assets	2,083,682	2,070,251	2,105,592
Capital Assets	<u>5,799,900</u>	<u>4,673,561</u>	<u>5,876,036</u>
Total Assets	<u>\$ 14,579,695</u>	<u>\$ 16,039,605</u>	<u>\$ 14,793,131</u>
Liabilities:			
Current Liabilities	\$ 4,070,819	\$ 3,835,468	\$ 3,678,959
Bonds Payable	6,790,000	9,620,000	7,525,000
Long-term Debt	703,597	92,930	213,680
Other Liabilities	<u>2,477,844</u>	<u>2,309,369</u>	<u>2,951,128</u>
Total Liabilities	<u>14,042,260</u>	<u>15,857,767</u>	<u>14,368,767</u>
Net Position	<u>537,435</u>	<u>181,838</u>	<u>424,364</u>
Total Liabilities and Net Position	<u>\$ 14,579,695</u>	<u>\$ 16,039,605</u>	<u>\$ 14,793,131</u>

A summary of revenues, expenses and changes in net position for the years ending 2013, 2012, and 2011, is presented below:

	<u>2013</u>	<u>2012</u>	<u>2011</u>
Total Operating Revenues	\$ 11,553,149	\$ 11,415,594	\$ 11,199,527
Total Operating Expenses	<u>10,922,490</u>	<u>11,345,488</u>	<u>10,669,408</u>
Operating Income	630,659	70,106	530,119
Other Income (Expense)	<u>(275,062)</u>	<u>(312,632)</u>	<u>(472,006)</u>
Increase (Decrease) in Net Position	<u>\$ 355,597</u>	<u>\$ (242,526)</u>	<u>\$ 58,113</u>

The Authority has the long-term objective of accumulating funds to meet all future cell expansion, closure and post-closure requirements from annual revenues. The Authority borrowed funds to finance the construction of Cell 4. The Authority borrowed funds in 2012 to finance the purchase of land which will provide landfill space for the long term (in excess of 50 years).

To meet the above objectives, the Authority projects the timing and costs of equipment replacement, cell expansion and cell closure, utilizing assumptions that it deems reasonable and appropriate. The Authority's consulting engineer annually provides estimates of closure and post closure costs and estimates deposit requirements to the closure and post closure funds, as required by DEC.

In 2005, the Authority reviewed its Solid Waste Management Plan. An updated plan was adopted by the Board. It was submitted and approved by the DEC in May of 2006. The updated solid waste management plan included a 15 year plan which allowed for an increase in permitted tonnage and an enlarged footprint to accommodate the increase in tonnage limits. The increase in tonnage was also approved by the DEC in May of 2006. We anticipate the enlarged footprint will be permitted by December 2013.

The Draft Environmental Impact Statement was completed by our consulting engineer and approved by the Authority Board in September 2008. The Authority negotiated and finalized a Host Community Benefit Package with the Towns of Constable and Westville. The Host Community Benefit Package was adopted in February 2009. The Final Environmental Impact Statement was completed in February 2009 and adopted by the Board in March 2009. The Authority now has a long term plan which allows for the development of 145 acres of landfill over the next 100 years.

The adoption of the final EIS allows us to acquire the properties needed for the development of the footprint and buffer for the landfill. The land acquisition was completed in October 2012.

The Authority completed the drilling of 12 exploratory borings during January and February 2010. This information along with the information from exploratory tests pits completed in the fall of 2010 will provide the necessary information to complete the hydro-geologic report. In the 2012 fiscal year, the Authority and their consulting engineer finalized the planning for the proposed footprint extension. The new landfill footprint will consist of 3 cells of about 8 acres. This footprint will provide solid waste capacity for about 20 years. A draft of this report was submitted to the DEC in May 2013. The DEC is reviewing the documents. Planning continues to advance and we expect an approved permit in the fall of 2013 and construction of Cell 5 to be completed by the fall of 2014.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The Authority continues to invest in capital assets. During the fiscal year 2013, investments were made to maintain the Authority's ability to meet its commitment to the community. In this fiscal year the major investment in capital assets by the Authority was the acquisition of land for the expansion of the landfill. Three new pieces of heavy equipment were acquired for landfill operations this year.

In fiscal year 2012 the major investment in capital assets by the Authority was the acquisition of land for the expansion of the landfill. A blazer pickup truck for landfill use and a front end loader for use at transfer stations were acquired in 2012.

The Authority currently uses approximately one acre per year of cell space. Cell 4 is 5 acres in size and the last in the current permitted cells at the landfill.

Fig. 1 Landfill working face Cell 4

Fig. 2 Landfill Road Maintenance

Cell 4 was built in 2008 with the anticipation of use in the fall of 2009. In the late fall of 2010 we began using Cell 4, a year later than originally planned. Cell 4’s estimated remaining capacity is about 138,000 tons or about 1.6 years at current usage rate of 72,000 tons per year. Cell 4 will be full by February 2015 and we expect Cell 5 to be open in November 2014. This is less lead time than we prefer but we believe we will be able to manage the available airspace to meet our needs.

Equipment Replacement Fund (“ERF”)

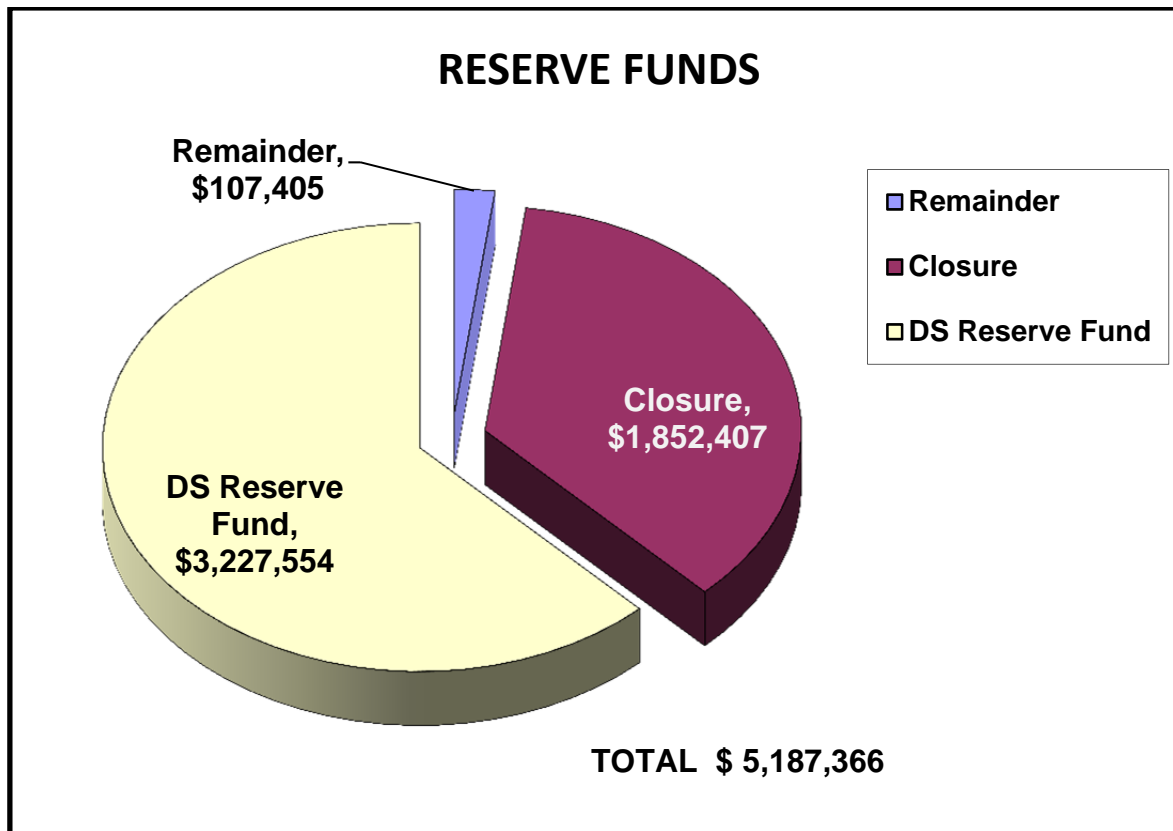

The ERF is funded to provide funds to replace or refurbish equipment and other physical assets of the Authority. Deposits are made to the ERF to meet current equipment payment costs. These deposits are reviewed annually in the Authority’s budget process.

This year the Authority completed payments on several pieces of equipment. We acquired a new Caterpillar D6N in March of this year. We continued to acquire more roll off containers. Due to circumstances beyond our control we also bought a new Caterpillar 349 excavator to replace our old 345. We had expected to replace it in the next fiscal year. We will continue updating our equipment in 2014. This coincides with our long-term objectives of replacing equipment on a timely basis. In 2012 we acquired some equipment from Federal Property Assistance. We acquired more roll off containers and major pieces of equipment were repaired.

Long-Term Debt

The Authority is required to maintain in the DSRF the equivalent of one year’s outstanding capital and interest payments for the bonds issued.

As of June 30, 2013, the balance held in the Debt Service Reserve Fund was \$3,227,554 as required by Bond resolution.

On July 15, 2008 the Authority issued \$5,640,000 in Revenue Bonds Series 2008. On September 17, 2003, the Authority issued \$9,840,000 in Refunding Revenue Bonds, Series 2003A and \$970,000 in Refunding Revenue Bonds, Series 2003B (Taxable) for the purpose of refunding \$9,915,000 outstanding principal of the Authority's \$20,830,000 Solid Waste Revenue Bonds, Series 1993. At the close of fiscal year 2007, the Authority had \$9,105,000 in outstanding revenue bonds. The advance refunding of the Series 1993 bonds reduced the Authority's aggregate debt service payments by approximately \$1,200,000 and produced an economic gain of \$613,394. As part of the financing, the Authority's overall credit was reviewed. The Authority's overall credit rating was raised from a **BBB-** to a **BBB+**. In 2009 Standard and Poor's reviewed the rating of Franklin County Solid Waste Authority. The overall review was positive and the Authority's rating was raised from **BBB+** to **A-**, a significant improvement in these times. In 2012, the Authority issued \$4,883,923 in bonds for the acquisition of land which will meet future landfill and buffer requirements.

We will be issuing bonds in fiscal year 2014 for the construction of Cell 5.

Additional information on the bonds payable may be found in Note 4 – Bonds Payable of the notes to the financial statements on page 33 of this report. Further information on long-term debt with respect to equipment financing may be found in Note 5 – Long-Term Debt of the notes to the financial statements on page 35 of this report.

Closure and Post-Closure & Other Reserves

The Authority is required to file, and have approved by the DEC, a closure and post-closure plan and the financial mechanism for funding the plan.

In addition to the bonds payable, the Authority has an obligation to close the landfill site and perform post closure monitoring. Funds for these expenses are evaluated annually and set aside for those future requirements. See Note 6 - Environmental and Closure Accrual for Landfill on page 36.

The Authority retains a consulting engineer to estimate the requirement for closure and post-closure care costs utilizing projected future closure costs, post-closure costs and current regulations. Based on the current estimate, the Authority is setting aside \$228,600 annually for deposit to the closure/post-closure reserves. The reserve funding requirements are incorporated in current tipping fees and are deposited to the reserve funds on a monthly basis.

As of June 30, 2013, the balance held in the Closure and Post Closure funds was approximately \$1,852,407. The current closure balance is \$1,409,424 which reflects the drawdown for the closure of Cell 2 and Cell 3. The Authority will replenish the fund to provide for final closure of Cell 3 and 4 in 2016 or 2017.

As of June 30, 2012, the balance held in the Closure and Post Closure funds was approximately \$1,921,322.

HISTORICAL AND STATISTICAL DATA

Capacity

Existing Capacity. The permitted capacity of Cell 4 is 425,000 cubic yards. Currently about 137,000 cu. yd. are available or about 1.6 years at the annual waste acceptance rate.

Potential Capacity. The Authority adopted a Final Environmental Impact Statement on February 26, 2009 for the proposed long-term development of the landfill. In May 2012, the financing for land acquisition of 686 acres was completed. The proposed maximum build-out of the new footprint is about 142 acres with an estimated capacity of 19,100,000 cu. yds. The total area of landfill footprint disturbance is approximately 165 acres. The remaining 521 acres located north and south of county route 20 will be used as buffer or for potential wetland mitigation in the future. The landfill extension is proposed to be permitted and constructed in phases of about 25 acres. The first phase of the extension consists of 3 cells about 8 acres each. Estimated capacity for this phase is 2,000,000 cu. yds. Draft documents were submitted to the DEC in the spring of 2013. It is expected that a permit will be issued in the fall of 2013. Construction of Cell 5 will commence in 2014 with expected completion in the fall of 2014. The total build-out of Cells 5-7 will take place over an estimated 25 year period.

Future footprint extensions on the 145 acre footprint will take place as required.

Transfer Stations

The Authority operates three transfer stations within the County located in Malone, Lake Clear and Tupper Lake. The Authority ceased providing solid waste collection to St. Regis Falls (Town of Waverly) in July 2012. This has resulted in significant cost savings. All transfer stations have permits issued by the New York State Department of Environmental Conservation (“DEC”).

LOSS/GAIN	938,686	58,113	(242,526)	355,597				

Host Community Fees

The Authority negotiated a formal Host Community Benefit Package with the Towns of Westville and Constable which took effect March 26, 2009. The agreement pays each of the Towns \$0.50 for each ton of municipal solid waste received at the Landfill for the first 50,000 tons. The payment per ton increases on a graduated scale up to \$1.50 per ton on tonnages greater than 150,000 tons per year. This ensures that each town benefits as the landfill realizes the benefits of economy of scale from increased tonnages.

¹ ARRA is Adirondack Resource Recovery Associates, the company that operates the solid waste incinerator in Hudson Falls, NY.

Competition

The Authority closely monitors pricing and customer service practices at competitive waste disposal facilities. Prices at nearby landfills for commercial waste disposal include:

<u>FACILITY</u>	<u>IN COUNTY TIP FEE AT TRANSFER STATIONS (PER TON MSW)</u>	<u>IN COUNTY TIP FEE AT LANDFILL (PER TON MSW)</u>	<u>OUT-OF-COUNTY TIP FEE (PER TON MSW)</u>
Clinton County	\$ 220.00	\$ 62.33	\$ 73.58
St. Lawrence County	\$ 160.00	N/A	NA
Essex County	\$ 140.00	N/A	\$ 140.00
Lewis County	\$ 79.00	N/A	\$ 76.00
Jefferson County	\$ 120.00	\$ 0.00	\$ 120.00
Herkimer	\$ 70.00	N/A	\$115.00
CFSWMA	\$ 95.00	\$ 80.00	\$40 to \$70
DANC (located in Jefferson County)	\$ 0.00	\$ 46.00	N/A

The Authority believes that it is currently competitive with other facilities in the area given transportation costs and the dynamics of the waste market.

Financial Performance

The Authority experienced tonnages closer to the historical average. We are pleased that we were again able to achieve positive operating results of \$630,659. Since 2000, management has been able to show positive results twelve out of thirteen years. Since 2005, we have changed the operating deficit of \$(5,454,144) to a surplus of \$355,597.

The continuing positive operating results presented this year reflect changes over the last several years. In January 2008, the Authority instituted flow control. The increase in permittable tonnage in 2006 has allowed management flexibility in managing waste flows. We are able to take advantage of opportunities presented in the market place which was not possible prior to this change.

In 2006, the Authority instituted graduated tipping fees at the transfer stations which improved cash flow. Total tonnages handled at the transfer stations remained stable after the price increase. The Authority annually reviews its tipping fees. In 2011, we increased the graduated tipping fees. This is the first fee increase since 2006. The commercial tipping fees were increased in 2010 and 2012.

An increase in permitted tonnage in 2006 has allowed for better management of MSW and BUD materials which have enhanced cash flow. In 2011, we closed the Malone transfer station on Thursdays and the regional landfill on Saturday. We realized substantial cost savings with this change. We began receiving MSW from the St. Regis Mohawk Tribe in September 2013.

The above changes over the years, along with careful management of expenses has allowed the Authority to continue to show positive results. In 2013 and 2012, we were able to increase our MSW revenues from outside the county. We hope to continue to find other revenue sources which will have a positive impact on our operating results.

Fig. 8 New D6N arriving at landfill just about ready for work

Fig. 9 New 349 excavator ready for work

FUEL COST

GROSS OPERATION AND MAINTENANCE EXPENSES

The new SWMP approved in 2006 reflects the long-term plan of increased tonnages and an increased footprint to better balance debt loads and operating costs. With the completion of the Draft Environmental Impact Statement and the approval of the Final Environmental Impact Statement in March 2011, the Authority continues to move towards its long-term goal of expansion as outlined in its updated Solid Waste Management Plan of 2006. With the completion of land acquisition and finalizing of an extended permitted footprint the Authority should be in a position to continue showing positive financial results.

COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013 AND 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION

The County of Franklin Solid Waste Management Authority (Authority) was created as a public benefit corporation under New York State Public Authorities Laws 2041, Title 13-AA Chapter 665 of the Laws of 1988 by the New York State Legislature with powers to, among other things, (i) plan, develop, and construct solid waste management facilities; (ii) acquire interests in real and personal property and dispose of them; (iii) receive, transport, process, dispose of, sell, store, convey, recycle, and deal with solid waste and energy generated by operation of a solid waste management facility; (iv) contract with governments including Franklin County (County) and local governments within the County in relation to its activities; (v) borrow money and issue bonds; and (vi) fix and collect rates, rentals, fees, and other charges for the use of the facilities of, or services rendered by, or any commodities furnished by, the Authority.

The Board of the Authority is comprised of seven members appointed by the legislature of the County.

The Authority has constructed a solid waste management system (SWMS), which includes a regional landfill and three transfer stations in Franklin County (Malone, Lake Clear, and Tupper Lake). The SWMS began operations on June 6, 1994. It is included in Franklin County's financial statements as a component unit.

A summary of the significant accounting policies consistently applied in the preparation of accompanying financial statements follows.

ACCOUNTING METHOD

The Authority's financial statements are prepared using the accrual basis in accordance with generally accepted accounting principles for proprietary funds, which are similar to those of private business enterprises. The Authority follows the guidance provided by Financial Accounting Standards Board (FASB) Statements, except for those that conflict with or contradict GASB pronouncements. The Authority's operating revenues and expenses consist of revenues earned and expenses incurred relating to the operation and maintenance of the solid waste facility.

CASH AND INVESTMENTS

Cash and cash equivalents consist of cash and investments which mature no more than three months after the date purchased.

Restricted cash and cash equivalents are held in money market funds and are legally restricted in uses and purposes by the Authority's bond documents.

Investments are presented at cost which approximates the current market value or the value at the date management anticipates liquidating the investment. Restricted investments consist of marketable equity securities held by the bond trustee. These investments will be liquidated and expended for the construction and acquisition of capital assets, bond interest and principal payments, and environmental and closure costs in accordance with the bond trust indentures.

COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013 AND 2012
(CONTINUED)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

CASH AND INVESTMENTS (continued)

The Authority has entered into a repurchase agreement. The agreement requires collateralization of cash at 100% and securities at 103%. Approximately \$2,000,000 relating to the 1995, 2000, and 2003 Debt Service Reserve funds were subject to the agreement. The funds can be repurchased on demand to provide for shortfall in regularly scheduled payments of principal and interest on the bonds. The funds cannot be repurchased for reinvestment. The final repurchase date is April 1, 2015.

The Authority is required by local law to collateralize any of its cash deposits which are in excess of the Federal Deposit Insurance Corporation limit. There were deposits that exceeded the FDIC insurance at June 30, 2013 of \$1,535,622 that were not collateralized.

All of the Authority's investments are either registered in the Authority's name or held in trust by a third-party custodian in the Authority's name.

ACCOUNTS RECEIVABLE

Trade accounts receivable are stated at the amount management expects to collect from balances outstanding at year-end. Based on management's assessment of the credit history with customers having outstanding balances and current relationships with them, it has concluded that realization losses on balances outstanding at year-end will be immaterial.

PROPERTY, PLANT, AND EQUIPMENT

Property, plant and equipment are recorded at cost. Expenditures for acquisitions, renewals, and betterments are capitalized, whereas maintenance and repair costs are expensed as incurred. When equipment is retired or otherwise disposed of, the appropriate accounts are relieved of costs and accumulated depreciation and any resultant gain or loss is credited or charged to operations.

Depreciation is provided for in amounts sufficient to relate the cost of depreciable assets to operations over their estimated useful lives on the straight-line basis, including the landfill cells. The straight-line method approximates the cells' capacity used. The estimated lives used in determining depreciation for property, plant and equipment vary from five to twenty years.

ENVIRONMENTAL AND CLOSURE ACCRUALS

State and federal laws and regulations require that the Authority place a final cap on its landfills when closed and perform certain maintenance and monitoring functions at the landfill sites after closure.

The Authority maintains a reserve for closure of the Regional Landfill as established in the 1993 Series Bond Agreement. The balance in the reserve totaled \$1,852,407 and \$1,921,323 at June 30, 2013 and 2012, respectively. These funds are reported herein as restricted cash equivalents and investments. The Authority meets its closure obligations through the financial assurance test and these reserve funds.

COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013 AND 2012
(CONTINUED)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

ENVIRONMENTAL AND CLOSURE ACCRUALS (continued)

The Authority's policy regarding closure and monitoring costs for its landfills is to accrue these costs and charge them to the expense over the useful operating life of each landfill. Management believes this policy accurately matches closure and monitoring costs against revenues generated by each landfill. The accrual is based on the percentage of total landfill capacity used as of the end of each year, multiplied by the total estimated closure and monitoring costs. These estimates are generated by management, with assistance from an independent consulting engineering firm.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying values of cash and cash equivalents, investments, accounts receivable, accrued interest, accounts payable, and current portion of long-term debt and bonds payable approximated fair market value because of the short maturity of those instruments.

The carrying values of the Authority's long-term debt and bonds payable approximate market value as terms of the debt reflect current market rates and terms.

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the Authority to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 - INVESTMENTS - RESTRICTED

A summary of the Authority's restricted investments is as follows:

At June 30, 2013:	Face Value	Unamortized Premium (Discount)	Total	Fair Market Value
US Treasury bill	\$ 24,200	\$ -	\$ 24,200	\$ 24,200
	<u>\$ 24,200</u>	<u>\$ -</u>	<u>\$ 24,200</u>	<u>\$ 24,200</u>
At June 30, 2012:	Face Value	Unamortized Premium (Discount)	Total	Fair Market Value
US Treasury bill	\$ 24,200	\$ -	\$ 24,200	\$ 24,200
US Treasury note	558,000	6,000	564,000	571,359
Tri-Party repo bond	846,065	-	846,065	846,065

	<u>\$ 2,552,792</u>	<u>\$ 6,000</u>	<u>\$ 2,558,792</u>	<u>\$ 2,566,144</u>

COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013 AND 2012
(CONTINUED)

NOTE 3 - CAPITALIZED ENGINEERING AND FINANCING COSTS

Capitalized costs relate to various initial start-up costs and costs associated with expansion. Also included are costs associated with bond defeasance and issuance.

A summary of capitalized engineering and financing costs at June 30, 2013 and 2012, is as follows:

	2013	2012
Construction and engineering costs	\$ 3,130,013	\$ 3,130,013
Discount on bonds payable	200,623	200,623
Bond issuance costs including underwriters' discount	746,066	743,229
Deferred amount on defeased 1993 bond	1,572,481	1,572,481
Expansion/Ton increased costs	1,699,344	1,413,167
	\$ 7,348,527	\$ 7,059,513

Authority establishment costs are amortized over 20 years on a straight-line basis, beginning on June 6, 1994, the date on which operations began. Financing costs and the deferred amount on the defeased 1993 bond are being amortized over the lives of the bonds using the straight-line method. The expansion/ton increase costs are being amortized over 6 years on a straight-line basis. Amortization expense related to the establishment and expansion costs and bond issue costs totaled \$275,583 and \$288,554 for the years ended June 30, 2013 and 2012, respectively. Amortization associated with bond defeasance and discounts, recorded as interest expense, was \$75,406 and \$83,082 for the years ended June 30, 2013 and 2012, respectively.

NOTE 4 - BONDS PAYABLE

A summary of the Authority's bonds payable is as follows:

	2013	2012
EFC Bonds to be used in defeasance of 1993 bonds. Interest is payable semiannually at 2.82%, principal installments of \$110,000 through \$170,000, payable annually on December 15 th through 2015.	\$ 495,000	\$ 650,000
Water Pollution Control Revolving Fund Revenue Bonds, Series 1995A. Interest payable semiannually at 2.01% to 2.89%, principal installments of \$345,000 through \$550,000, payable annually on May 15 th through 2015.	1,095,000	1,620,000

COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013 AND 2012
(CONTINUED)

NOTE 4 - BONDS PAYABLE (continued)

	2013	2012
Solid Waste System Revenue Refunding Bonds Series 2003 A. Interest payable semiannually at 3.0% to 4.375%, principal installments of \$555,000 through \$1,095,000, payable annually on June 1 st through 2015.	2,185,000	3,225,000
Solid Waste System Revenue Bond Series 2008. Interest payable semiannually at 4.28%, principal installments of \$850,000 through \$1,035,000, payable annually on June 1 st through 2014.	1,035,000	2,030,000
Solid Waste System Revenue Bond Series 2012. Interest payable semiannually at 2.0% to 5.0% principal installments of \$200,000 through \$370,000, first payment due payable annually starting on June 1, 2015 through 2032.	4,810,000	4,810,000
	9,620,000	12,335,000
Less: current installments	(2,830,000)	(2,715,000)
	\$ 6,790,000	\$ 9,620,000

In prior years, the Authority defeased a portion of the 1993 Series Bonds by placing the proceeds for the 1995A Series Bonds in an irrevocable trust to provide for all future debt service payments on the 1993 bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the Authority's financial statements. At June 30, 2013 and 2012, \$2,680,000 and \$3,875,000 in bonds outstanding are considered defeased.

The Series 2003 Bonds are not subject to redemption prior to maturity, other than Sinking Fund Redemption of the Series 2003B Bonds. The Series 2003B Bonds have a redemption price of 100%.

A summary of the Authority's future minimum annual maturities for bonds payable and bond interest due is as follows:

For the year ending June 30,	Principal	Interest
2014	\$ 2,830,000	\$ 363,553
2015	2,010,000	253,360
2016	375,000	180,797
2017	210,000	174,300
2018	215,000	170,100
2019-2023	1,160,000	750,600
2024-2028	1,430,000	483,750
2029-2032	1,390,000	142,000
	\$ 9,620,000	\$ 2,518,460

NOTE 5 - LONG-TERM DEBT (continued)

A summary of the Authority's future annual minimum maturities of long-term debt at June 30, 2013, is as follows:

For the year ending June 30,	2015	\$	196,599
	2016		201,539
	2017		173,640
	2018		<u>131,819</u>
		\$	<u>703,597</u>

NOTE 6 - ENVIRONMENTAL AND CLOSURE ACCRUAL FOR LANDFILL

A summary of the environmental and closure accrual, which includes the consulting engineer's estimate of the cost for environmental compliance, landfill closure, and post-closure through June 30, 2013, is as follows:

Total landfill capacity	1,598,933	cubic yards
Total landfill capacity used through June 30, 2013	1,461,958	cubic yards
Percentage of total landfill capacity	91%	
Estimated closure and post-closure costs	\$	3,630,909
Environmental and closure accrual	\$	2,477,844
Anticipated closure date		2016

NOTE 7 - RETIREMENT PLAN

PLAN DESCRIPTION

The Authority participates in the New York State and Local Employees' Retirement System (ERS) and the Public Employees' Group Life Insurance Plan (Systems). These are cost-sharing, multiple-employer retirement systems. The Systems provide retirement benefits as well as death and disability benefits. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law (NYSRSSL). As set forth in the NYSRSSL, the Comptroller of the State of New York (Comptroller) serves as sole trustee and administrative head of the Systems. The Comptroller shall adopt and may amend rules and regulations for the administration and transaction of the business of the Systems and for the custody and control of their funds. The Systems issue a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the New York State and Local Retirement System, Gov. Alfred E. Smith State Office Building, Albany, New York 12244.

COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013 AND 2012
(CONTINUED)

NOTE 7 - RETIREMENT PLAN (continued)

FUNDING POLICY

The Systems are noncontributory for the employee who joined prior to July 27, 1976. For employees who joined the Systems after July 27, 1976, and prior to January 1, 2010, employees contribute 3% to 3.5% of their salary. With the exception of ERS tier V and VI employees, employees in the system more than ten years are no longer required to contribute. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For NYSERS, the Comptroller certifies the rates expressed as proportions of members' payroll annually, which are used in computing the contributions required to be made by employers to the pension accumulation fund. The Authority is required to contribute at an actuarially determined rate. The required contributions for the current year and two preceding years were:

2013	\$	173,237
2012		142,216
2011		106,333

The Authority's contributions made to the System were equal to 100% of the contributions required for each year, except for 2013 when the Authority elected to amortize payments with the Contribution Stabilization Program. For the year ending June 30, 2013, the Authority elected maximum amortization of \$56,767 and made a contribution of \$116,470. The Comptroller of New York State annually determines the interest rate for the program. For the 2013 ERS payment, a rate of 3.0% was set for the first ten year period.

A summary of the Authority's future annual minimum maturities of the amortization at June 30, 2013, is as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>	
For the year ending June 30,	2014	\$ 5,201	\$ 1,435	\$ 6,636
	2015	5,067	1,569	6,636
	2016	5,222	1,414	6,636
	2017	5,380	1,256	6,636
	2018	5,544	1,092	6,636
	2019-2023	<u>30,353</u>	<u>2,825</u>	<u>33,178</u>
		<u>\$ 56,767</u>	<u>\$ 9,591</u>	<u>\$ 66,358</u>

NOTE 8 - COMMITMENTS AND CONTINGENCIES

On May 1, 1993, the Authority entered into a Services Agreement with Franklin County, whereby the County will cause to be delivered to the Authority substantially all solid waste produced within the County. This agreement commenced upon operation by the Authority and will continue until the later of (a) the twentieth anniversary of the operation commencement date or (b) the maturity date of outstanding Authority indebtedness, provided, however, that in no event shall the agreement have a term of greater than twenty-five years from the latest date of execution of the Services Agreement.

COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013 AND 2012
(CONTINUED)

NOTE 8 - COMMITMENTS AND CONTINGENCIES (continued)

In consideration of the Authority's performance of certain activities relating to solid waste disposal, the County shall pay a service fee equal to the Authority's estimated debt service, plus operating and maintenance costs less estimated net investment earnings, if any, for each fiscal year, provided that in no event shall the service fee be less than zero. The County shall pay the Authority one-twelfth of the current fiscal year's estimated service fee on the first day of each month.

Service fees paid by the County to the Authority for the years ended June 30, 2013 and 2012 total \$6,175,486 and \$6,000,737 respectively.

The Authority is required to reimburse the County an amount equal to total tipping and user fees received in the prior month up to the aggregate estimated service fee paid by the County, as described above. Under this agreement, the Authority reimbursed the County for the years ended June 30, 2013 and 2012, \$6,175,486 and \$6,000,737, respectively. The Authority owed Franklin County \$493,844 and \$464,157 at June 30, 2013 and 2012, respectively. These amounts are included in accounts payable.

Within ninety days of the end of each fiscal year, the Authority shall calculate a year-end adjustment which represents the Authority's actual service fee; calculated using the cash basis of accounting, less amounts paid by the County plus the aggregate amount of all Authority reimbursements to the County. A service fee surplus for any year-end shall be maintained by the Authority in its operating cash account, provided that if such service fee surplus occurs in the final year of the Services Agreement, such amount shall be remitted to the County. A service fee shortfall for any year-end shall be paid to the Authority by the County.

The Authority did not have any revenue sources accounting for more than 10% of the Authority's operating revenues.

During the year ended June 30, 2013 the Authority recognized positive cash flows from operating activities of \$2,341,348. Management is continuing to find means to ensure that future cash flows from operating activities will be sufficient to allow the Authority to meet its operating costs, debt service, and intended capital improvement programs if current contracts continue. Furthermore, the Authority should continue as a going concern based on its Services Agreement with the County, as discussed previously, in which the Authority's future debt service and operation and maintenance costs are guaranteed by the County as described in the Authority's bond documents.

NOTE 9 - RECLASSIFICATIONS

Certain accounts in prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

NOTE 10 - SUBSEQUENT EVENTS

The Authority has evaluated events and transactions that occurred between June 30, 2013 and September 16, 2013, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
County of Franklin Solid Waste Management Authority

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the business type accounts of the County of Franklin Solid Waste Management Authority, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County of Franklin Solid Waste Management Authority's basic financial statements and have issued our report thereon dated September 16, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County of Franklin Solid Waste Management Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Franklin Solid Waste Management Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Franklin Solid Waste Management Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal controls, described in the accompanying comments to management that we consider to be a significant deficiency, as item **2013-01**.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County of Franklin Solid Waste Management Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* and which is described in the accompanying comments to management as item **2013-02**.

County of Franklin Solid Waste Management Authority's Response to Findings

The County of Franklin Solid Waste Management Authority's response to the findings identified in our audit is described in the accompanying comments to management. The County of Franklin Solid Waste Management Authority's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Crowley & Halloran, CPAs, P.C.

Watertown, NY
September 16, 2013

**COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY
COMMENTS TO MANAGEMENT
JUNE 30, 2013 AND 2012**

The following deficiency has been determined to be a significant deficiency over financial reporting.

2013-01: Segregation of Duties

Condition and Criteria: We noted that cash receipts are collected by the same person who has access to all of the accounting records. The Authority's bookkeeper collects all cash and deposits the receipts each day and prepares the bank reconciliations. The bookkeeper also handles cash disbursements and the creation of new vendors. The bookkeeper has access to the payroll system and is entering employee time and processing payroll. This represents a segregation of duties problem. Additionally, the bookkeeper is responsible for assigning user rights and passwords in the scale software system.

Recommendation: Although we noted the Authority has implemented several mitigating controls to help detect errors or irregularities, due to the small size of the Authority's office staff, a perfect set of controls may not be possible. Therefore, we recommend that the Board be aware of the segregation of duties problem and continue to implement both preventative and detective controls over the business operating functions to help reduce the risk of misuse of the Authority's assets.

Management's Response: Purchases are made by supervisors. The secretary verifies that the invoices coincide with vendors statements and prepares vouchers. Normally, after vouchers are verified and signed by the Chairman of the Board, the secretary prints the checks. The Executive Director reviews the signed vouchers and signs the checks. In the absence of the Executive Director, the Treasurer, has authority to sign checks. The Executive Director opens the monthly bank statements, reviews the signatures on the canceled checks then initials the bank statement. The Treasurer also reviews the operating account's statement. An important control the Authority has is liability insurance in the amount of \$100,000 per employee.

The following item is considered an instance of noncompliance.

2013-02: Debt Service Fund Not Properly Funded

Condition and Criteria: At times during the fiscal year, the Debt Service Fund was not properly funded as required by the Bond Resolution. Section 606(b) of the 1993 Bond Resolution requires the Authority to deposit monthly, with the Trustee, 1/6th of the amount required to be paid on the next succeeding interest payment date and 1/12th of the amount required to be paid on the next principal payment date.

Cause: The Authority had insufficient cash flow to make the deposits as required and pay a bond installment that was coming due.

Effect: At times during the fiscal year, the Authority is not in compliance with the 1993 Bond Resolution.

Recommendation: We recommend that the Authority evaluate the Debt Service Fund on a regular basis to ensure compliance with the bond resolution throughout the year.

**COUNTY OF FRANKLIN SOLID WASTE MANAGEMENT AUTHORITY
COMMENTS TO MANAGEMENT
JUNE 30, 2013 AND 2012
(CONTINUED)**

2013-02: Debt Service Fund Not Properly Funded (continued)

Management's Response: Management was dealing with a difficult cash flow situation. This required careful cash management to ensure that current cash requirements were met and to ensure funding for the bond payments. All obligations were met by year end as usual. Management anticipates this will be alleviated with the paying off of bonds in 2015 and sufficient airspace to generate enough cash flow to meet all future financial obligations.
