## **POLICIES AND GUIDELINES ON ENVIRONMENTAL SAFEGUARDS**

FS is an environmentally conscious organisation, which acknowledges the impact that our operations may potentially have on the environment. The clear objective of FS is to minimize any impact on the environment by:

1. Preventing pollution, reducing waste and ensuring wherever practical measures are implemented to protect and preserve natural habitats, flora and fauna;
2. Considering the effects that our operations may have on the local community;
3. Taking action to eliminate or reduce as far as practicable, any potentially adverse environmental impacts;
4. Promote environmental awareness amongst our suppliers, contractors and partners by implementation of operational procedures;
5. Seek to work in partnership with the community by behaving in a considerate and socially responsible manner;
6. Ensure effective and expedient incident control, investigation and reporting;
7. Facilitate community participation throughout project design, implementation and monitoring;
8. Where reports of abuse relate to landscapes or to partners that have received our support, our practice is to investigate, engage communities, take appropriate actions, and press the government to take corrective measures.
