

YOUR ROLE: FINANCE

CFO, Finance Director, Controller, Financial Analyst, Accounting Nerd

You are a leader with an impeccable reputation for managing talent, and making sure every dollar gets into the right hands. You vigilantly watch for fraud and financial waste.

Problems you said that you have

Risk at the financial statement level
I don't know my riskiest departments and funds.

Finding and retaining talent
My budget is tight, and accountants who are also data analysts are hard to find.

Lack of resources
High cost and time-consuming nature of implementing and deploying analytics.

Pandemic related disruption/risk
How do I balance dispersing money and mitigating risk?

How we solve those problems

Risk by financial statement line

Summarized view of risk at the financial statement line level across all spend areas.

By accountants, for accountants

Customer support from the accountants and internal auditors who designed the platform.

Deployable analytics in one week

Low cost, lightening-fast, deployable analytics for data-guided cost control planning.

Monitor ARPA/SLFRF funds and more

Analytics that anticipate and find COVID-19 disruption, ARPA/SLFRF funding and new risk.

"I've learned a way to continuously monitor the accounts, records, and inventory by using the data analytics that will put on a dashboard the things that I need to be concerned about. What we're doing here is revolutionary, we haven't ever done this before." - Cathy Carter, Tulsa City Auditor
