

BEER HERO PROGRAM FAQs

HOW DO I GET PAID?

- You get paid to find the customer and get them signed up.
- You get paid to install the equipment.
- You get paid to service and support the equipment. Most services include a 15 minute filter change annually.

HOW DO I FIND CUSTOMERS?

- Think of your current customers. If they use nitrogen for any part of their setup, the answer is yes.
- Sign up a new customer. If you're getting a new bar set up or overhauling a draught line system, consider upgrading them to our Environmental Nitrogen system.

HOW DO I KNOW A GAS SYSTEM IS A GOOD FIT FOR MY CUSTOMER?

- Any place nitrogen is used in any amount is a good fit for a GAS system.
- Tell us about their system and we'll be honest with you about if there is a real benefit or not. We can chat by phone text or email.
- We'll talk and provide tools or examples that will show the economic and other benefits of using GAS equipment.
- Check out our Fact and Worksheets.

WHY SHOULD I PROMOTE GAS OVER ANOTHER SYSTEM?

- Your customer will pay nothing up front, and they will get the most robustly built and technically advanced equipment for a competitive monthly rental rate.
- All service and maintenance will be done by you and paid for by GAS. We sign an agreement with the customer, and provide them with 24/7/365 support directly from GAS team members as Original Equipment Manufacturer.

WILL I BE TRAINED ON YOUR SYSTEM?

Yes! We will provide you with complete education on GAS units and maintenance, and you'll be given the tools to sign up and schedule a customer for an installation of a GAS system.
