

In 2023, time to hire frontline workers needs to be faster.
With conversational software, it is.

Apply

2 minutes

Candidates apply via text right on their phones through a conversational assistant.

Schedule

<1 minute

After application, qualified candidates are instantly offered interview times based on the hiring manager's calendar.

Offer

3 minutes

Hiring managers can send offers with just a click, and the conversational assistant handles the rest of the paperwork.

Screen

3 minutes

Predict best-fit candidates through automated screening and a visual assessment that collects 400+ data points.

Interview

<24 hours

Interview times are always based on earliest available, and can be rescheduled with a text. No ghosting. No waiting.

Onboard

<24 hours

Tax documents, I-9 and background check automatically sent to candidates via text (along with reminders!) to ensure hires get started faster.

Time-to-hire
2–3 days

Get to the candidates
you need first, fastest.
