

How **conversational** software improves the candidate experience.

The only hiring experience that's fast and simple enough to keep up with the modern day candidate. Here's why it works:

2 minute text to apply.

Conversations, not applications.
Candidates can apply and get scheduled for an interview via text right on their phones.

More personalization.

Apply in over 100 languages, making all candidates comfortable. Has a candidate ever sent you a smile emoji? Our clients have received hundreds.

Makes it mobile.

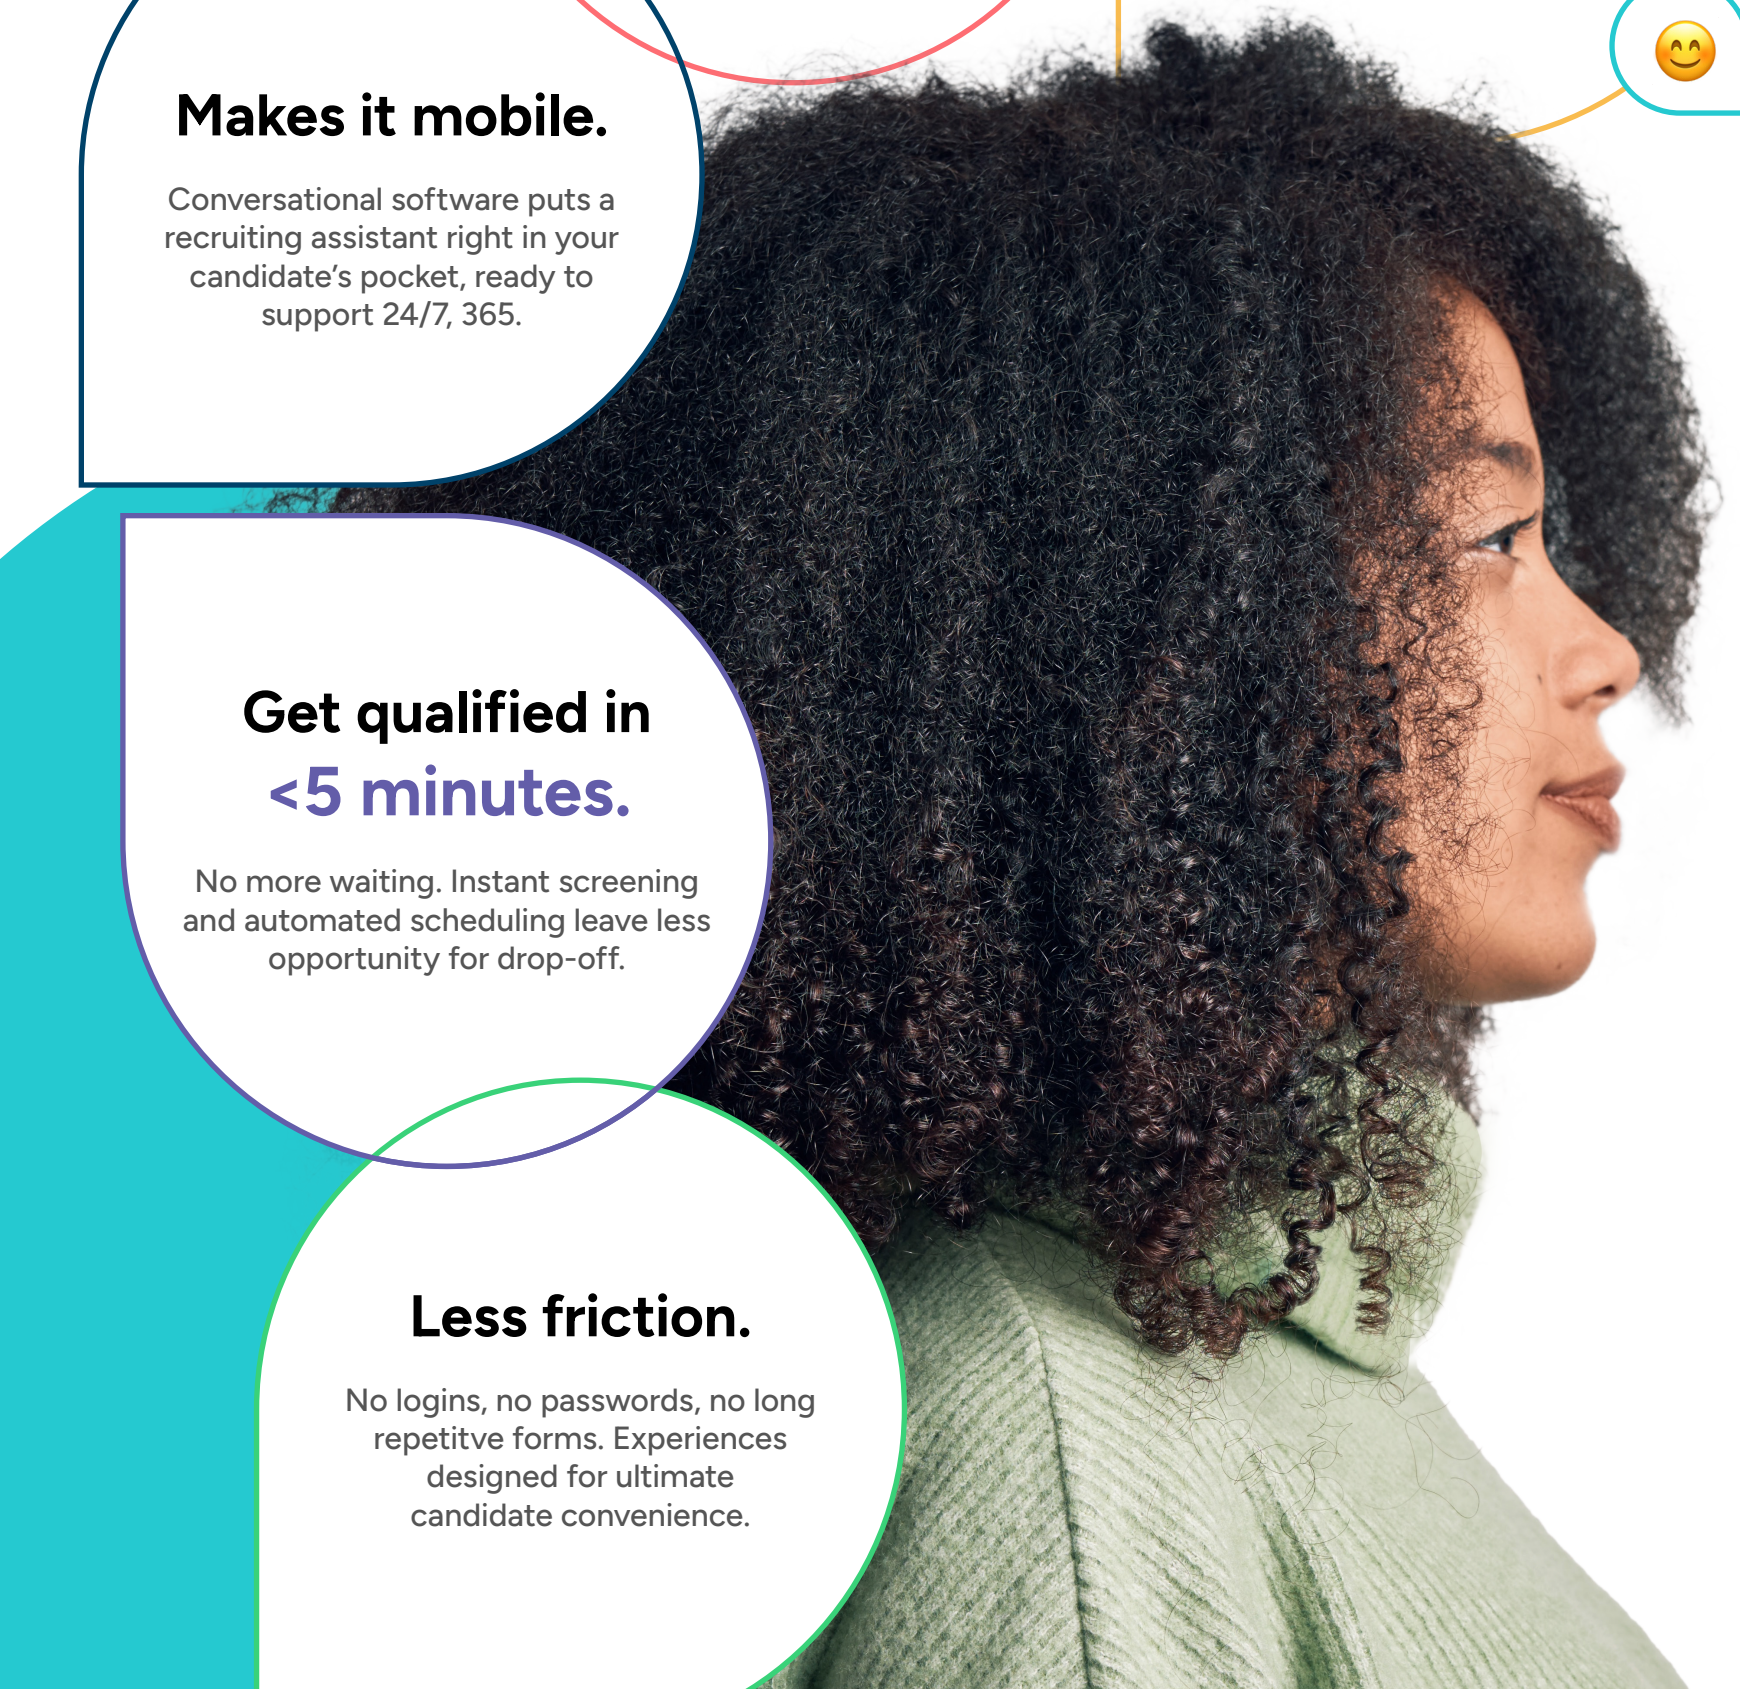

Conversational software puts a recruiting assistant right in your candidate's pocket, ready to support 24/7, 365.

Get qualified in **<5 minutes.**

No more waiting. Instant screening and automated scheduling leave less opportunity for drop-off.

Less friction.

No logins, no passwords, no long repetitive forms. Experiences designed for ultimate candidate convenience.

This is what **conversational** software looks like.

It's modern, fast, and frictionless.
For candidates and recruiters alike.

Text to apply.

Candidates can apply instantly by text or QR code scan.

A perfect fit.

Serve up the best open roles based on the candidate's location, preferences, and more.

Auto-scheduling.

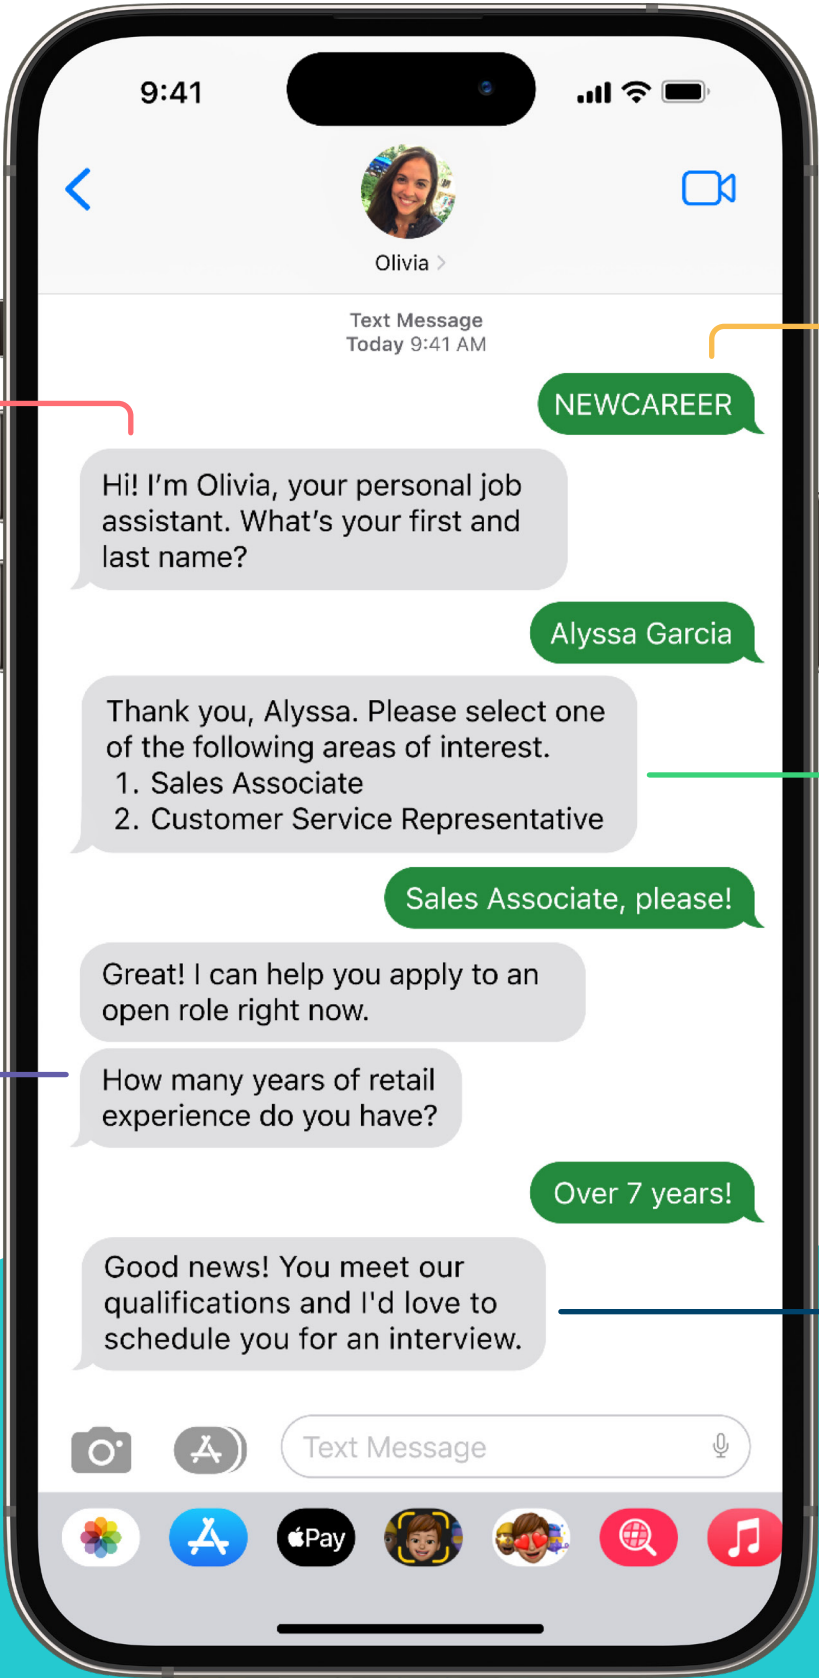

Qualified candidates are auto-scheduled based on recruiter's availability.

Instant engagement.

Respond to candidates immediately anytime, 24/7.

Apply in minutes.

The conversation is the application, completed through text or chat.

How **conversational** software improves the recruiter experience.

Nothing solves the problems of the modern day recruiter like conversational recruiting software. Here's why it's powerful:

**2M dollars
saved in one year.**

Global leaders like General Motors are moving candidates from apply to Day 1 in days instead of weeks.

Easy to use.

Requires minimal training and has high user adoption because it communicates the way recruiters are used to: on their phones, via text.

**5+ hours saved
per week.**

Removes time stealers by automating tasks like screening, interview scheduling, and onboarding.

**Improves
conversion.**

Removes barriers and friction points, leading to drastically improved interview show rates, and ultimately, better hires.

**72% of recruiters
will stay.**

Over half of recruiters are more likely to stay at their current job with the use of conversational AI.
