

CISCO NDFC MENTORED INSTALL

Service Overview:

At Netnology, we specialize in Cisco's Nexus Dashboard Fabric Controller (NDFC) enablement and implementation services to expedite the adoption of Cisco NDFC solution. As part of this Mentored Install service offer, our subject matter experts (SME) partner with your team to ensure a smooth deployment of the NDFC solution in the production environment and provide knowledge transfer to equip your staff with the necessary skills to configure and manage the NDFC environment.

Cisco NDFC Solution:

Nexus Dashboard Fabric Controller (NDFC) is the network management platform for all NX-OS-enabled deployments, spanning new fabric architectures, IP Fabric for Media, and storage networking deployments for the Cisco Nexus-powered data center. NDFC provides management, control, automation, monitoring, visualization, and troubleshooting across Cisco Nexus and Cisco Multilayer Distributed Switching (MDS) solutions.

- Accelerate time to market by gaining an understanding of the ways that Cisco NDFC can address your unique use cases, align IT goals with business goals, and simplify operational processes required for success.
- Reduce risks by identifying and addressing your technical and operational readiness to effectively deploy a Cisco NDFC solution to support your target use cases.
- Protect capital and operational investments by developing a simple transition path from existing environments to architecture based on Cisco NDFC.
- Optimize performance and reduce service interruption by preempting and proactively resolving problems efficiently to help you maintain the performance, reliability, and ROI of your Cisco NDFC deployment.

Service Benefits:

Netnology has a team of world class engineers who specialize in the Cisco NDFC solution and are passionate about customer success. Netnology will partner with you to provide:

- Step-by-step guidance from an SME on NDFC solution deployment.
- Configuration and documentation of NDFC solution.
- Knowledge transfer to ensure customer is ready to configure and manage the environment.

Scope of Services:

As part of the 10-day (up to 80 hours) Mentored Install engagement, Netnology will help with the following:

- Solution Overview
- Nexus Dashboard Deployment
 - NDFC Deployment Model (Pick One)
 - Fabric Controller
 - Deploy and Configure NDFC
 - Core Component Configuration
 - VXLAN BGP EVPN Fabric Template
 - Fabric Builder
 - Device Provisioning
 - Multi-Site Fabric
 - Stretching Networks
 - Endpoint Locator Configuration
 - API Inspector
 - Best Practice Templates and Custom Templates
 - Classic Lan
 - Media Controller
 - SAN
- Backup and Restore
- Monitoring, Reports, and Alarms
- Troubleshooting - Health Scores & Faults
- Maintenance
- SWIM Firmware Management
- Knowledge Transfer and Walkthrough

Target Audience:

This service is designed for Network Architects, Network Engineers and Administrators configuring, deploying and managing the Cisco NDFC solution.

Prerequisites:

Customer also needs to acquire the necessary software licenses for the deployment of NDFC solution.

Service Deliverables:
