

## Cisco NDFC Health Check Service

### Overview

The **Cisco NDFC Health Check Service** is designed to provide customers with an expert-level view on their existing NDFC environment, and how the network is performing to support their business requirements and most critical use cases. It helps identify gaps and provides recommendations to help remediate issues to ensure the network is fully optimized.

### Discovery

- Conduct workshop with customer to understand requirements.
- Information Gathering
  - Network topology of existing NDFC environment.
  - Configuration of Nexus Dashboard Controller.
  - Configuration of NDFC Fabrics and other relevant outputs (e.g. “show” commands).
- Review collected data and document findings.
  - Identify gaps and improvements.

### Recommendations

- Provide feedback and recommendations on:
  - Controller Implementation
  - Fabric and Other Templates
  - MSD, VRF Lite, L4-L7, Device Roles
  - Advanced Functionalities
- Identify areas of improvement and overall optimization of NDFC environment.
- Review NDFC features that can help address new business requirements.

### Deliverables

- Executive Summary Presentation
- Health Check Review Report
- Findings and Recommendations Document
