

TANKACTIVE™

The Responsible Choice

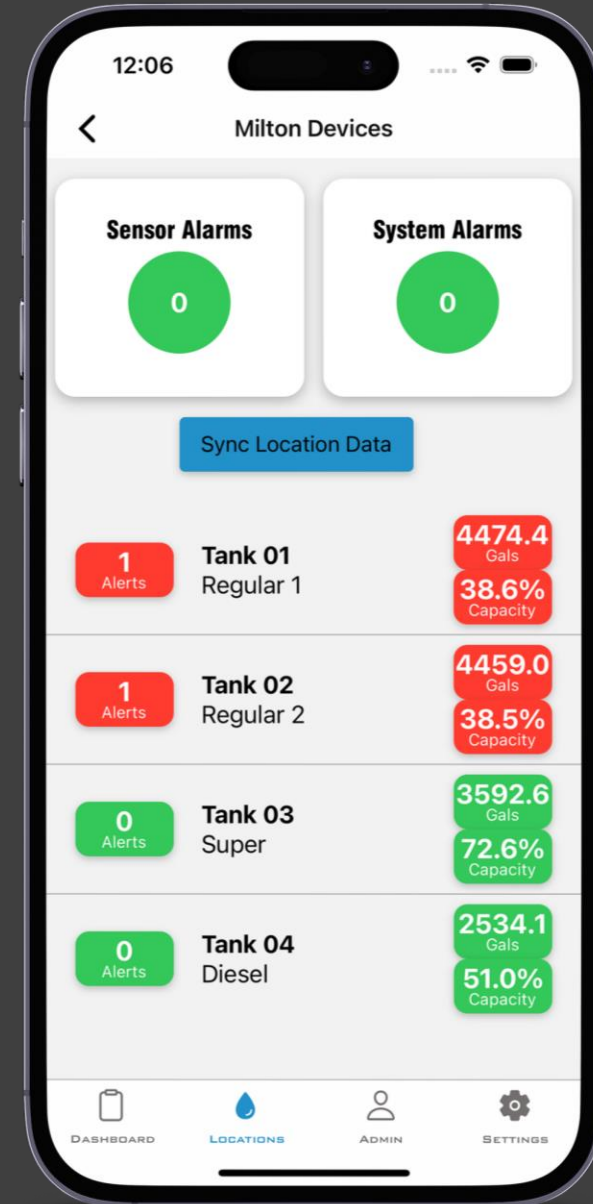

OMNTEC

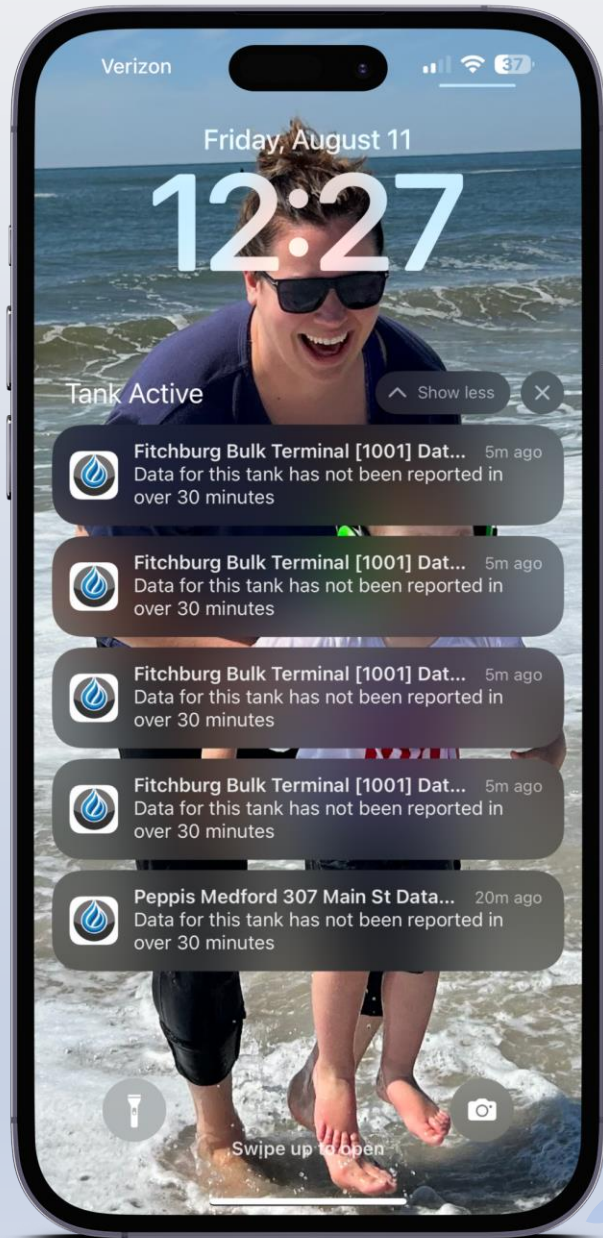

Advanced Tank Monitoring & Leak Detection

What is TankActive?

- **User-friendly mobile app**
- **Compatible with IOS & Android**
- **Monitor local or remote inventory & alarms with the security of real-time notifications**

TANKACTIVE™

Realtime Notifications

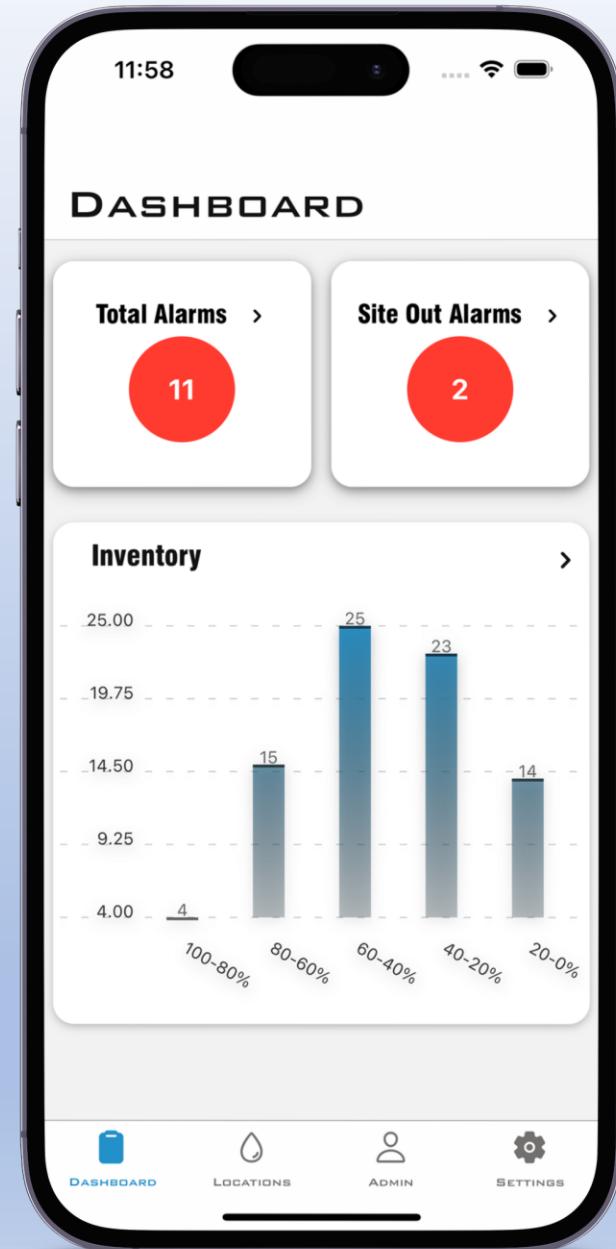

- **One-Click Access:** Easily access the app directly from the notification itself, saving you time by instantly opening the app to the relevant tank's information.
- **At-a-Glance Information:** Notifications provide essential details immediately, such as the specific tank that's low on fuel and the exact fuel level in gallons or percentage.
- **Enhanced Efficiency:** By receiving Realtime notifications, businesses can optimize fuel management, streamline logistics, and reduce downtime due to fuel shortages.

TANKACTIVE™

DASHBOARD

- View notifications to manage sites & events on the go
- Monitor: inventory, tank status, sensor status, & current trends
- View live data of sites to fix problems as they happen
- See all critical information & alarms in one place

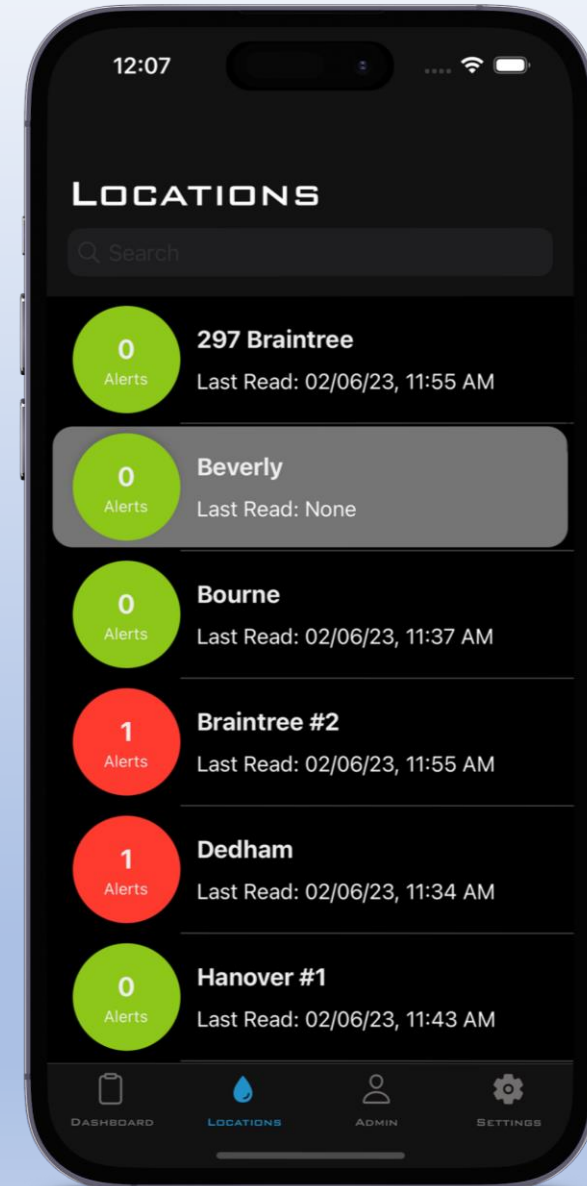

TANKACTIVE™

TANKACTIVETM

LOCATIONS

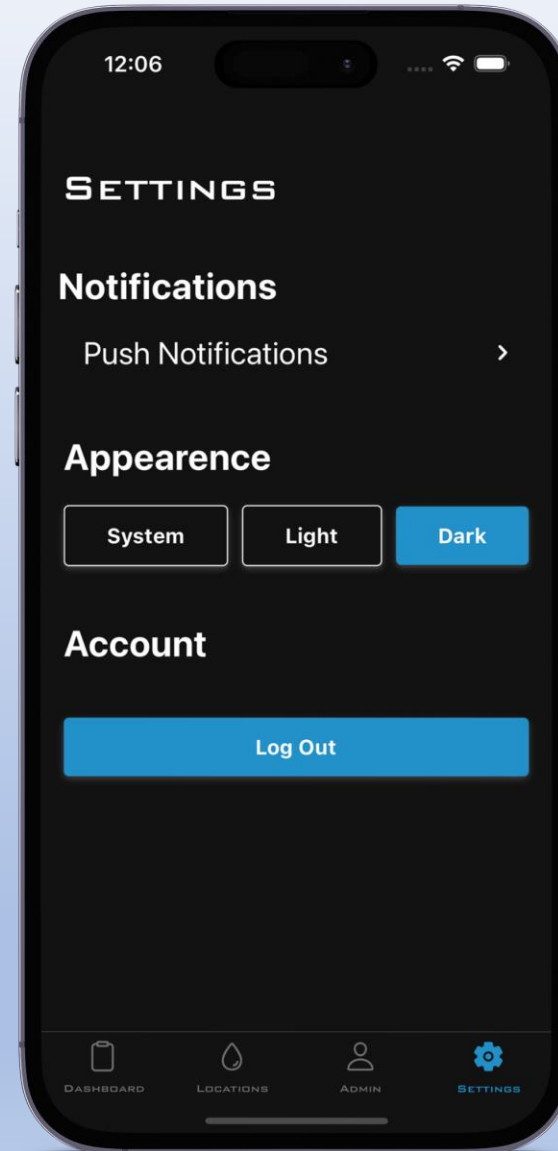

- View a detailed display of all your sites
- Features a search bar to quickly find exactly what site you are looking for
- Drill down into your site to view tank details, alarms, and more on one easy-to-read chart
- All information stored in the app can be shared with anyone through any communication platform
- View inventory (high or low) and all other critical alarms

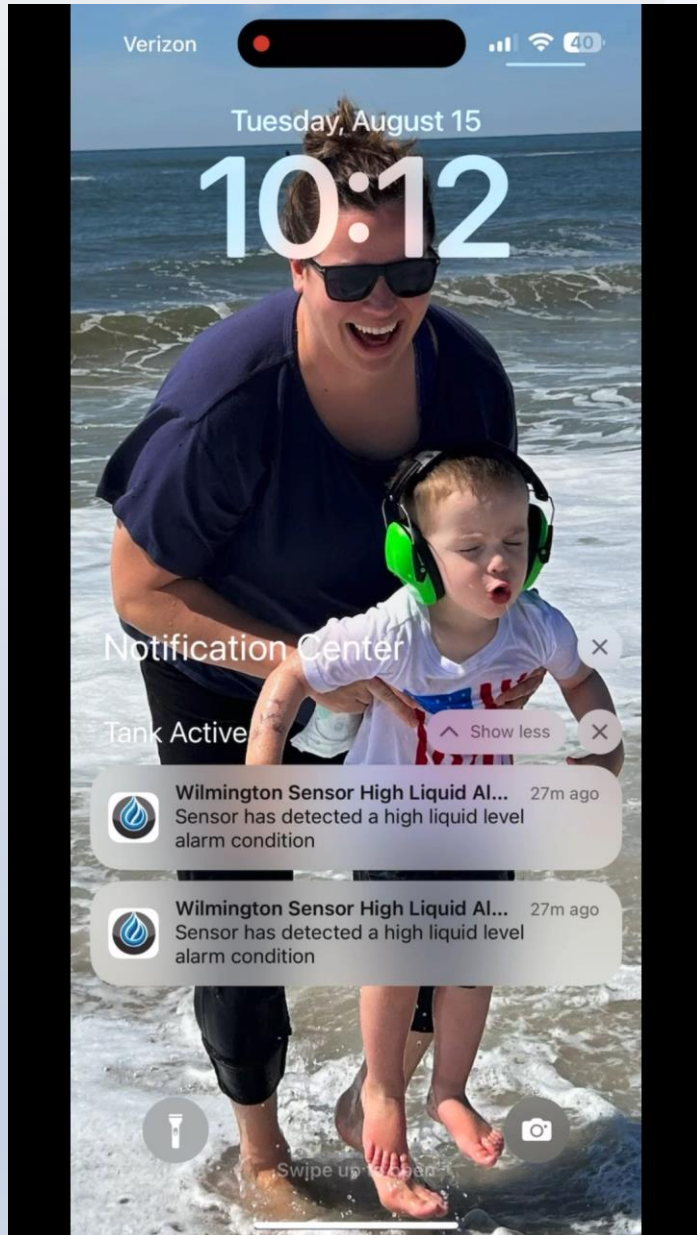

MORE FEATURES

- Enable or disable specific notifications
- Appearance: light & dark mode options
- Set your manager's access level to only view relevant sites

TANKACTIVE™

Notification Demo

- **One-Click Access:** Easily access the app directly from the notification itself, saving you time by instantly opening the app to the relevant tank's information.
- **At-a-Glance Information:** Notifications provide essential details immediately, such as the specific tank that's low on fuel and the exact fuel level in gallons or percentage.
- **Enhanced Efficiency:** By receiving Realtime notifications, businesses can optimize fuel management, streamline logistics, and reduce downtime due to fuel shortages.

TANKACTIVE™

Sharing Demo

- **One-Click Access:** Easily access the app directly from the notification itself, saving you time by instantly opening the app to the relevant tank's information.
- **At-a-Glance Information:** Notifications provide essential details immediately, such as the specific tank that's low on fuel and the exact fuel level in gallons or percentage.
- **Enhanced Efficiency:** By receiving Realtime notifications, businesses can optimize fuel management, streamline logistics, and reduce downtime due to fuel shortages.

TANKACTIVE™

CLOUD BASED ACCESS & STORAGE

Two ways to connect your ATG to the cloud:

- Connect your tank gauge to our onsite appliance to send out your data through a secure VPN
- Connect your tank gauge directly to your network to be polled by our servers

TANKACTIVE™

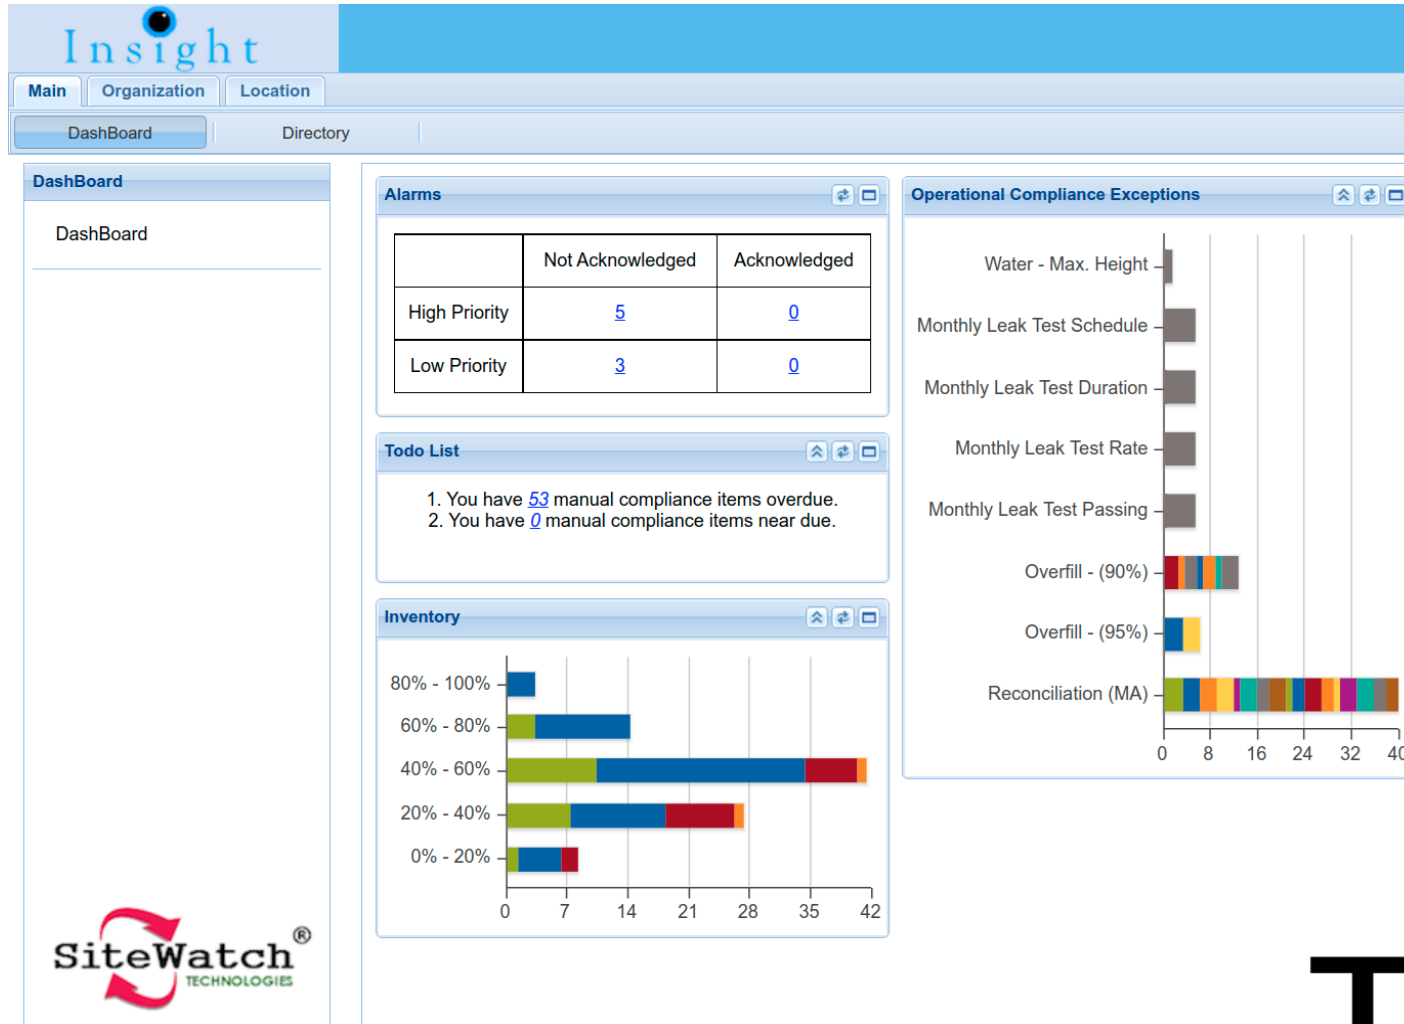

Organization - Tab

1. Gives Administrators a clean dashboard
2. This top-level view, rapidly shows at a glance status of all fuel assets.
3. Can be used to drill down into Locations if needed.

Organization - Dashboard

- At a glance alarm & inventory status

SiteWatch TECHNOLOGIES

TANKACTIVE™

Organization – Current Readings

1. Regular reporting

The screenshot displays the SiteWatch Insights web application interface. The top navigation bar includes the 'Insight' logo, a user welcome message, and links for 'Help', 'Options', and 'Logout'. Below this, a secondary navigation bar shows 'Main', 'Organization', and 'Location' tabs. A third navigation bar contains menu items: 'Compliance Reports', 'Profile Rpts', 'Accounting Rpts', 'Dispatch Rpts' (which is highlighted), and 'Maintenance/Services'.

The main content area is titled 'Dispatch Rpts' and contains a sidebar with the following options: 'Daily Opening Inventory', 'Polled Inventory (M)', 'Polled Inventory (S)', 'Delivery Variance', and 'Delivery Forecast'. The 'Polled Inventory (M)' option is selected, leading to a table titled 'Polled Inventory Manifold Tanks'. This table has columns for 'Date', 'Time', 'Tank', 'Product', 'Gross Gallons', and 'Ullage'. The data is organized into sections by location, each starting with a 'Location:' header. The table contains 12 rows of data, showing various fuel types (Regular, Super, Diesel) and their corresponding volumes and ullage levels.

Export options for PDF and CSV are visible in the top right corner of the table area. The SiteWatch Technologies logo is located in the bottom left corner of the application window.

TANKACTIVE™

Organization – Delivery reporting 1

1. Automatically records deliveries

The screenshot shows the 'Insight' software interface. The main navigation bar includes 'Main', 'Organization', and 'Location'. Below this, there are tabs for 'Compliance Reports', 'Profile Rpts', 'Accounting Rpts', 'Dispatch Rpts', and 'Maintenance/Services'. The 'Dispatch Rpts' tab is active, showing a 'Delivery Variance Report' for September 2021. The report is filtered by 'Location' and includes options for 'Collapse Groups', 'PDF', and 'CSV'. The report table has the following columns: Date, Time, Product, Start Gallons, End Gallons, Delivery, Ticket, and Variance. The data is as follows:

Date	Time	Product	Start Gallons	End Gallons	Delivery	Ticket	Variance
Sep-01-2021	09:41	Regular	4,734	11,131	6,397	6,500	-103
Sep-02-2021	16:56	Diesel	2,021	3,032	1,011	1,004	7
Sep-02-2021	16:57	Super	2,218	3,727	1,509	1,501	8
Sep-02-2021	17:04	Regular	5,773	11,129	5,356	5,501	-145
Sep-03-2021	17:10	Regular	7,010	12,460	5,450	5,503	-53
Sep-06-2021	10:40	Regular	4,823	10,684	5,861	6,000	-139
Sep-06-2021	10:41	Super	1,568	3,078	1,510	1,500	10
Sep-07-2021	18:48	Super	2,192	2,219	27	0	27
Sep-08-2021	10:57	Diesel	1,810	3,019	1,209	1,200	9
Sep-08-2021	11:04	Regular	3,617	11,897	8,280	8,499	-219
Sep-08-2021	11:05	Super	1,919	3,937	2,018	2,000	18
Sep-10-2021	06:25	Regular	5,555	11,431	5,876	5,999	-123
Sep-11-2021	14:23	Super	2,192	2,219	27	0	27
Sep-12-2021	10:50	Regular	2,909	12,703	9,794	9,999	-205
Sep-12-2021	10:53	Super	1,840	3,859	2,019	1,999	20

The interface also features a sidebar menu with options: Daily Opening Inventory, Polled Inventory (M), Polled Inventory (S), Delivery Variance (selected), and Delivery Forecast. The SiteWatch Technologies logo is visible in the bottom left corner.

TANKACTIVE™

Organization – Delivery reporting 2

- Allows BOL entry for variance calculation

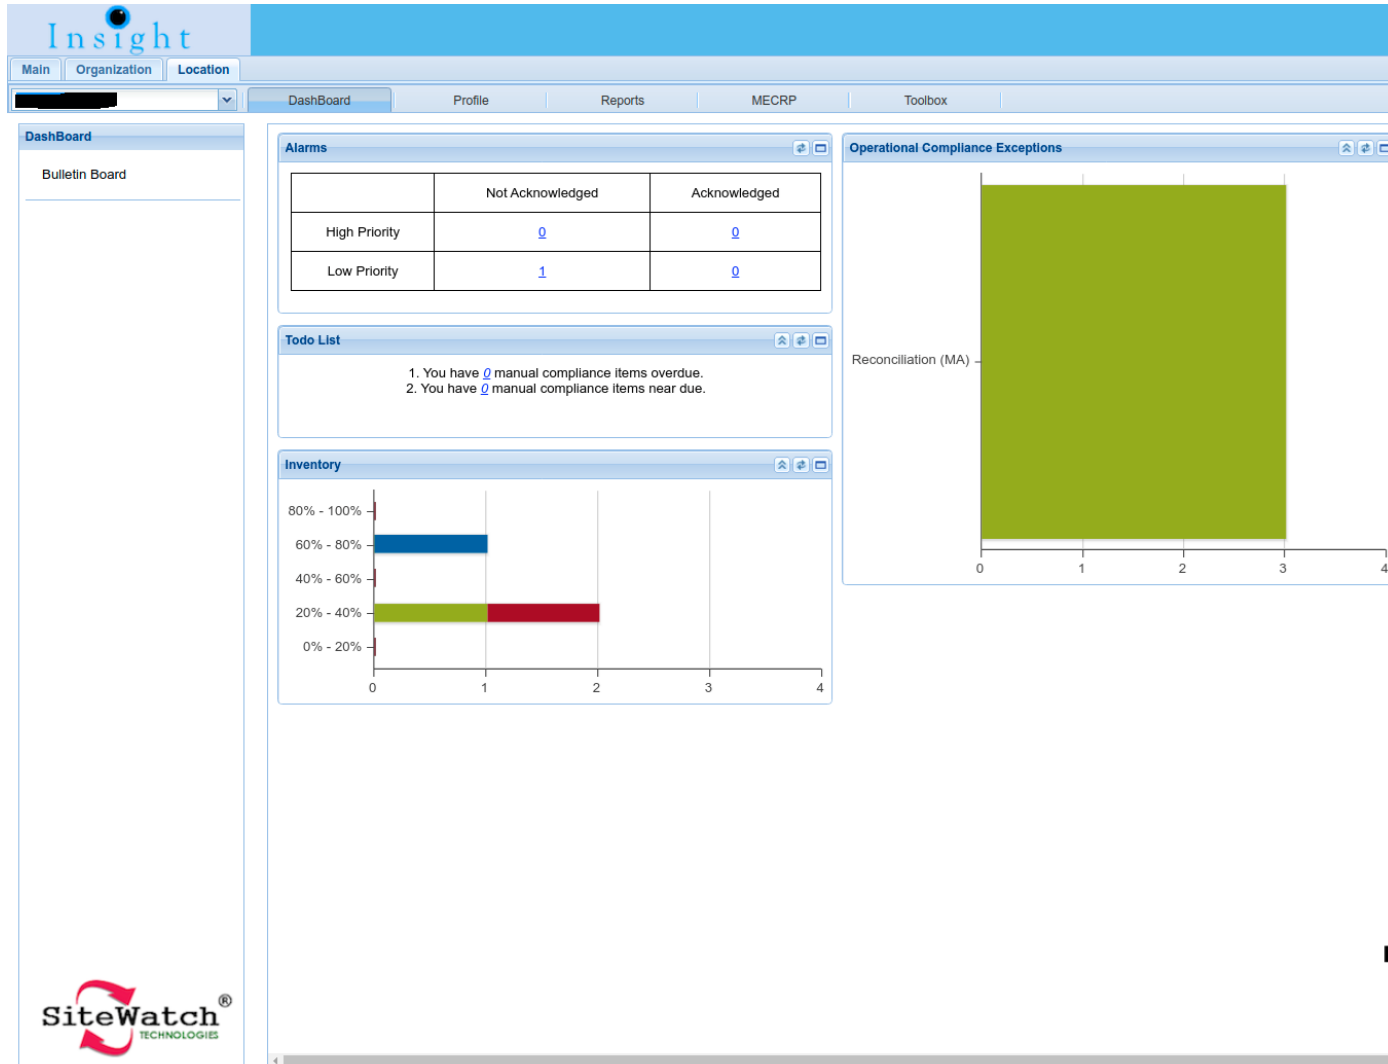

The screenshot displays the 'Insight' software interface. The main header shows 'Welcome [redacted]' with 'Help', 'Options', and 'Logout' links. Below the header, there are navigation tabs: 'Main', 'Organization', and 'Location'. Under 'Organization', there are sub-tabs: 'Compliance Reports', 'Profile Rpts', 'Accounting Rpts', 'Dispatch Rpts', and 'Maintenance/Services'. The 'Dispatch Rpts' sub-tab is active, showing a 'Delivery Variance Report' for 'Month: September' and 'Year: 2021'. The report is grouped by 'Location'. The table below shows the following data:

Date	Time	Product	Start Gallons	End Gallons	Delivery	Ticket	Variance
Sep-01-2021	09:41	Regular	4,734	11,131	6,397	6,500	-103

Location - Dashboard

1. An abbreviated view grouped by Proteus

TANKACTIVE™

Location – Tank Levels

1. Tank Levels Grouped by %volume

The screenshot displays the 'Insight' web application interface. The top navigation bar includes the 'Insight' logo, a user welcome message, and links for 'Help', 'Options', and 'Logout'. Below this, a secondary navigation bar shows 'Main', 'Organization', and 'Location' tabs. A third navigation bar contains 'Dashboard', 'Profile', 'Reports', 'MECRP', and 'Toolbox' options. The main content area is titled 'Inventory 40% - 60%' and features a table with columns for Location, Address, City, State, Date, Time, Tank, Gross Gallons, Ullage, and Product. The table is grouped by product type: Diesel and Super. A 'Collapse Groups' link is visible in the top right of the table area. The left sidebar contains a 'Dashboard' section with a 'Bulletin Board'.

TANKACTIVE™

Location – Daily Starting History

1 . Historical Data organized by Year, Month, Day

The screenshot displays the 'Insight' web application interface. The main content area shows a table titled 'Inventory' with the following columns: Time, Tank, Level, Gross Gallons, Net Gallons, Temperature, Ullage, Water Height, and Water Gallons. The data is grouped by date, with each group starting with a 'Date:' header. The 'Total:' row for each date is highlighted in red. The 'TANKACTIVE' logo is overlaid on the bottom right of the screenshot.

Location – Daily Sensor Status

1. Graphical view of the sensor's conditions

The screenshot shows the 'Insight' web application interface. The main content area displays a 'Sensor Status' report for the month of September 2021. The report is presented as a grid with 5 rows of sensors and 30 columns representing days of the month. The sensors are: Regular Inter (01), Diesel Inter (02), Diesel Sump(02), Regular Sump(01), Super Sump(03), and Super Inter (03). The legend below the grid indicates: Green checkmark for Normal, Alarm icon for Alarm, No Response icon for No Response, and Red X for Data Not Available.

Location – Alarm History

1. Monthly record of a location's alarms

The screenshot displays the 'Insight' software interface. The top navigation bar includes 'Main', 'Organization', and 'Location'. The 'Location' dropdown is set to a redacted name. The main menu on the left lists various reports: Inventory, Alarms, Sensor Status, Delivery, Book Balance, Leak Test, CSLD, Totalizer, and CITLD. The 'Alarms' report is selected, showing a table of alarm history for September 2021. The table columns are Date, Time, Unit, Type, Description, Alarm, Cleared Date, and Cleared Time. The data shows a mix of 'Regular' tank overfill alarms and 'Printer Error' and 'Paper Out Alarm' system alerts for 'Underground Storage Tanks'. The interface also features a 'Welcome' message, 'Help', 'Options', and 'Logout' links, and a 'Reports' section with filters for 'Month: Septembe' and 'Year: 2021'. Download options for PDF and CSV are visible.
