

# *Immediation.* 12 Tech Interfaces Into 1

On your journey to resolve a dispute — whether by mediation, arbitration, or in a court - you are likely to use some mix (or all) of the following:

1

An **intake process** to vet the claim

2

**Outlook** to contact the various parties

3

A **system to identify** your SMEs, experts, co-counsel or other parties

4

**Dropbox, Sharefile**, any document-sharing platform to store/exchange documents

5

A **case management system** to maintain document integrity and identify/flag tasks like letters, filings and other tasks that comprise your process

6

Some means of selecting your **neutral, and a fund repository** to hold their fee

7

A **calendar system** to schedule various meetings

8

Likely a **digital video conferencing platform** to conduct a virtual or hybrid hearing/mediation

9

Potentially **WhatsApp**, or other, to ask for **breakout rooms** during the negotiation

10

**Probably a back-and-forth** on the settlement, award or order, eating up more time

11

A **place to store the counter-signed agreement** that goes back into the case file and closes the matter

12

A **time recording system** for billing

Up to **12 different digital apps/interfaces** are needed to facilitate your journey – each ripe with the possibility of human error.

Fully configurable platform digitizes your existing process into one streamlined interface.

It feels like home.
