The Honorable Sam Graves
Chairman
Committee on Transportation and Infrastructure
US House of Representatives
2165 Rayburn House Office Building
Washington, DC 20515

The Honorable Rick Larsen
Ranking Member
Committee on Transportation and Infrastructure
US House of Representatives
2164 Rayburn House Office Building
Washington, DC 20515

Dear Chairman Graves and Ranking Member Larsen,

The purpose of this letter is to share that the leadership of **Rekor Systems, Inc.** strongly supports the passage of **HR 1500, the ITS Integration Act**. This bipartisan legislation, introduced by Representatives Garret Graves and Salud Carbajal, takes necessary steps toward ensuring we use digital tools, such as data, to operate more efficiently, effectively, and safely on American roads. We urge you to move this legislation through the Committee.

NASDAQ listed **Rekor Systems, Inc.** is a trusted global authority on intelligent infrastructure providing innovative solutions that drive the world to be safer, smarter, and more efficient. As a provider of comprehensive, continuous, and real-time roadway intelligence, Rekor leverages AI, machine learning, and holistic data to support the intelligent infrastructure essential for smart mobility. With its disruptive technology, Rekor delivers integrated solutions, actionable insights, and predictions that increase roadway safety. So, as you can imagine, HR 1500 is essential and supports companies like Rekor in using technological advancements to make our roadways safer and more efficient.

This legislation directs the United States Department of Transportation to leverage protected, secured, and anonymized third-party transportation data to inform transportation planning and real-time traffic management. The ITS Integration Act reinforces and expands upon data and technology's crucial role in ensuring a safe and efficient transportation system. Implementing this bill will help save lives, manage congestion, and improve freight and supply chain efficiencies, all while increasing American competitiveness on the global stage.

We must strategically invest in digital infrastructure in the country, not just concrete, and this bill does precisely that. Our nation's transportation network is poised to derive significant benefits from the utilization of transportation data that this bill requires, and we encourage the House Transportation and Infrastructure Committee to move quickly to move this legislation forward. Rekor stands ready to be supportive however we can.

Sincerely,

David Desharnais
President & COO
