

COMMANDER MINI LIGHT BAR

At only 212mm long the **COMMANDER MINI** will fit in most glove boxes and yet it packs a punch usually only found in much larger light bars. The 60 well placed LEDs and a clever outer lens design ensures the high intensity output is clearly visible though 360° with no “dead” spots. The **COMMANDER MINI** is certified as compliant with ECE R65 Class 2, SAE J845 Class 1 and with Electromagnetic Interference standard ECE R10 and CISPR 25 class 3.

Part no: **C11003**

- Multi voltage: DC 9-30V
- 60 x 1w LEDS Amber
- Certified EMI free
- High and low intensity
- Extremely low current draw, less than 3amps
- Heavy duty magnets with rubber covers (x2)
- Cigarette plug with switches
- 16 flash patterns, with memory function
- Reverse polarity protection
- Polycarbonate lenses with UV inhibitor
- Weight 580g (900g with magnets)
- IP67
- 3 year warranty

Compliance with
ECE R65 Class 2 TA2,
ECE R10,
CISPR 25 class 3,
