Next Generation At
Home DVT Prevention

 **PRECISION**[™]
MEDICAL PRODUCTS

THE GREATEST RISK IS DOING NOTHING AT ALL

Circul8 Max is the next generation of at-home DVT prevention. No cords, no tubes, and industry leading 20+ hour rechargeable battery provides all day DVT prevention.

We offer what others do not; a full service take-home DVT program. So you can focus on what matters most. Your patients.

Industry leading at home DVT provider. Over 10,000 prescribing physicians.

Personalized patient support and follow up.

We sweat the details. Covered by most major health insurers.

Unrivald patient experience — fast, convenient, consistent, and friendly.

Simple and seamless online ordering and fulfillment.

PEACE OF MIND FOR EVERYONE

55 mmHg
55mmHg of pressure delivered every 50 seconds

LCD DISPLAY
Largest LCD screen on the market

TUBELESS & CORDLESS
Fully mobile at-home DVT prevention system

PROMOTE VENOUS FLOW
New peanut bladder for additional circumferential force and calf placement freedom.

LIGHTWEIGHT WRAP
High tech threads complete with StayShape soft sewn binding for exeptional comfort & breathability.

THE RISK OF DEVELOPING A DVT CAN LAST UP TO 30 DAYS POST-SURGERY*

*Ross SW, Kuhlenschmidt KM, Kuhlenschmidt JC, et al. Association of the Risk of a Venous Thromboembolic Event in Emergency vs Elective General Surgery. JAMA Surg. 2020;155(6):269-271. doi:10.1001/jamasurg.2020.0413

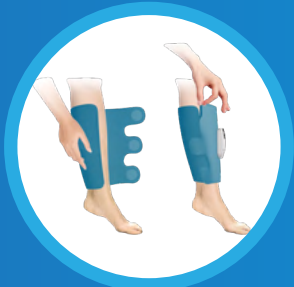

The risk of developing a DVT does not end when a patient is discharged from the hospital. Help prevent this risk with Circul8 Max, the next generation of DVT prevention.

50% of blood clots are healthcare related. And most occur **AFTER DISCHARGE**

HOW IT WORKS

1.

PLACE ON CALVES

2.

EASY ONE-TOUCH
OPERATION
