Improving the performance of concrete worldwide®

CIVIL & PRECAST

BACKSAVER HAMMER DRILL

REVOLUTIONIZE THE WAY YOU DRILL DOWELS

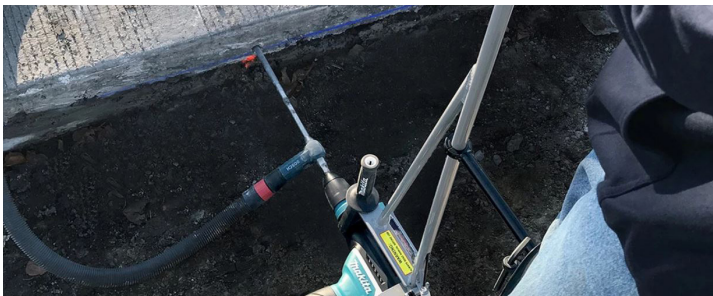

The innovative and patented rotary hammer drill attachment makes drilling concrete slabs for dowels easier than ever, by allowing the user to drill standing up.

At only 6.8kgs, BackSaver is light enough to carry from one side of the job site to the other. It helps increase dowel drilling productivity by 50% on average due to quicker transitions between holes

KEY FEATURES / BENEFITS

- Requires less energy while drilling
- Permits application of more pressure while drilling
- Allows for easier, faster and more consistent level drilling
- Increases productivity
- Assists in prevention of back injuries
