CIVIL & PRECAST

HOGAN Company is a 74-year old premier manufacturer of products used in curb & gutter and flatwork forming throughout North America.

Since 1948 the Hogan Company has earned the reputation of being the leader in concrete forming and paving accessories. With the introduction of our HOGAN Company products, you will quickly discover that their attention to detail will provide you with the highest quality products at the most competitive pricing available.

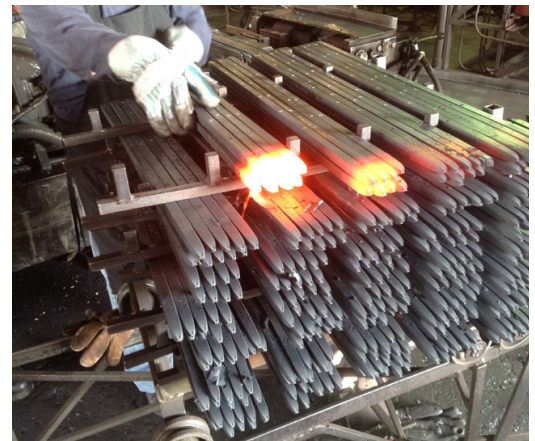

Stakes are a vital part of any project that involves concrete, and they can come in various forms. Many contractors have tried to cut costs with low-quality imports that break on impact, costing them more in time and money.

HOGAN Stakes mitigate these issues with it's high tensile strength premium steel and a patented pointing proccess, ensuring superior strength, durability and attention to detail..

The HOGAN Pointing process of heating and stretching the point was patented by Eric Hogan in the 1960's. The HOGAN process of pointing has become the world's point of choice.

Eric "Grandpa" Hogan

STEEL FORMING PINS / STAKES

NO STAKES ARE EQUAL

HOGAN stakes are High Tensile Strength premium steel. HOGAN stakes are the industry standard by which all others are measured.

From concrete forming sidewalks, concrete driveways, curb and gutter, to our Form Pins for heavy highway contractors.

When you want the world's best steel forming pins that guarantee strength and durability, go for HOGAN stakes.

FEATURES / BENEFITS

- Removable and reusable to hold forms in place during a pour
- Made from tempered steel to offer enhanced strength and durability

DUPLIX REUSABLE SCREWS REUSABLE DOUBLE-HEADED HEX-HEAD SCREWS

The Duplex Screw is a strong reusable, double-headed hex-head screw that is easy to install, remove and use again.

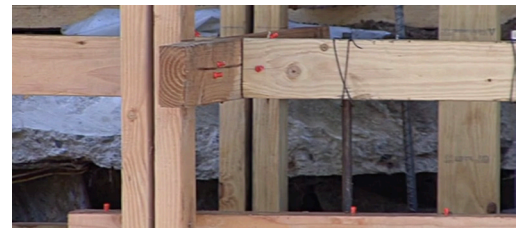

These versatile screws make it simple to hold your projects together, but more importantly, remove your projects quicker and easier. It's the ideal fastener for temporary structures that must be erected quickly and removed with little effort.

Compared to drywall screws or duplex nails, the Duplex Screw can be used multiple times with less effort. Installation with a standard 1/4" impact driver or Phillips screw driver ensures a firm grip, and an easy application.

Studies show that Duplex Screws can be installed as fast as 45 screws per minute compared to duplex nails at 24 per minute. Installation and removal is easy. Unlike using a hammer and nails, the application is effortless and reduces the risk of injury to thumbs, fingers and wrists. The orange-topped hex-head on the screw also makes it easy to install and find.

KEY FEATURES / BENEFITS

- Out performs saving time & money
- Multiple re-use
- Less injury, easy to install & remove
- Secure fitting, no slipping
- Easy to find bright orange head
- Sizes 1 1/4", 1 5/8", 2 3/4"

STAKE PULLER WITH FOOT

DESIGNED TO MAKE STAKE REMOVAL SIMPLE WITHOUT STRAINING
Our innovative drill powered stake pullers quickly remove stakes from concrete forms.

Our stake pullers are designed for the removal of round steel stakes. Comes with Foot attachment for a secure placement.

Designed to remove stakes quickly without damaging the stake.

KEY FEATURES / BENEFITS

- Material: Fully-hardened steel
- Capacity: Steel Stakes up to 1-1/2" x1-1/2"
- Size: 12 x 4 x 1 in.
- Drill chuck: 1/2 in. minimum
- Drill Power: 18V minimum for cordless
- Lift Force: 2000lbf
- Drill not included
