

## SAFESCAPE PASTE HOLE COVERS

Safescape Paste Hole Covers are an effective and safe method of covering drill holes that will need to be accessed at a later date.

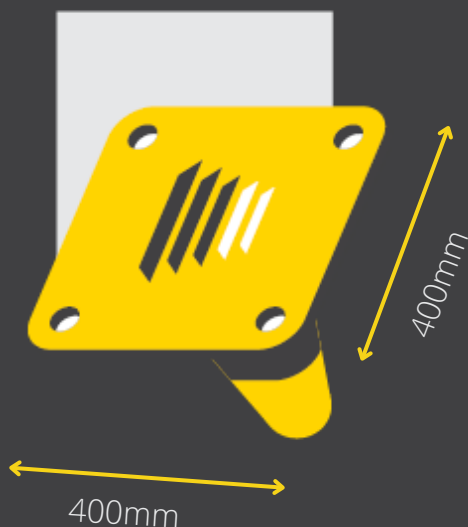

Paste Hole Covers ensure that workers or equipment do not fall into exposed drill holes and minimise the risk of open hole trip hazards and injuries.

To discuss Paste Hole Covers for your project or to obtain a quote please contact us.

### FEATURES

- Made from Low-density polyethylene (LDPE)
- Are highly visible in colour
- Can be reused
- Manufactured by rotational moulding ensuring consistent and high quality finish
