

## DATASHEET

# TIER 1 DECOMMISSIONING CAPABILITIES

## PROVIDING COST POSITIVE SOLUTIONS TO TIER 1 BUSINESSES

### DECOMMISSIONING EXPERTISE AND STRONG RELATIONSHIPS

John Lawrie Metals have spent the last two decades specialising in decommissioning, repurposing and recycling. Actively pursuing partnerships and contracts with Tier 1 contractors allows the company to build strong relationships with waste, decom and heavy lift businesses who have specialist requirements.

John Lawrie Metals can provide:

- > Direct links to European Steel Mills.
- > Unparalleled recycling and reuse capabilities.
- > Onshore downsizing service for structures, jackets and platforms.
- > Subsea clearances: wellheads, trees, risers, umbilicals and tubulars.
- > Up to 100% recycling routes.

We send around 200,000 tonnes of scrap direct to mills annually. These direct links help cut costs and offer the efficient and experienced service and competitive pricing that Tier 1 contractors are looking for. Excellent relationships with Port operators also give us the ability to collect redundant materials from locations throughout the UK.
