

Reimagine the future of Outsourcing.

It's not easy to hire Data Scientists and Engineers for your internal teams. Using outsourcing seems like a daunting task and many profiles are not suited to your teams' needs.

There's probably a better way to access the best data science and engineering talent out there in the world.

Our Solutions.

DareData Engineering is a company providing consulting and outsourcing offers in Data Science & Engineering. We provide companies with the vetted talent from an extensive network of experienced freelancers working in the industry.

+50
successful placements

Our team is carefully curated to be able to assist with your data challenges.

WHY DAREDATA?

DareData Talent Agency vs. Traditional Outsourcing

Traditional Outsourcing

Expertise

Vetted and managed by technical people. DareData Partners (vast experience in DS & DE) are responsible for vetting people into the Network.

Vetted and Managed by non-technical recruiters.

Network

Account Manager will route relevant technical questions and doubts to Senior Technical People. Get access to QA+ and add support hours on the fly.

No guaranteed access to senior technical people.

Incentives

Everyone in the transaction (Customer, DareData, Network Member) knows how much everyone is paying / earning. Margin is 100% transparent.

No transparent margin to Employee.

Locking Policy

After 1 year, you are free to hire the DareData member without penalty.

Exclusivity contracts for more than 1 year and predatory locking clauses.

Worldwide Talent Pool

We are an exclusively remote company. Access talent working from all around the globe.

Normally tied to local markets.

WHY DAREDATA?

You are in great company

Our brand is trusted by some of the most prestigious companies and startups around the world. Join them and unlock the value of your data.

WHY DAREDATA?

Our offer

We can provide you multiple seniority levels of the following technical profiles:

- **Data Engineers**
- **Data Scientists**
- **Machine Learning Engineers**
- **Data Analysts**
- **Full Stack Machine Learning Developers**

View our current network by visiting <https://www.daredata.engineering/about-us>.

Typical Rates (Hourly)

1 - 3 Years of Experience

The role is to implement requirements by coding, testing, and implementing technical features related to extracting, processing and analyzing data.

48-55 €

+4 Years of Experience

The role is to implement requirements by coding, testing, and implementing technical features related to extracting, processing and analyzing data. Additionally, this role is responsible for scoping and managing entire technical solutions.

60-70 €

With QA+ (paying a premium of 3% on rates), you can have your DareData member exclusive support of 2:30 h per week with a domain expert.
