| Mission Statement

Adept Medical prides itself on producing quality products that improve people's lives.

| Strategy

Supporting you... from start to finish

As a subsidiary and specialist medical business unit of the award-winning design and manufacturing company Adept Limited, Adept Medical is well placed to develop great ideas into quality, innovative solutions.

With design, tooling and manufacturing capabilities onsite, Adept Medical is involved in every step, from design conception to distributing our products globally and supporting end-users.

Our early interaction with clinicians ensures that products launched to market are proven, beneficial solutions that synergise with existing set-ups and workflows. Meticulously designed, each feature has been innovated and selected providing benefits to the end solution.

| About Adept Medical

Adept Medical is a leading specialist injection moulding and carbon fibre composite manufacturer to the medical market, located in Auckland, New Zealand. With an ISO 13485 certified quality management system and cleanroom facilities, we offer products to the global healthcare industry through an independent network of medical and surgical distribution companies.

As a subsidiary and specialist medical business unit of the award-winning design and manufacturing company Adept Limited, Adept Medical's product range has been developed utilising over 45 years of experience in the design and manufacture of high-end injection moulded products.

With integrated product development and design, engineering, state of the art tooling, precision injection moulding and manufacturing capabilities all on-site, Adept Medical is ideally placed to develop new products to fulfil unmet market needs.

| About Our Products

Adept Medical's Audiology Solutions provide a variety of non-sterile single-use instruments intended to prepare the ear for screening and diagnostic purposes in both clinical and audiological settings.

The range of instruments have been driven by award-winning designers and crafted from high-performance engineered materials, ensuring our products perform to the highest standard for clinicians, whilst offering comfort and safety for patients during the procedure.

Adept Medical's NeoZoline single-use instruments offer significant efficiency and safety benefits over reusable counterparts, providing an optimal solution for clinicians.

Cerumen Management Probes

Cerumen Hook

The unique single-use Adept Medical Cerumen Hook provides ease in loosening hard wax and other obstacles from the ear canal.

- Supplied non-sterile.
- Optimised hook geometry gives maximum leverage.
- Moulded from carbon-fibre reinforced nylon for strength with minimal visual occlusion.
- A lightweight, yet strong single-use version of the traditional metal instrument.
- Smooth edges reduce patient trauma, opposed to stainless steel counterparts.

Product Code	NZ3441-100
Quantity	100/ Pack
Material	Carbon Fibre Reinforced Nylon
Sterility	Non-sterile

Rosen Inserter

The Adept Medical Rosen Inserter has an optimised hook geometry that provides maximum leverage, developed to aid in grommet insertion and proves favourable for removal of objects in the ear.

- Supplied non-sterile.
- Moulded from carbon-fibre reinforced nylon for strength with minimal visual occlusion.
- A lightweight, yet strong single-use version of the traditional metal instrument.
- Smooth edges reduce patient trauma, opposed to stainless steel counterparts.

Product Code	NZ3461-100
Quantity	100/ Pack
Material	Carbon Fibre Reinforced Nylon
Sterility	Non-sterile

Jobson Horne Probe

The Adept Medical Jobson Horne Probe is a dual-ended instrument designed to aid in the gentle and easy extraction of cerumen in the ear canal.

The curette loop provides ease in safely and effectively removing excessive or compacted cerumen from the ear canal. Available in both round and oval curette loops, providing suitability for smaller or larger ear canal sizes. The threaded end efficiently grips cotton wool to further clean the ear canal during examination.

- Moulded from carbon-fibre reinforced nylon for strength with minimal visual occlusion.
- A lightweight, yet strong single-use version of the traditional metal instrument.
- Smooth edges reduce patient trauma, opposed to stainless steel counterparts.

Product Code	NZ3431-100
Quantity	100/ Pack
Material	Carbon Fibre Reinforced Nylon
Sterility	Non-sterile
Loop (mm)	3

Jobson Horne Probe Oval

The Adept Medical Jobson Horne Probe is a dual-ended instrument designed to aid in the gentle and easy extraction of cerumen in the ear canal.

The curette loop provides ease in safely and effectively removing excessive or compacted cerumen from the ear canal. Oval in shape, its geometry is optimised for use in smaller ear canals, including paediatrics. The threaded end efficiently grips cotton wool to further clean the ear canal during examination.

- Moulded from carbon-fibre reinforced nylon for strength with minimal visual occlusion.
- A lightweight, yet strong single-use version of the traditional metal instrument.
- Smooth edges reduce patient trauma, opposed to stainless steel counterparts.

Product Code	NZ3432-100
Quantity	100/ Pack
Material	Carbon Fibre Reinforced Nylon
Sterility	Non-sterile
Loop (mm)	2.5

Cerumen Management Kit

The Adept Medical Cerumen Management Kit provides a selection of high quality, single-use instruments commonly used for ear toileting procedures.

The Cerumen Management Kit is conveniently packaged, removing the possibility of cross patient contamination, and are priced to save on cleaning and assembly costs, providing economic benefits over selecting individual instruments.

Product Code	NZ3071-5NS
Sterility	Non-sterile
Quantity	5/Pack
Jobson Home Probe	1
Cerumen Hook	1
Ear Specula	3 (4mm, 5mm, 6mm)
Forceps	1 Stainless Steel, Ultra Fine, 4mm Jaw

Ear Specula

The advanced design of the Adept Medical Ear Specula provides maximum patient comfort and superior operational vision.

Matte finish and internal ridges reduce glare and reflection from the otoscope light onto the internal surface of the specula, improving operational vision.

The range is available in six medial end sizes (3mm-10mm), designed for a wide range of patients, including children to adults. The oblique oval medial has been designed to conform to the ear canal.

- Available in non-sterile polyethylene, in both 5 and 100 packs.
- Soft and flexible material to aid patient comfort.
- Serrated lateral end to aid finger grip.

	Product Code	Quantity	Medial End Size (mm)	Colour	Material
Ear Specula (3mm)	NZ3233-5	5/ Pack	3	Black	Polyethylene
	NZ3233-100	100/ Pack			
Ear Specula (4mm)	NZ3232-5	5/ Pack	4	Black	Polyethylene
	NZ3232-100	100/ Pack			
Ear Specula (5mm)	NZ3231-5	5/ Pack	5	Black	Polyethylene
	NZ3231-100	100/ Pack			
Ear Specula (6mm)	NZ3230-5	5/ Pack	6	Black	Polyethylene
	NZ3230-100	100/ Pack			
Ear Specula (8mm)	NZ3234-5	5/ Pack	8	Black	Polyethylene
	NZ3234-100	100/ Pack			
Ear Specula (10mm)	NZ3235-5	5/ Pack	10	Black	Polyethylene
	NZ3235-100	100/ Pack			

Micro Ear Forceps

The Adept Medical single-use stainless steel Micro Ear Forceps are available in three variations of size to suit a wide range of patients, including 4mm jaw, 7mm jaw and the 4mm Ultra-Fine varieties.

Ultra-Fine Micro Ear Forceps are thinner in width than the Micro Ear Forceps and have been designed for patients with a smaller ear canal, offering improved ease of access for the clinician and assuring patient comfort.

The tapered tip has been designed for ease of manoeuvrability in the ear canal, with a bent angle so as not to obstruct the view of the clinician.

The smooth opening and closing action ensures ease of use.

Crafted from medical grade stainless steel, ensuring biocompatibility and compliance with ISO 10993.

Micro Ear Forceps 4mm Jaw

Product Code	NZ3452-10NS
Sterility	Non-sterile
Quantity	10/ Pack
Jaw Length (mm)	4
Length (mm)	75
Material	Medical Grade Stainless Steel

Micro Ear Forceps 7mm Jaw

Product Code	NZ3453B-10NS
Sterility	Non-sterile
Quantity	10/ Pack
Jaw Length (mm)	7
Length (mm)	85
Material	Medical Grade Stainless Steel

Micro Ear Forceps 4mm Jaw Ultra Fine

Ultra-Fine Micro Ear Forceps are thinner in width than the Micro Ear Forceps and have been designed for patients with a smaller ear canal, offering improved ease of access for the clinician and patient comfort.

Product Code	NZ3457-10NS
Sterility	Non-sterile
Quantity	10/ Pack
Jaw Length (mm)	4
Length (mm)	75
Material	Medical Grade Stainless Steel

Micro Ear Suction Tubes

Adept Medical's range of Micro Ear Suction Tubes provide an effective solution for the suction of fluids and other media from the ear canal.

- Single-use Micro Ear Suction Tubes provide a viable alternative to reusable counterparts, where you cannot guarantee cleanliness and sterility of the inner tube.
- Available in a variety of tube medial sizes to safely remove debris in stages and provides suitability for a range of patients.
- Suction Tube has colour coded hub for ease of tube size identification.
- Bent to an optimal angle.
- The Suction Tubes are designed to work alongside the NeoZoline™ Suction Controller.

	Product Code	Quantity	Outer Diameter (mm)	Internal Diameter (mm)	Colour	French (Fr) Size:
Micro Ear Suction Tube Bent (14 Gauge)	NZ5254Bent	100/ Pack	2.1	1.65	Green	Nearest French Size 6
Micro Ear Suction Tube Bent (16 Gauge)	NZ5250Bent	100/ Pack	1.7	1.28	White	Nearest French Size 5
Micro Ear Suction Tube Bent (18 Gauge)	NZ5251Bent	100/ Pack	1.3	0.91	Pink	Nearest French Size 4
Micro Ear Suction Tube Bent (20 Gauge)	NZ5252Bent	100/ Pack	0.9	0.64	Yellow	Nearest French Size 3
Micro Ear Suction Tube Bent (22 Gauge)	NZ5253Bent	100/ Pack	0.7	0.44	Grey	Nearest French Size 2
Micro Ear Suction Tube Bent (24 Gauge)	NZ5255Bent	100/ Pack	0.6	0.34	Purple	Nearest French Size 2

Suction Controller

Designed for use with our range of Micro Ear Suction Tubes, the Adept Medical Suction Controller simply clips onto the end of the Suction Tube, providing the clinician with control over the level of suction used during procedures, through a thumb vent mechanism.

- Designed to fit Adept Medical NeoZoline™ Suction Tubes.
- Easy to use.

	Non-Sterile
Product Code	NZ3238-100
Quantity	100/ Pack

THE BENEFITS OF

Single-Use NeoZoline™ products

OVER REUSABLE PRODUCTS

Although reusable items can initially appear to be more cost-effective, single-use instruments exhibit many benefits in a healthcare environment when considering patient safety and procedural efficiency.

Efficiency

Adept Medical's single-use instruments are presented to support efficiency, ensuring correct instruments are always available for the clinician.

Safety

Single-use instruments remove the risk of cross patient contamination, presenting clean instruments for each procedure and guaranteeing patient safety.

NeoZoline™ single-use devices are an optimal solution for clinicians in the audiology industry and are strong contenders for the healthcare facility instruments of choice.
