

# Installation instructions for Pole Holder

**MyGlassTruck.com**

**1-844-364-4022**

## TOOLS & HARDWARE

Supplied Hardware	Qty.
MGT Pole Holder Assembly	1
10" Vertical Rubber Padding	1
5/16-18 x 2-1/4" Bolts	2
5/16-18 Nuts	2
5/16" ID flat washers	2
5/16" ID spring locking washers	2

### Required Tools:

Drill

11/32" drill bit

1/2" Wrench

1/2" Socket/ratchet

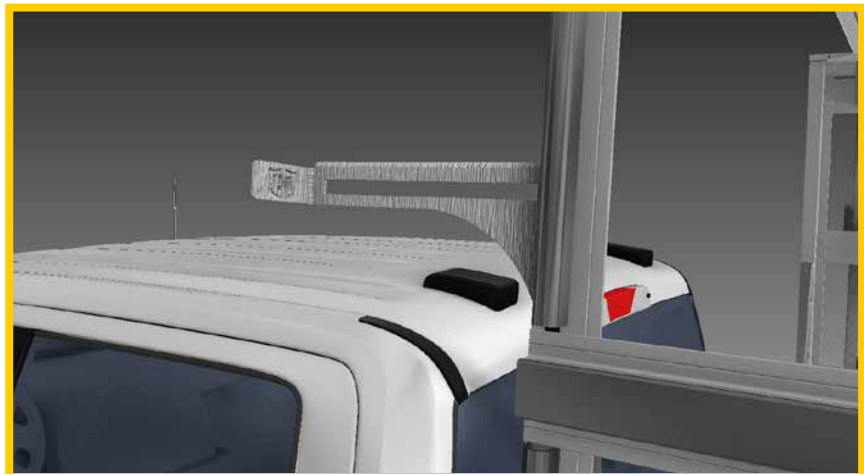

## INSTALL POLE HOLDER

1. Locate which side pole holder should be installed (left or right side of rack)

2. Determine height on outside post to install pole holder

**Note: Be sure pole holder will not block the door or any other moving parts on vehicle**

## Install Optional Pole Holder

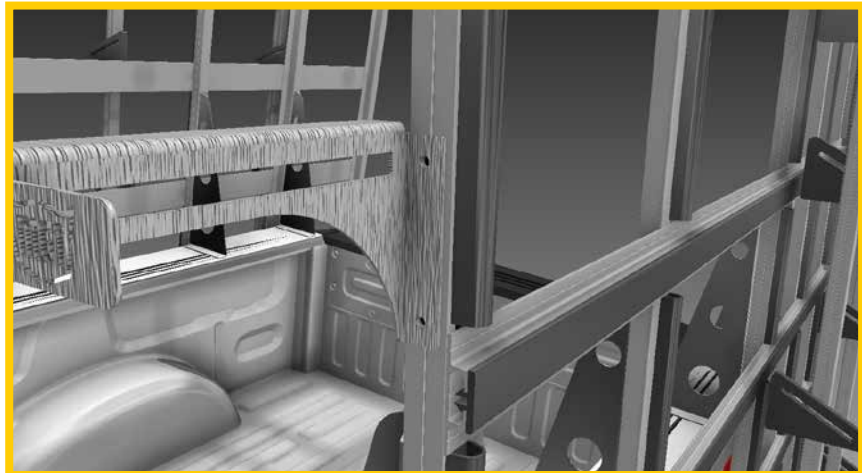

3. Use pole holder itself as a template to mark (2) holes to be drilled 4-3/4" apart.

4. Drill holes at marked locations with 11/32" drill bit

5. Fit pole holder to post and check alignment of holes

## Install Optional Pole Holder

6. Fasten pole holder to post with supplied 5/16" hardware, inserting the bolt from the outside of the rack.

7. Tighten with 1/2" wrench / sockets.

8. Install MGT rubber into rectangular slot

Pole holder installed.
