

The Leader in the Roller Shade Industry

Mecho is the premier solution for state-of-the-art manual, motorized, automated, and integrated shading systems. Mecho's commitment to environmentally responsible, human-centric design, energy-saving products, and control systems is recognized as the preferred solution provider to the A+D community.

MATERIAL

Choose from a variety of solar fabrics for daylight management, UV & glare protection, acoustical performance, energy management, and more.

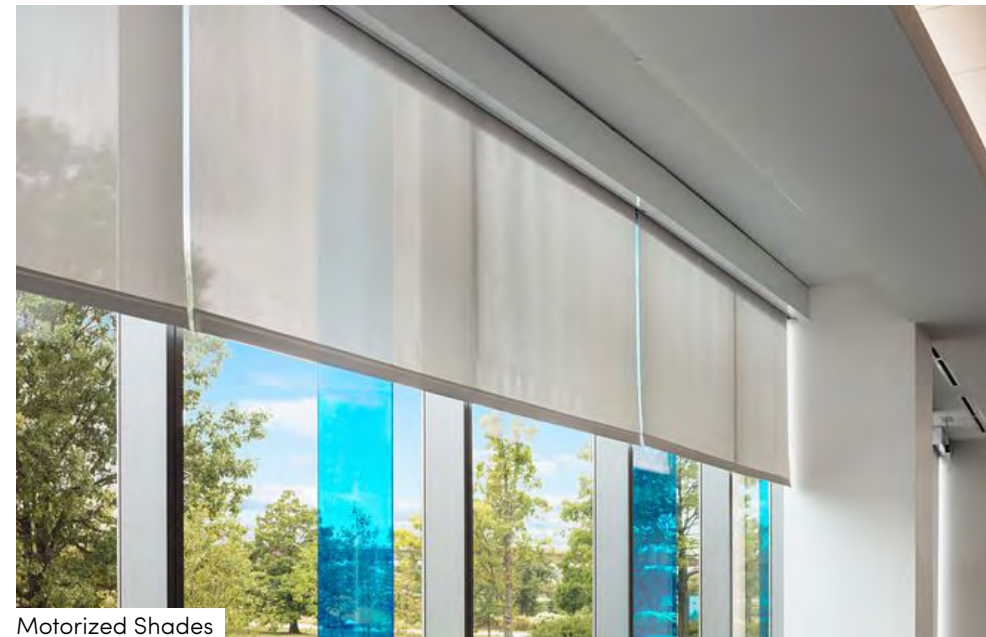

SHADING SOLUTIONS

Mecho offers award-winning manual, motorized, automated, and specialty shading systems, delivering innovative solutions for every project.

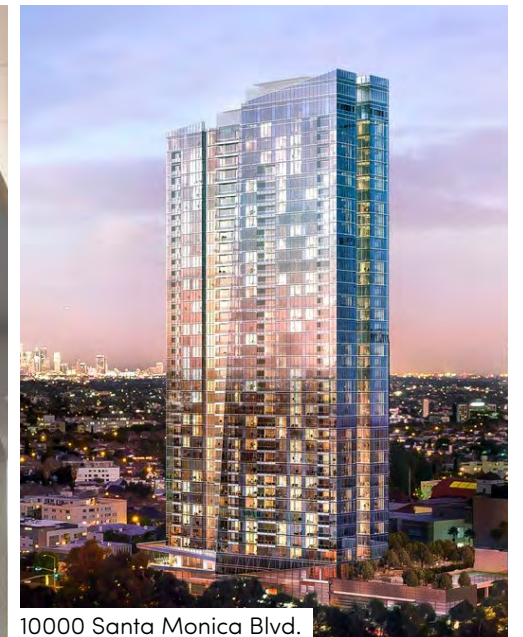

SUSTAINABILITY

Whether you're working toward LEED® Certification or just need a high performance shade system, you'll get cost-savings from improved building efficiency.
